Single copies of the Free Press are on sale at the San Marcos Bookstore, as well as at the office, at 5 cents each.

We guarantee the Big 8 Flour to be the best in the market. Sold only by H. HARDY & CO.

GUARD AGAINST MOTHS! Tarite, better and cheaper than Camphor at RAYNOLD & DANIELS.

Nance's new Livery Stable is about completed and the lessees, Hawk & Wood, are already prepared to serve the public in their line, call and see.

MONEY FOUND—Party who lost money can probably recover by inquiring at this office.

Hay for Sale Baled and loose Johnson grass, sugar cane and oats for sale. Inquire at foot of Chastanqua Hill of B. PRITCHEL.

A new line of Embroidered Dress patterns of new designs in Chastanqua, Seersucker, Gingham, Satinens and White Lawns, remarkably cheap. DAILEY & BROS.

For Rent. A neat cottage for rent, in a desirable part of town. Apply to W. D. Wood or J. W. Whaley.

MILLINERY. Mrs. Richardson's elegant millinery store is now a center of attraction to the ladies. All the novelties of the season and all prepared over by the superior taste of the proprietress.

John P. Kone is running the Drunkard Market, and will keep constantly on hand the best of meats, including barbecued. Try him.

Our extensive shoe stock is constantly receiving new additions. Can suit any taste as regards quality, fit and price. It is well worthy of an inspection. JOHNSON & JOHNSON.

High tide of the Millinery business prevails at Prof. Watson's Millinery store, presided over by Miss Handie. Everything new and seasonable. New goods constantly coming to take the place made vacant by constant sales.

New Firm. Messrs. Bell & Boss have gone into partnership in the Livery Stable business at the old Harper stand. Good stock and vehicles, terms reasonable. They solicit a share of public patronage.

For Sale or Rent. The residence of the late Mrs. Belvin, in San Marcos, also will sell the household furniture, Apply to J. E. Pritchett, either at home or at his office. apr 18 1/2

THE CELEBRATED La Belle Wagon. I am agent for this wagon and in receipt of a car load of them which I offer at low prices and on good terms. WM. GIESSEN.

ATTORNEY'S BRIEFS, Printed in the best style at the FREE PRESS OFFICE.

Peter Seubert, Merchant Taylor, makes clothes as cheap as they can be made according to good workman ship. Call and see him.

Notice of Dissolution. The partnership heretofore existing between Mrs. Ed. Christian of Austin, and D. C. Ruppelle of San Marcos, in the lumber business, was dissolved on the 13th inst., by mutual consent. Mrs. Christian is to pay all the indebtedness of the late firm, and receive all debts due the same.

Mrs. Ed. Christian, D. C. Ruppelle.

LOCAL BREVITIES.

The hail storm of last week damaged the corn but not seriously.

There was a killing frost on the Sabinal on the night of April 30th.

Up to this writing the weather has continued damp and chilly for this latitude.

We learn that Mayor Hardy expects to order another vote on the school house question soon.

Dr. J. W. Combs, Dentist N. Side Plaza. The order of Chosen Friends will celebrate their tenth anniversary May 28, on Chastanqua Hill by a picnic.

Our Martindale and Wimberly correspondents have become sadly delinquent. Are there no more local happenings in and around those places?

What's the matter with the street cars, electric lights, paper mill, opera house, city park, etc. There is nothing the matter however, with the natural gas.

Dr. J. H. Combs Dentist, N. Side Plaza.

A protracted meeting is in progress at the Methodist church under favorable auspices. Services daily at the church at 9:30 a. m. and 8 p. m. All are invited.

Kyle incorporation was endorsed on Saturday by a majority of four votes. But in order to succeed we learn the leading friends of incorporation promised that the corporation taxes should be reduced from 50 to 25 cents on the \$100. The corporation and waterworks seem to be something of an elephant to our sister town.

Interesting Lecture. Rev. W. H. Milburn, the well-known eloquent blind preacher, will lecture at the Court House to-morrow (Friday) night, at 8 P. M. Subject: "What a Blind Man Saw in England." Come out and hear him; you will miss a rare treat if you do not. Admission, adults 40 cents, children, half price.

The Victoria Review truly remarks: The county commissioners of every county are responsible for its condition. They, and they alone, can say whether or not it shall have good roads, bridges or other improvements. The little care is given to the selection of men for this office. It is really a more responsible one than that of representative.

"Brick" Pomeroy, at 224 Broadway, New York City, is editing and publishing the liveliest and most interesting \$1 a year publication ever printed in this city. His famous Saturday Night chapters; his Pen Pictures of London; his description of the "plague places" of New York City, and his vivid chapters of Life Experience in La Crosse during the war, are each worth more than the price of his paper, which bears the significant title of Advance Thought. Pomeroy is a fifty-five year old volume of National History, and now he is letting it out red hot.

