TY COBB AGAIN LEADS LEAGUE

Rivals Slump While "Peach" Is Idle With Broken Thumb

Chicago, July 7.—Ty Cobb's idleness, forced on him by a broken thumb, while his rivals slumped, put him in first place among the batters of the American league, according to averages published here today. His percentage is .349. The next nine batters in the American league are: C. Walker, St. Louis, .347; Baker, Philadelphia, .329; Crawford, Detroit, .324; Jackson, Cleveland, .322; E. Collins, Philadelphia, .314; Speaker, Boston, .301; Lelland, Cleveland, .297; R. Wood, Cleveland, .291; Milano, Washington, .288. The Athletics lead in club batting with .261, and Detroit is second with .246. Maisei of New York leads in stolen bases with 27.

E. Burns of Philadelphia is leading batter in the National league. His average for 24 games is .395. Next comes Hummel, Brooklyn, .352; Dalton, Brooklyn, .339; Grant, N. Y., .337; Byrne, Philadelphia, .327; Becker, Philadelphia, .320; G. Burns, New York, .312; Devore, Philadelphia, .308; Connolly, Boston, .306; Daubert, Brooklyn, .306. Philadelphia leads in team hitting with .267 and New York is next with .266. Herzog of Cincinnati is ahead in stolen bases with 27. In the Federal league, Charlie Carr, Indianapolis, continues the leader, with .415. Next are: Kauff, Indianapolis, .402; Evans, Brooklyn, .373; Campbell, Indianapolis, .367; Easterly, K. C., .352; Lennox, Pittsburgh, .343; Bradley, Pittsburgh, .340; Crandall, St. Louis, .343; Walsh, Baltimore, .337; Quinn, Baltimore, .327. Indianapolis, with .296, and Baltimore with .278 lead in club batting. Kauff holds stolen base honors with 32.

GERMAN SPORTS INTEREST.

65,000 Members Added to "Turner" Organizations in Year.
Berlin, July 7.—The interest that German sporting circles are taking in the Olympic games to be held in Berlin in 1916 is reflected in a remarkable increase in the organizations of the turners. The annual report of the national organization shows that 459 new clubs, with a membership of 65,000, joined it in the course of the year. The general organization now consists of 11,000 clubs, having a total membership of 1,400,000.

The turners are trying to induce the military authorities to prescribe a certain minimum degree of physical development to entitle recruits to lighter military exercises. As a great part of the military drill, particularly in the first year, is designed merely to develop physical strength, the turners argue that much of this could be dispensed with in the case of the young men who have already made themselves strong through systematic exercise, and they believe that the exemptions asked for would give a great impetus to their organizations.

SAY CHALLENGER IS SPEEDY BOAT

English Yachtsmen Are Displeased With Skipper Named

New York, July 7.—American yachtsmen, who are in close touch with the preparations being made for Sir Thomas Lipton for his fourth attempt to lift the America's Cup, have recently received an interesting analysis of the preliminary showing of Shamrock IV. According to this report the challenger designed by Charles Nicholson is likely to prove the most dangerous yacht ever sent across the Atlantic in quest of the famous trophy.

As in the case with the cup defense yachts Resolute, Delancey and Vantile, there still remains much to be done on Shamrock IV before she sails for America late this month. Several changes in rig and ballast have already been made and the experimenting and drilling of the crew will continue until the challenger is put under jury rig for the long voyage to the cup course.

The old yachting hands, while acknowledging that Captain Burton, who is to command, is probably the best racing man in Great Britain today, do not like the idea of Captain Sycamore, with all his experience of racing off Sandy Hook, being entirely eliminated.

Crew To Be Trained.
This move was doubtless decided upon to avoid the friction that occurred in 1903, owing to a sort of dual command. This year Captain Burton, will be in sole command. He will have as his assistant, however, Captain Turner, who acted in a similar capacity for Burton in most of the big races in English waters, and recently on Sir Thomas Lipton's twenty-three metre yacht Shamrock in English regattas. Aside from the lack of experience in America Cup races, some doubt is expressed among racing yachtsmen whether these two will get as much out of the crew as would Captain Sycamore, who is better known among the men forming the crew.

