What I Know About Hardware and

Our Elections.

Unfortunately we have but one political party. The primaries, with their barefaced fraud and sham, re-

ally control the elections. In city

elections where there are no prima-

ries, we have numerous purchasable

voters. Men without responsibility

who pay no taxes. The candidates who manage this vote, are usually

successful, or in other words, the illit-

arate irresponsible class who pay no

taxes, determine who shall rule the

city. I know a remedy. Disfranchise

every one who buys or sells his vote?

Keep their names on the county re-

pers. What party or legislature has

the moral courage to pass such a law?