The Wren-Davis Case. We learn from District Clerk Peel that the transcript of evidence in the above case has just been forwarded to Austin. It is perhaps unprecedented in size from this section, containing over 300 pages, or fifty-thousand words. It should have been ready by April 23d, but it was found impossible to complete it by that time. As it stands its submission to the superior court will have to be based on agreement between the parties, but Mr. Peel thinks agreement is likely to be had. The total costs so far are \$910.16 of which \$500 are for witness fees, though only about half the witnesses claimed their fees. If submitted, it will probably be a good long while before the case will be reached in the higher court.

A Big Excursion. May 20th an excursion consisting of fifty Wagner steamer cars, with language and hotel cars attached, will reach Denison in ten sections, five coaches, a baggage and dining car forming a section. It will be the largest as well as the wealthiest party of excursionists ever brought South. The party will be composed principally of manufacturers from the north and east who facturers from the north and east who are coming down to investigate the advantages offered by Texas for manufacturing industries.

We clip the above from a column of railroad news in the Express of Tuesday. It records an important fact of which our town should take cognizance for its own interest. We concur in the suggestion that a public meeting be called to send delegates to Denison to represent the interests of San Marcos on that occasion.

Brown & Evans fine stalling Texas Boy is beautiful chestnut stallion over 16 hands high. It will pay to go and take a look at him.

For Rent. The Sol. Thomas place (occupied last year by Mr. Hewitt) is for rent to a suitable permanent tenant. A pleasant summer residence. Apply at Free Press office.

Take Notice. All who owe me for over three months, will please call and pay up, for I need the money. All who don't intend to pay will please keep away. I want no more business transactions with them. PETER SEUBERT, Merchant Taylor.

Now is the time to look after your breaking plows and I wish to inform my friends and customers that I am still agent for the old, reliable "Casidy or Oliver Chilled Sulky Plows," which has no superior. I also represent the John Deere and Eagle Plows and Standard Cultivator. This latter celebrated cultivator is materially improved this season. All eyes fitted and all guaranteed. Be sure to give me a call when in need of agricultural implements. WM. GIESSEN.

Distinguished Men. Governor John Ireland, of Texas; Simon H. Hughes of Arkansas; S. B. Turner, Governor of Louisiana; E. B. Turner, Judge of the United States Court; Ex-Gov. Johnson, Minister to Japan; Marion Martin, ex-Lieut. Governor of Texas; W. R. Miller, ex-Governor of Arkansas; E. A. Perry, Governor of Florida; John R. Hogan, ex-Governor of Georgia; Alex. Gregg, Bishop of the Episcopal Church, and Chancellor of the University of the South, and hundreds of other distinguished men of the United States in all professions and in every department of science. This list is to pay all the indebtedness of the late firm, and receive all debts due the same.

Cemetery Meeting.

The meeting to elect officers of the Cemetery Association for another year, met on the grounds on Thursday p. m., last. Upwards of twenty persons were in attendance, more than twice as many, we presume, as there would have been had the meeting been called in town. Hence we think the idea of meeting on the grounds a good one, and hope it will be continued. It will necessarily invite personal attention to the grounds and their need of improvement.

The following are the directors elect: D. P. Hopkins, P. J. C. Smith, John Kilgough, Mrs. S. R. McKie, Mrs. Ragsdale, and Mrs. Geo. T. McGehee. Mrs. McGehee has been chosen president of the board, Mr. Hopkins, vice-president; Mr. Smith treasurer, and Mr. Kilgough is secretary.

John E. Pritchett, the retiring treasurer, read his report, from which it appears that that only about one third of the lot owners had paid their assessments. The condition of the grounds is by no means satisfactory. To put them in proper shape, much work, and of course a good deal of money will be required. We hope ere long to be able to report better things under the present management.

A Wonderful Machine.

These machines created more excitement than any other one feature at all the places where they were exhibited. In fact they were, in many cases the "whole show." Just what was thought of them may be understood by the following from an article published in the October number of Eastern's Implement World, referring to the operation of the Whiteley Mower exhibited at the St. Louis Fair, cutting roof poles, &c. The editor says:

"I watched for some time the new Whiteley 'Solid Steel Mower,' cutting and slashing through hard hickory hoop poles, oak sticks and ash planks with the ease of an ordinary mowing machine cutting thin timothy grass, and I must say their mower, even though it was steel, was something marvelous, for while an enthusiastic inventor might want to try his machine as 'wood-chopper' out by himself somewhere, he assumed considerable risk in fanning hickory clubs with it, when it was running at full speed in the presence of a crowd of other agents and farmers. But they did it and out they went successfully and continuously. The farmers pocketed bits of the cut of poles and carried them home with them as mementoes of the great advancement made in the perfection of mowing machinery."