A yachtsman who has had experience with each of the yachts Sir Thomas has sent across the Atlantic, expresses the opinion that one of the chief causes of failure in the past has been the lack of training of the crews of the Shamrocks. The Americans, he points out, spend weeks in setting their crews into training, and hour after hour they are put through practice of lowering and raising sails, until orders given by the captain are

Crutcher and Gowdy. Two-base hits—Mann, Boston; Allen, Brooklyn.

Buffalo, July 7.—A ninth inning rally threatened for a time Pittsburgh's victory yesterday. With Smith on second and Blair on first and two out Manager Schaffly lined out a hit that brought home a run. Delahanty, who followed him, flied out, however, and thus ended the run getting.

CHINESE MEDICS MUST BE TRAINED

Rockefeller Commission Finds This Is Only Solution

Peking, July 7.—The Rockefeller Commission which is here investigating China's needs in a medical and surgical way has already found that a most important point in this: The Chinese must be taught to accept themselves along modern lines and not rely, except for the present, upon the foreign medical men.

The country is so vast and the need of the medical men so extensive that all the doctors and surgeons in America could be utilized in China. Such a great invasion, or even enough to make any wide impression, is impracticable. The solution must be the training of the Chinese doctors. At present there are only a few score of them trained along modern lines, and these have difficulty in making a living. The Chinaman is suspicious of the second-hand training of the modernized Chinese doctor, and if he is moved to resort to foreign treatment he prefers to go direct to the foreign doctor.

The commission, which is represented here by Dr. Harry Pratt Judson, president of Chicago University, and Dr. Francis W. Peabody of Boston, has not some far enough to commit itself to any definite plan, but its report undoubtedly will be largely concerned with the problem of making the foreign-trained native doctor respected in China.

Know Nothing of Anatomy.
Chinese medicine is a poor thing. The Chinese have had for centuries remedies for certain well-known diseases, remedies which are often very effective. But they have never, apparently, studied anatomy, and know little or nothing of the reasons for motions and counteractions. Much if not most of their work is quackery. They have very little knowledge of surgery. As a rule the Chinese doctor cannot set a bone. Men whose broken limbs could be stuck together by an ordinary man in Europe or America become permanent cripples in China. Such are to be seen even on the streets of Canton, Shanghai and Peking, where the services of the foreign doctor are always available. They are men who have gone to their own instead of foreign doctors, and probably have received plasters, or even medicine to take internally, for their broken bones.

Believe in Miracles.
Some of the tales that go through the country about the missionary doctors are to these people like stories of the Bible. A man learns of a surprising cure, which seems to him miraculous. A friend has been shot by bandits or by marauding troops of the government and is paralyzed down one

side as a result. The foreign doctor opens his hand, takes out a little piece of metal, and the man begins at once to walk and talk. Or it might be in the case of a woman who was blind from a cataract and has been given sight.

TOOK PIERSON OVER HOUR TO THROW CALUMET MAN

SALOTTI MAKES GOOD SHOWING IN WRESTLING TOURNEY IN NEGAUNEE.

Christ Pierson, one of the best old-time wrestlers now in the game, carried off first money at the wrestling tournament conducted at Negaunee in connection with the homecoming celebration. Pierson, who now lives in Duluth, came to Negaunee to meet Karl Lehto, the Finnish heavyweight champion, but Lehto did not show up.

Upwards of twenty catch-as-catch-can grapplers were entered and some fast and interesting bouts were staged, especially the match for first place between Pierson and Salotti, an Italian heavyweight from Calumet. The latter is a new man in the game, but he is one of the best in the upper peninsula at this time. It took Pierson over an hour to throw him in the finals Friday night.

William Kelly, of Diorite, won first prize in Cornish wrestling Saturday, and George Pepin, a youngster from Gwin, won second. John Sutherland, of Bessemer, who was the heaviest man entered, weighing in at 217 pounds, took third money in the Cornish style, but was outclassed in the catch-as-catch-can.

Catch-as-Catch-Can.
First—Christ Pierson, Duluth, Minn., 150 pounds.
Second—Hytonen, Marquette, 167 pounds.
Third—Salotti, Calumet, 203 pounds.
Fourth—Emil Aho, Marquette, 145 pounds.
Fifth—Matt Kangas, Negaunee, 182 pounds.
Sixth—Pesola, Princeton, 149 pounds.
