ENDS HIS LIFE
WITH REVOLVERJoseph Rozeman of Trimontain,
Suicides, Following Quarrel

Joseph Rozeman, 30 years of age, a resident of Trimontain, shot and killed himself yesterday afternoon with a .25-caliber revolver in Joseph Rozeman's boarding house at Trimontain. The man is alleged to have had a slight altercation with a friend late Saturday night while celebrating the Fourth and it is claimed his companion threatened to have him arrested. He is said to have been under the influence of liquor at the time and whether it was the after effect of his celebrating in the fact that he was frightened at the thought of being jailed that prompted him to do the deed is unknown.

Rozeman committed the deed by lying prone on the floor, placing the revolver to his breast and pulling the trigger. The bullet passed through his body and came out behind his left shoulder blade. He died almost instantly.

Justice John J. Eickens was summoned to inspect a coroner's jury and he impounded the following men:

Dominic Zahs, William Nancarrow, John Scutell, John Dolan, William J. Pascoe and Walter Chapel.

The coroner's jury met and adjourned until Thursday to investigate further facts in the case.

With the completion of the Covington township road, the Copper Country Commercial club will plan for the Copper Country-Chicago automobile tour which will be conducted in conjunction with the Marquette and Menominee Commercial clubs.

The Copper Country club has been notified that the Covington road will be completed in a few days; this information having been conveyed to Secretary George L. Prior by the contractor. All that remains to be done is the construction of a bridge and with it, the connecting link between the copper and iron districts will be formed.

Incidentally, the Marquette-Houghton journey, a distance of 90 miles, can be made in five hours and in the shape of a celebration, commemorating the completion of the road, the Copper Country club is contemplating an initial run to that city.

HOUGHTON'S CELEBRATION
IS DEEMED BIG SUCCESS

CITY RE-ESTABLISHES REPUTATION AS ENTERTAINERS OF COPPERDOM.

Houghton's Fourth of July celebration was the biggest on record. There was not a missing incident during the day and the demonstration was carried out according to schedule. In this festival, Houghton's citizens re-established their reputation as the most loyal entertainers in the district, and the county seat was the mecca of residents of the entire copper country. Enthusiasm was everywhere evident and every one contributed toward making the celebration a success.

Incoming trains brought people to town early in the day and 10 o'clock the hour set for the beginning of the fête, found the streets thronged. The parade assembled promptly at 10 o'clock and headed by Spanish-War veterans, mounted, the pageant swung onto Sheldon street. The C. & H. band brought up in the rear of the mounted division, then came the Houghton Infantry, Boy Scouts, Houghton, Hurontown and Ripley are departments, Quincy band, floats, Calhumpians, city officials and citizens.

The parade dispersed at the band stand on Huron street where the C. & H. band rendered patriotic selections, followed by the address of the day by R. H. Shields. This concluded the morning session. At 1:30, the sporting events began and until evening, the spectators were amused with track and aquatic competitions. Meanwhile, the C. & H. band was dispensing music on the Huron street stand and a daylight display of pyrotechnics held attention in another part of the village. The canoe and swimming races were the features of the athletic events.

In the evening, an illuminated parade, in which the burlesque feature was the hit of the celebration held attention for several hours and the festival concluded with a big fireworks display.

BOOSTS BONDING PROJECT.

Peter Newman, Prosperous Farmer, is Interesting the Taxpayers.

Through the efforts of Peter Newman, of Baraga, one of Baraga county's read commissioners, the taxpayers of that county are becoming interested in a \$150,000 bonding project. Mr. Newman's object is to complete a highway between Houghton and his county, a road he proposes, that will be one of the best in the upper peninsula. Mr. Newman believes his county would benefit materially by automobile parties from the copper country and he is advancing this theory to the taxpayers of his district.

Mr. Newman arrived in Baraga when the county was a wilderness. He has seen prosperous towns and villages spring up, all the while he was farming, and he now is one of the prosperous settlers of Skanaw.

At the present time, he has a force of men at work on the lake shore driveway between L'Anse and Skanaw. This road succeeds the old state road, which took the public over Silver River hill and numerous other miniature mountains, making the drive a long one for the public and a hard one on horses and automobiles. The new road not only cuts off the hills but shortens the drive about three miles. It is a cooler drive in summer and a warmer ride in winter.

MARRIAGE LICENSES.

A marriage license was issued by County Clerk Kaiser today to Mill Maljkovic and Miss Solka Maljkovic, residents of Dodgeville location.

CELEBRATIONS A SUCCESS.

Mill Towns Conduct Joyous But Safe Demonstrations.

Lake Linden and Hubbell were hosts at safe and sane celebrations Saturday and favored with propitious weather, the patriotic demonstrations were carried out to the letter. Generally, the attractions at both towns were similar and the citizens of one contributed toward the success of the other. A military salute at sunrise was the signal for the opening of the festivals and big fireworks displays brought each of them to an end. The feature of the Lake Linden celebration was the water carnival and the lake shore was lined with people during the entire morning. The exercises, too, were enjoyed as were the band concerts and the races in the afternoon held the attention of spectators.

ANNUAL SCHOOL ELECTION
WILL TAKE PLACE JULY 13

TWO MEMBERS OF BOARD OF EDUCATION TO BE CHOSEN MONDAY.

The annual school election of Portage township will be held next Monday evening, July 13, in the Central school building. Two members of the board of education will be elected and Deen L. Robinson and E. L. Batchelder, whose terms expire this year, will probably be named to succeed themselves. The budget for 1914-15 to be raised by taxation, also will be fixed. This amount probably will be somewhat less than usual inasmuch as there is no new building in prospect.

