

CITY AND COUNTY

[FROM THURSDAY'S DAILY.]

An Expert Swimmer.

Mr. John L. Jones, stenographer in the geological department, yesterday evening swam six miles in the Colorado river. Mr. Jones is one of the cleverest athletes in Austin, and every day he takes as much exercise as the average young man would in a week.

An Uninvited Visitor.

Mr. A. Deffenbaugh, the venerable day officer at the Capitol, had a visitor at his house in the Eighth ward night before last, who came uninvited and entered unannounced. About 11 o'clock at night Mr. Deffenbaugh heard an unusual noise in his bedroom and soon some object jumped upon the bed.

Monthly Weather Report.

The following is the report of rainfall and temperature for the month of July, 1889, as reported by Oscar Samostz, United States signal service observer:

Orange Blossoms. Mr. G. W. Chapman, a well-known and highly respected citizen of Travis county, was married yesterday to Miss Harriet Shaedon, a beautiful and accomplished young lady of this city.

Regardless of the Weather.

It apparently never gets too hot for ice cream nor marrying and giving in marriage. Notwithstanding the calorific intensity of the circumambient atmosphere yesterday, there were several marriage licenses issued as follows:

Richard Ahart and Myra E. Phillips. Jesse Maurers and Miss Nora Wells. Ben Smith and Francis E. Hickson.

Texas Dental Association.

The ninth annual meeting of the Texas Dental association will be held at Galveston, beginning Monday, August 19, at 10 o'clock a. m.

The Southern Dental association will meet at the same place on Tuesday morning, August 20.

Dr. Crawford, president, through Dr. M. C. Marshall, recording secretary, extends the following invitation to the dentists of Texas:

"We expect and desire that you take part in our meeting, and you will be accorded all the privileges of the association. Any papers you may prepare will come up under the proper committee, and we hope to get much matter from you."

The Festive Burglar.

The burglar was abroad night before last and secured sufficient cash to keep him from manual labor for a week or two if his habits are not too expensive. He visited the residences of Mr. Rhodes Fisher and Mr. G. A. Searight. He effected an entrance into Mr. Searight's residence by raising a window opening into the parlor and then pulling himself in. Having gained the interior, he proceeded to gather in the cash that happened to be attainable. He secured \$66, and then continued his investigations toward the residence of Mr. Fisher. He was not so fortunate here, however. The officers were notified of the robberies.

The Alliance Cotton Yard.

The board of directors of the Alliance cotton yard held a meeting yesterday morning. The object of the meeting was to select a manager for the yard which will soon be open for business. The board elected Mr. S. C. Granberry as general manager, and the selection is a most excellent one, having alike the confidence of the farmers and the cotton men. The yard will be ready for business in about ten days.

A FRUITLESS SEARCH

By Sergeant Palmer and Others For Young Daniell's Body.

The unfortunate drowning of young Edgar Daniell was the principal theme of discussion on the streets yesterday, and expressions of regret and sympathy for the parents were universally heard.

It now transpires that it was "Rip" Musgrove, the young son of officer A. Musgrove at the Capitol, who saved the life of the boy known as "Dutch Joe." The young fellow is an expert swimmer for a boy and acted heroically.

Sergeant Palmer and a number of others worked all day at the river trying to bring the body to the surface of the water. Dynamite cartridges were exploded and the river was dragged in vain. The river was scoured for four miles below the city.

About dark news reached the city that the body had been found floating in the river about eight miles below the city. Messrs. R. M. Kell and D. Rogers were fishing, when their attention was drawn to an object floating in the river. They succeeded in getting the body out on the bank, and having read in THE STATESMAN yesterday morning the account of the drowning of young Daniell, they knew at once that they had found his body. They hastened at once to this city, and a wagon was dispatched at once from Weed & Rosegreen's undertaking establishment to bring the remains to the city. The funeral will occur to-day, but the time had not been announced last night.

CITY SCHOOL BOARD.

