LOCAL BRIEFS.

"Let us have peace." See card of B. A. Sanderson, tonorial artist.

"Whence come wars and fightings among you?" Squire McCarty informs us that cotton picking is in progress in his vicinity.

Some parties from San Antonio are opening a restaurant in Mrs. Briggs' building, on the east side of the square.

The new Wood building is to have an open front in modern style. The rooms will attract intelligent business tenants.

We present this week the name of Frank M. Johnson as a candidate for county treasurer. If elected he would no doubt fill the place well.

The Neat Printer of Johnson Bros. for June is to hand. Among other things it contains a sketch and accurate likeness of J. P. Bridges, the new president of the Texas Press Association.

Some of the young shade trees in the court house grounds are dying in consequence of the drought. It seems to us it would be good economy on the part of the proper authorities to have them watered.

As will be seen by the advertisement in our column, the International & Great Northern Railway has re-established headquarters at Palestine, Texas.

Some of our Alliance people, considering that Buda was rather remote, concluded to have a picnic at the McGehee grounds on Tuesday.

PERSONAL.

We regret very much to hear of the untimely ill health of Mrs. Watson.

The venerable mother of John S. Brown was present at the picnic on Tuesday.

Rev. Mr. Beverly requests us to state that services at his church will be resumed on Sunday.

J. W. Green has sold out to T. C. Johnson, and has bought a slightly place near by, on which he is erecting a residence.

We were pleased to make the acquaintance at Tuesday's picnic, of Mr. and Mrs. I. S. James of the vicinity of Prairie Lea.

A late issue of the Fort Worth Gazette gives a biographical sketch of Joe Fowler, the notorious desperado, who resided for a while at this place.

Our venerable friend, Mr. Jennings, of down the river, was at the picnic, looking more hale and vigorous than many young men.

We are under special obligations to our friend Mr. Johnson for the handsome present of about a peck of choice grapes from his vineyard, which is probably the leading one in town.

Elder J. J. Williamson and family have gone back to Arkansas to reside. Was it a "lunder call" which inspired this sudden departure?

We were pleased to meet here on Monday Dr. Marion Mullins, of Fort Worth. He spoke of the wonderful transformations he noticed of little boys and girls as he remembered them into full grown young men and ladies.

We were gratified Monday by a pleasant call from Miss Agnes Manford of Luling, a niece of Elias Agnes Manford, the noted preacher, known to us by reputation while residing in Indiana and since.

At the picnic on Tuesday we, in company with a good many others, dined with the Davis Brothers, John and Thomas, and have not enjoyed a better dinner for a good while.

John S. Brown, B. F. Ezell, and others, also had "spreads" of a profusion of good things, a large quantity of which were left over.

We had occasion a year or two since to notice some family memorials owned by Mr. Leffingwell, of this place.

Mr. H. C. Leffingwell has in his possession a copy of the Holy Bible translated from the Latin vulgate, and first published by the English at Douay, A. D. 1609.

The Phrenological Journal for July contains portraits, biographies, and character delineations of Nathan Smith Davis, Thomas Westworth Higginson, Dr. Merrill Mackenzie, and Emperor Frederick William.

PERSONAL.

that enables the system to resist the depression caused by the poison. Certain alkalies, such as Ammonio and Per-Magnate of Potash, sometimes effect a cure by neutralizing the acid of snake poison.

A very intelligent and well informed physician of this place told me that he thought the possibility of curing a rattlesnake bite by the accepted methods of treatment depended upon the age, size and condition of the snake, which would govern the quantity and virulence of the poison injected.

It is the fashion among some medical men to deride such remedies as the one under discussion, but we all know that the science of medicine has not yet gotten beyond the experimental stage in some features.

you know how Mosher is. There are no fences here and people go right in and help themselves to fruit. Scarcely any one objects to it.

Mosher & Gladius are putting up the district school house in this place; a \$5,200 job, and I have the painting job to do at \$225.

I have done fairly well here; I don't regret coming. There is a good class of people here, sociable and kind.