Chas. Hutchings is agent for this fine mower and has just received a supply. Call and examine them.

Personal.

Col. Herndon is better.

Mr. August Giesen was in town on Sunday.

Mrs. Emma Lane, of Dallas, is visiting at this place.

Mr. Scott preached a good practical sermon at the Methodist church on Sunday.

Jake Lawson is recovering from a protracted illness.

Brown & Evans are adding an undertaking department to their lively business.

Miss Mary Combs has returned home and we learn will remain.

We are pleased to see Mr. O. T. Brown again on our streets after his dangerous illness.

Mr. Kruse, the artist, is rusticiating in Blanco County and practicing his profession.

J. M. Turner and little son are enjoying the restorative benefits of Hot Springs, Ark.

Will Joyce has sold out his interest in the grocery business to Charley Steels and gone west.

The excellent Miss Bettie Randall is assisted in the millinery business by Miss Ada McGehee, a very pleasing young lady.

In addition to Miss Emma Prince, Miss Mattie Souter is assisting in Mrs. Richardson's fine Millinery establishment.

Judge Kone, W. H. Nance, and Norman Hopkins left Monday to attend the State convention of firemen at Paris, Texas.

Dr. Nye is winning "golden opinions" from all sorts of people" as a skillful and scientific dentist and practitioner of dental surgery.

Mr. C. W. Nau, of Victoria, is filling the position of prescription clerk and general assistant under Mr. Bass, the popular young druggist.

The Stringtown school, Miss Hattie Scott, teacher, will give a concert to-morrow (Friday) night. We acknowledge the compliment of an invitation.

Judge Fisher has his hands full to overflowing with Christiana business. If it proves a success here it will be due in a very large measure to the Judge's indefatigable labors.

Mr. B. A. Sanderson, the successor of Geo. Stephan, had the misfortune to cut his hand severely on yesterday, while sharpening a razor, and had to hire a substitute until the wound heals.

Mr. Simz, the intelligent architect and builder, of this place, made a plan for our proposed new public school building, which was so highly approved at Kyle that they think of adopting it for the new seminary building. We hope we shall need it first in San Marcos.

Our clever townsman, Mr. George Stephan, left on Monday on a visit to his native land, Switzerland, and expects also to take in the Paris exposition. He thought it doubtful about his returning to this country, but we predict he will be glad to do so. At all events he is a good fellow and we wish him well.

Mr. C. W. Phelps, of typographic fame, came in from Guadalupe county on yesterday morning with Mr. L. W. Anderson, after a casket for the deceased Major Anderson, Mr. Phelps having attended on him during the night before his death. Mr. Phelps came this time in the guise of a granger, and a glimpse of his "horry hands" did not permit us to doubt the genuineness of his present role. He possesses decided muscular as well as mental ability, and we know that whatever he does, he does it with his might. Success to the printer-planter.

C. T. Bass, Druggist.

Marriage Licenses.

Issued since our last report, April 4, 1889.

D. W. Crews and Mrs. A. D. Hammett. Joan Lopez Naylor and Paulina Perez. Chas. T. Boss and Nellie K. Harper. C. T. Wilson and Carrie Hart. W. W. Castleberry and Katie Crobery. J. B. Gillett and Mary Lou Chastain.

The boarding house and restaurant of Mrs. Taylor is one of the most popular establishments of the kind to be found anywhere. She understands her business thoroughly. There is no discount on the fare, while her rates are very reasonable. Give her a call and you will be satisfied.

Obituary.

DIED, on Tuesday night at his residence on York's Creek, Major Mat Anderson, in the 82nd year of his age.

The deceased was a native of Virginia, where he married his first and second wives. Afterwards he settled in Tennessee, and came to Texas somewhere in 1852 or 1855. Had resided on the place where he died in Guadalupe county, 21 years, where he accumulated a goodly portion of this world's goods. Was for a number of years a member of the legislature from said county. For 50 years was a member in good standing in the Baptist church. He leaves a widow and six children, four sons and two daughters. Our young friend, but old subscriber, Mr. L. W. Anderson, of Staples Store, is one of the surviving sons.

We were not favored with a personal acquaintance with Maj. Anderson, but from those who know him well we have assurances that he was a true and noble man in all the relations of life. Having lived in the discharge of duty, he died full of years and honors and with the love and respect of all. There is no room for regret at his life's happy close.