One important feature of the meeting is the possibility of the board determining to expand the manual training department of the Houghton public schools. This department is an excellent one but at present is handicapped for lack of room. It is conducted in the basement of the Central school and this location is unfavorable for various reasons. A feature of the work has been pattern making and casting but owing to the limited space the latter portion of the work had to be curtailed.

BEGIN WORK ON
NEW HIGH SCHOOL

Houghton Contractor Excavating for Dollar Bay Structure

John J. Michaels, the Houghton contractor who secured the contract to erect the new high school building at Dollar Bay, has commenced work on that new and modern structure. Ground was broken last week and from now on the work will be advanced as rapidly as possible. Present indications are that the new school will be one of the most modern in this district. Plans for the structure have been displayed by the Houghton contractor for several weeks and many have exhibited considerable interest in the new building. There are many unique features in the building, which was designed by Derrick Hubert, the Menominee architect.

The building will have an imposing facade with its ornamentation of cut-stone. It will have two entrances, each of which will lead to a wide corridor on the first floor, leading to the basement.

The building will be constructed of brick and Portage Entry cut stone. It will be 140 feet long and 90 feet in width, and will have in addition a 55x20 foot boiler house in the rear with a 20-foot brick smokestack.

F. W. Stoye of Houghton has secured the contract for the plumbing in the building and the Peninsula Heating company of Laurium was awarded the contract for the heating plant. It is anticipated ten months will elapse before the building is finally completed and it probably will be occupied for the first time in September, 1915.

The basement has storage, locker and exercise rooms and a space reserved for a bowling alley, which will be installed at some future time. The principal space in the basement, 41x70 feet, will be devoted to the gymnasium which will extend up through the first floor with a hanging running track encircling the first floor. On the first floor, surrounding the track, will be built rooms for athletics, the domestic science and manual training departments and a luncheon room.

The assembly room on the second floor will extend up through the third floor to make on that floor space for a balcony extending around three sides. The school is designed for a community center, and the assembly room, which will be 81 feet long and 52 feet wide, is actually a theatre. It will have a pitched floor and a commodious stage. There will be seven recitation rooms on the second floor, a teacher's rest room and various locker rooms for the clothing of the pupils. On the third floor, surrounding the balcony, will be installed the commercial department and the laboratories. On the third floor there will also be a small music room with a stage, in the rear of which will be a reception room and a room for the personal use of the musical directors of the school.

SUMMER SCHOOL OPENS.

Students Now Given an Opportunity to Take Manual Training.

Students of the Hancock public schools are afforded an opportunity to take a summer course in manual training, with the opening of the school today. Instructor Archie Nevins, of Otsego, Mich., is in charge of the class.

Mr. Nevins arrived in Hancock yesterday and immediately placed things in readiness for the opening. The classes were divided into five different sections and each class has been assigned a different period of time when they will be permitted to use the school equipment for their work.

The summer school will give many boys and girls who have nothing to do a chance to learn something that will be of value to them in their future life. Ninety-five students have already enrolled and it is expected the class will be increased largely before the end of the week.

DINGLE FUNERAL IS HELD.

NAVAL RESERVE RETURNS.

Middies Enjoy Fourth Of July Trip to Head of Lakes.

Members of the Hancock and Marquette divisions, Michigan Naval Brigade, returned at 5 o'clock this morning from Duluth, where they visited since early Saturday morning. Officers and members of the divisions were loud in their praise of the treatment received at the hands of the Minnesota reserve and state that they are royal entertainers.

The training ship Yantic, and officers of the two divisions left Hancock Friday noon, arriving in Duluth early Saturday. The trip was a delightful one despite a mild storm which struck Friday night. Members of the Minnesota reserve met the local sailors and escorted them to the city. In the afternoon the middies were given shore duty while in the evening officers of the Minnesota division entertained the Michigan officers at the Spaulding hotel.

TOT CREATES EXCITEMENT.

City Police Force Succeeds in Finding Franklin Child.

Edna, the little daughter of Mr. and Mrs. Edward Lawrence of Quincy, caused considerable excitement Saturday afternoon when she strayed away. The little one left home early in the afternoon and told her parents she was going to the Franklin station. When the youngsters did not return home after an hour or more the parents became worried and instigated a search for her.

The Hancock police were notified and at eight o'clock in the evening she was found wandering about the streets of the city.

The Fourth Of July in Hancock was very quiet in the line of accidents. Barring several minor burns received by youngsters there were no mishaps and the celebration was decidedly safe and sane.

The Cook's Book
By Mrs. Janet McKenzie Hill
It's FREE

Our instructions to the famous editor of the Boston Cooking School Magazine were: "Get up a book of recipes of the things people like best. Find the best way to make and bake each one. Then write it out so plainly that even an inexperienced housewife can't have a failure."

"The Cook's Book" was the result. Some of the 90 recipes were originated, many of them were improved upon, and all were personally tested by this best known authority on cooking in America, and she tells so clearly how she made everything that one cannot go astray.

While some of the cakes and pastry are elaborate enough for any occasion, the recipes are all thoroughly practical and call for no expensive and unusual ingredients. In addition to telling how to make them, the book is beautifully illustrated in colors showing how to arrange and serve the dishes appetizingly.

More than half a million of "The Cook's Book" are now in use in American households. Yet the demand is constantly increasing. Many send for two or three at a time to give to friends or young housekeepers. Don't depend on borrowing one from a neighbor—have one of your own.

How to Get "The Cook's Book"

In every 25c. can of K.C. Baking Powder is packed a colored certificate. Send us one of these certificates (paste it on a postal card if you like) with your name and address plainly written, and "The Cook's Book" will be mailed free of charge. Only one book for each certificate.