Special Meeting Yesterday Afternoon—The Manual Training Teacher.

A special meeting of the board of trustees of the city public schools was held yesterday and the following members were present:

Messrs. A. P. Woodriddle, J. M. Litten, Walter Tipton, Z. T. Fulmore, J. W. Maxwell and J. W. Graham.

ABOUT THE CAPITOL.

Matters Picked Up in Our Tour of the Departments. Some of the eastern papers have already begun to get the views of the governors of the different states as to the proper place to hold the celebration of the four hundredth anniversary of the discovery of America by Columbus, and, in this connection, it may be stated that Gov. Ross is in favor of some Texas city as first choice and St. Louis as second choice.

SECRETARY OF STATE. The following charters were filed yesterday in the office of the secretary of state: El Paso and Southwestern Mining association; capital, \$50,000. Incorporators: J. F. Crosby, W. B. Davis and others.

THE ELECTRIC LIGHT AND POWER COMPANY, of Houston; capital, \$100,000. Incorporators: A. F. Sharpe, Jr., J. A. Whitaker, Joseph F. Smith.

PERMISSION was granted the Ohio Coffin company to do business in this state.

TREASURER'S OFFICE. The state treasurer yesterday paid \$35,000 to state employes for July salary.

COMPTROLLER'S OFFICE. The following were the receipts for July on account of public lands:

School lands leased.....\$19,888.92
School lands sold.....32,541.30
Interest.....71,572.94
University lands leased.....1,135.05
University lands sold.....2,296.44
Interest.....

PUBLIC domain sold under act of March 29, 1887, \$5,894.84. Land sales, leases and interest for the various asylums \$1,988.66.

EDUCATIONAL DEPARTMENT. The following extracts are made from a letter received by Superintendent Cooper from a county judge in regard to school matters in his county:

"Our county levies and collects a special tax of 20 cents on the \$100 for school purposes and has been doing so for three years. Our people pay the special school tax without a murmur. We have plenty of cash on hand to pay teachers. Our school term is ten months and we could run our schools all the year if we so desired. Last year our local tax yielded \$853. Our entire scholastic population is only 175 and our entire revenue from all sources for the next scholastic year will be more than \$2,615, which I think is fair for a population of 175. We collect nothing for 'overs' and 'unders,' and have no private subscription. Our people believe that the public schools are a public benefit and the public supports our schools, and they are public, free schools in every sense, absolutely as free as the doors of the church."

AGRICULTURAL DEPARTMENT. Commissioner Foster was in his office yesterday, having returned from San Antonio. While in that city Mr. Foster authorized the Texas Fire and Marine Insurance company to commence business. This is the second Texas fire company in existence. It has an authorized capital of \$1,000,000 and a paid up capital of \$103,000.

The following reports have been received at this department: Sheriffs—Knox and Atososa counties. Treasurer—Jefferson county. Commercial report—McKinney.

The commercial reports of the cities of Texas, which are received daily at the agricultural department, tell a tale and point to a moral. According to the report of the town of McKinney, just received, that place has a population of only 5,000 people. The town last year sold \$150,000 worth of agricultural implements, 15,000 bales of cotton, and 125,000 bushels of corn; 250,000 bushels of wheat were shipped, together with \$140,000 worth of livestock. The town last year spent \$500,000 on public improvements. The combined mercantile transactions of the year aggregated \$1,500,000 and the taxable wealth of the town foots up \$1,230,780. This little town also has \$192,000 invested in manufacturing enterprises.

SOME days ago a telegram was sent out from New York to some Texas paper that the reorganization of the Houston and Texas Central railway was retarded by the fact that there was a clash between the attorney-general and the attorneys for the railroad in regard to certain provisions in the charter. It is understood that there was never but one charter by the Houston and Texas Central people presented to the attorney-general and that was done on Tuesday. This charter was approved by the attorney-general as drawn in compliance with the law in every respect. The fact, however, that this charter has not yet been filed in the office of secretary of state has given rise to a report that there was some hitch. Such however does not appear to be the case. The charter has not yet been filed, probably because the railroad people had not concluded their reorganization scheme.