A new volume of THE CENTURY begins with the May number. The most timely papers in the number are on "Sancroft," "The Isles of the Navigators," "Who reads of War literature will be especially interested in the chapters of the Lincoln History, the articles on 'The Western Soldier,' and 'Open Letters' and editorials on 'Soldiers' Memorial Services,' 'Fraternizing—The Blue and the Gray,' and 'General McClellan's Baggage-Destroying Order.' The Lincoln History deals this month with 'The President and the Draft,' 'Valdingham,' and 'The Peace Party at the Polls.' The first chapter is of unusual interest, containing as it does an address to the nation at large by President Lincoln, which address he finally resolved to suppress. It now sees the light for the first time, being printed from Mr. Lincoln's MS. It is a constitutional argument on the draft and covers over two pages of the Century.

Charles de Kay writes this month in his Irish series, on 'The Monasteries of Ireland.' Mr. Wilson in his Illustrated International Sunday School series, writes on Jerusalem and its environments; Mr. Cable tells the strange true story of Salomea Muller, a white woman sold into slavery; Mr. Korman, in his series on the Siberian Exile System, describes 'A ride through the Trans-Baikal.'

\$100 REWARD \$100. The readers of the Free Press will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Malaria. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system. After the first use, the diseased part of the system is purified, strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. apr 13 imo

RATTLE the fine thoroughbred roadster, will stand the season at the stable of Hawk & Wood. Rattle is a beautiful black stallion and travels smooth and "merry" under the saddle, and so gentle that he can be ridden by a lady.

W. C. T. U. Department.

So should we live that every hour May die as dies the natural flower— A self-resolving thing of power— That every thought and every deed May hold within itself the seed Of future good and future need. —Lord Houghton.

We have hopes of enlarging our San Marcos W. C. T. U. Why is it that every wife and mother does not belong to the W. C. T. U.? Can you not see that you will be building up the future to aid your sons and daughters? Ask yourselves this one question: Do I want saloons to sell my son whiskey, or any other drug that will rob him of position, wealth, brains, happiness and the Kingdom of God? You will say no, no! Then why are you idle when there is so much to do? If you are not working against this great cause of crime and death, then you are aiding it by your silence. Come into the W. C. T. U. and lend a hand; you are wanted, there is work for you to do. Yes, there is work for every man and woman to do. Let us do it in this direction: come to the front and let the world see you are one thing or the other. Do not be idle, but think of the future of your sons and daughters. You may think you can't do much; true you can't by yourself, but when you come to unite your little with the little of others, it will amount to a vast deal, reaching from ocean to ocean in our own land, and there are very few countries now that have not W. C. T. U. and are not, in some way trying to do down the whisky traffic and it is now only a question of a little time before it will be a thing of the past. We will not let it pass above us. We will trample it beneath our feet and the world will be wiser and better and there will be lots of happy homes and fewer jails, and crime will be almost unknown, compared to the present times.

How I wish our Texas was up with the times in this grand Temperance move. The reason she is not is because the field is large and the laborers few. All we lack is the workers. The ministers of the gospel are idle in this work, the Christians are idle, the fathers and mothers are idle. If you would bring souls to Christ you must advocate temperance, you must bring it into your churches. If fathers and mothers are going to save their sons and daughters they must set work for temperance. "Early impressions are the most lasting," impress your children with temperance and it will stay with them. Many of the workers in this cause have not had the impressions made on them while young, some of them have waited till the prime of life to sign the pledge, and as a result they do not permit us to doubt the genuineness of their present role. He possesses decided muscular as well as mental ability, and we know that whatever he does, he does it with his might. Success to the printer-planter.

There has appeared recently in the daily prints much reference to the "Karpograms" of the Texas Spring Palace. Many inquiries have been made as to what "Karpograms" is, and as we have it from food authority we give it for the benefit of our readers: The word was invented or originated for the occasion by Prof. Hogg of the Fort Worth schools and is, of Greek parentage, coming from "karpus, the fruits of the earth, and orama, a view—a view of the fruits of the earth.

Plain History. Swift's Specific is a simple vegetable compound, prepared from roots gathered freshly from the forest, and contains nothing of the mineral kingdom, or any poisonous substance, or any article at all that comes from the chemist's laboratory. The formula of the remedy was obtained from the Creek Indians in Middle Georgia, by reliable white men, who had witnessed the wonderful cures it has made by tribe of Indians, of blood diseases. Mr. Hugh L. Dennard, of Houston county, Ga., began using Swift's Specific in 1829, and continued its use all of his life, and asserted that he has never known it to fail to cure any case of scrofula, blood taint, or contagious blood poison. This testimony has been corroborated every day for years. The present Company was formed in 1873, and have since made known to the world the virtues of Swift's Specific, and to-day it is sold in every city, town and country store all over America, Great Britain, and many other portions of the world.