THE GOVERNOR'S OFFICE. The governor yesterday received an eight-page legal cap letter from a Waco negro, who claims to have been hoodooed. There being no law authorizing the governor to interfere in such cases, the letter was referred to the newspaper man by Major Holmes, the governor's private secretary.

THE CHARTER of the new Houston and Texas Central Railway company was filed yesterday in the office of secretary of state. The incorporators are: Frederick P. Oloch, of New York; Benj. G. Mitchell, of New York; Geo. S. Ellis, of Long Island, N. Y.; Henry E. Mollin, of New York; Frank W. Emery, of New York; Frank L. Grant, of Brooklyn; James N. Wallace, of Jersey City; John Q. Adams, of Orange, N. Y.; Philip S. Babcock, of Brooklyn; W. H. Ludlum, of Staten Island, N. Y. The road is under the management and control of the following board of directors: E. Francis Hyde, Charles Dillingham, E. W. Cave, George A. Quinlan, J. J. Atkinson, Charles Fowler, Daniel Ripley, J. G. P. Sumner. The capital stock is \$10,000,000. The fee for filing this charter in the secretary of state's office was \$2,575. The Houston and Texas Central railway in this charter means the line from Houston to Denison, a distance of 345 miles, and from Hempstead to Austin, a distance 119 miles.

THE AGRO FOOD COMPANY, of Eagle Pass, filed its charter also yesterday; capital, \$100,000. Incorporators: E. L. Watkins, F. L. Dodd, L. DeBona, F. G. Cozenenbe, Rafael Musquiz, A. Washington.

ATTORNEY-GENERAL'S OFFICE. Attorney-general Hogg left yesterday morning for Corpus Christi, to spend several days. He will probably return Monday.

AGRICULTURAL DEPARTMENT. Commissioner Foster yesterday received the commercial report of the city of Galveston, and it shows the city to be in a very flourishing condition. The population has increased from 1,500 in 1880 to 10,000, and the assessed values have increased from \$2,218,849 in 1880 to \$6,502,923. The city has thirty-eight manufacturing establishments, with a capital of \$318,000. Last year they used \$435,844 worth of raw material, and the output was \$674,627. There were employed 165 men. The city last year sold 26,000 bales of cotton, worth \$1,303,750. There were sold also during the year 75,000 pounds of wool, \$54,000 worth of hides and furs and 7,996 head of cattle, bringing \$159,920. The city expended in public improvements last year \$200,000.

GENERAL LAND OFFICE. The following are the sales of public school lands in the various counties for the month of July:

Archer, 640 acres; Armstrong, 6,400 acres; Brown, 320 acres; Bachel, 640 acres; Caldwell, 320 acres; Callahan, 640 acres; Carson, 960 acres; Coke, 377 acres; Comanche, 160 acres; Duval, 480 acres; Donley, 640 acres; DeWitt, 640 acres; Ectorial, 1,353 acres; Fisher, 3,280 acres; Gray, 640 acres; Gillespie, 390 acres; Hansford, 640 acres; Hardeman, 2,880 acres; Hartley, 1,280 acres; Hemphill, 160 acres; Knox, 320 acres; Llano, 320 acres; Lampasas, 160 acres; LaSalle, 160 acres; Palo Pinto, 3,470 acres; Mitchell, 320 acres; McCulloch, 640 acres; Mills, 320 acres; Mason, 160 acres; Presidio, 320 acres; Patton, 640 acres; Randall, 640 acres; Stonewall, 320 acres; Sonery, 745 acres; Stephens, 1,440 acres; Sutton, 7,680 acres; Tom Green, 2,720 acres; Wilbarger, 1,120 acres; Wichita, 640 acres.