I have seen Swift's Specific used, and know of many cases of the worst form of blood diseases which have been cured by it. I know the proprietors to be gentlemen of the highest type and utmost reliability. I recommend it as a great blood remedy, unequalled by anything that I know of. M. B. WARBURG, Pastor 1st Baptist Church, Montgomery, Ala. Treatise on Blood and Skin Diseases mailed free. THE SWIFT SPECIFIC CO., Drawer 3, Atlanta, Ga.

Dallas Dots.

[Dallas, May 5, 1889]

A man named Joe Brittain, and a woman named Mrs. Rice, both took the short road last week. Domestic infelicity is said to have been the cause of both suicides.

The weather has been quite cool for the past week, and continues so, fires and warm clothing have been doing active service.

The Cyclone and the Ranger, two engines on the Rapid Transit collided, but luckily no harm was done, as there was no one on the cars but the engineers and they both jumped off, after reversing their levers. The engineer of the Ranger jumped back on his car in time to direct her movements, but the Cyclone was left with open valve, no engineer to control her, and she began a backward motion, running into the paved street about 100 yards, upsetting a hack, and was finally stopped by the curbing in front of the Cabinet saloon. The First Baptist church gave an excursion picnic at Garland, Saturday, but it was not very much of a success, from a financial view. The committee chartered a car for \$200, and the conductor only took in 55, leaving a large indebtedness. The cool weather and the fare being 75 cents, are the probable reason why so few of the children went. The Christian Church is nearing completion and will be a very handsome building. With best wishes for the Free Press, I am respectfully, JACQUES.

Surg. Gen. Woodward, U. S. Army, says of the results of chronic malarial poisoning: "Disorder of the kidneys frequently complicates the condition under consideration. Seanty, more or less albuminous urine is often observed, and those cases not infrequently terminate in chronic Bright's Disease, with confirmed albuminuria, oedema or general anasarca." What at first is recognized as malaria is subsequently found to be Bright's Disease, which Warner's Safe Cure cures.

Bill Nye on Crop Mortgages.

Bill Nye thus sums up the crop mortgage business, during a recent trip through Alabama: "Most all of the cotton planters are engaged in raising a crop to pay for grub and good clothes of the past. They do not appear to enjoy it, but they have formed the habit and cannot overcome it now. It is one of the drawbacks of cotton planting that the planter gets his goods on a credit at enormous prices, and then gives the crop to the merchant at the end of the season. In this way he is really only a kind of a hired man for the one who furnishes him supplies. He is wearing out the soil and is barely keeping his soul and body inside the same suit of clothes. That is the reason his gate hangs on one hinge, and the wind sighs through the verbiage of his horse carriage. That is the reason why you don't smell new paint around his premises and the carpets on the floor are never hung on the line to be chastised."

There has appeared recently in the daily prints much reference to the "Karpograms" of the Texas Spring Palace. Many inquiries have been made as to what "Karpograms" is, and as we have it from food authority we give it for the benefit of our readers: The word was invented or originated for the occasion by Prof. Hogg of the Fort Worth schools and is, of Greek parentage, coming from "karpus, the fruits of the earth, and orama, a view—a view of the fruits of the earth.

A full list of retail dealers on phosphate powder. Sold only in cans. ROYAL BAKING POWDER CO., 108 WALL ST., N. Y. For Sale in San Marcos, by H. HARDY & CO.

Fun From Georgetown.

We have not seen anything for a good while so rich as the following which we quote from a Georgetown dispatch to the San Antonio Express, just after the late festivities at the former place: "Our city has a fatigued air to-day, after the dissipation of yesterday, particularly the 'dix boys,' who made the run from Chautauque Temple to the fire. Some of them got somewhat smashed up by running against horses and colliding with vehicles as they went flying to their engine houses to hurry to the flames. Some of them stood so near the burning building with their noses that their cheeks were literally scorched and had to have embrocations applied to the blisters; literally cooking at the command of their officers, and like 'the boy who stood on the burning deck,' they wavered not nor fled until bid.

A number of visitors remained over from yesterday for frolic, fish and fun, all of which can be had in abundance. We overheard a lady visitor of culture say Georgetown was certainly remarkable for money, morals and Methodism, and we thank God, and believe her.

As will be seen money leads in the above trinity of beatitudes. Everything which belongs to pure, healthy blood is imparted by Hood's Sarsaparilla. A trial