The following are the number of acres of timber sold: Polk county, 616 acres, and in Tyler county, 640 acres. The purchasers have five years within which to cut the timber off of these lands. It is a remarkable fact, and one that is not known to have ever occurred before in the memory of those in the land office, that of all the land sold not one acre is caged to any of the asylums or to the University.

STATE GEOLOGICAL DEPARTMENT. State Geologist Dumble yesterday received a letter from his assistant, Dr. Comstock, who has been at work in Barnett. He has finished up his work in that county and yesterday went to Llano county to begin work. He wrote that the Colorado river was past fording up there and was very high. This rise will probably reach here to-night.

EDUCATIONAL DEPARTMENT. Superintendent Cooper will not be able to visit the Normal schools as he desired and intended, on account of the press of business at this season of the year. He is now preparing a course of study for the country schools.

TREASURER'S OFFICE. The treasurer is now prepared to pay all registered school warrants. Yesterday he paid out \$50,000 on this account.

GOVERNOR'S OFFICE. The governor yesterday offered the following rewards:

A reward of \$200 for the capture of the unknown murderers of W. Nations and Jacob Simpson in Presidio county July 17. A reward of \$200 for Bob Harris, who escaped from the county jail of Marion county on the night of July 23. Harris was under sentence of death for the murder of Ike Bailey.

SECRETARY OF STATE. The York Creek Farmers' association, of Guadalupe county, filed its charter yesterday in the office of the secretary of state. Its assets are \$1,000.

AGRICULTURAL DEPARTMENT. Commissioner Foster yesterday received the agricultural reports of Austin and Maverick counties.

GEOLOGICAL DEPARTMENT. State Geologist Dumble left last night for El Paso on a geological expedition. He will be absent probably two weeks.

COMPTROLLER'S DEPARTMENT. The assessments of the railroads in Texas have been received by the comptroller. The reports of the railroads give the following interesting figures:

Total mileage for 1889.....\$7,387.33
Total value for 1889—rolling stock.....\$6,413,295.50
Increase.....\$6,473,419.20

IN TRAVIS COUNTY. Mileage for 1889.....\$40.88
Value of rolling stock for 1889.....\$41,373.88
Decrease for 1889.....\$4,483.02

IN BURNETT COUNTY. For 1889—mileage.....\$14.50
Value of rolling stock for 1889.....\$5,444.04
Increase.....\$1,242.56

IN HAYS COUNTY. Mileage for 1889.....\$2.42
Value of rolling stock for 1889.....\$1,907.00
Increase.....\$ 87.00

IN WILLIAMSON COUNTY. Mileage for 1889.....\$55.70
Value of rolling stock for 1889.....\$24,916.08
Decrease.....\$5,251.92

THE GEORGETOWN RAILROAD COMPANY, being a local road, makes no rendition to the comptroller for 1889, though it was rendered for 1888:

Mileage for 1888.....\$ 89
Value of rolling stock for 1888.....\$4,222.00

"It is better not to be, than to be unhappy" and no one can be happy whose system is deranged by poisonous secretions. Nearly all ills that flesh is heir to, arise from torpid liver and derangement of the digestive organs. Dr. Pierce's Pleasant Purgative Pellets correct irregularities of the liver, prevent constipation, and promote good health. Buy them of your druggist.

The people of India want to see their beloved empress. The queen of England should take a few days off and show the empress in India.

AGRICULTURAL DEPARTMENT.

Commissioner Foster yesterday received the commercial report of the city of Galveston, and it shows the city to be in a very flourishing condition. The population has increased from 1,500 in 1880 to 10,000, and the assessed values have increased from \$2,218,849 in 1880 to \$6,502,923. The city has thirty-eight manufacturing establishments, with a capital of \$318,000. Last year they used \$435,844 worth of raw material, and the output was \$674,627. There were employed 165 men. The city last year sold 26,000 bales of cotton, worth \$1,303,750. There were sold also during the year 75,000 pounds of wool, \$54,000 worth of hides and furs and 7,996 head of cattle, bringing \$159,920. The city expended in public improvements last year \$200,000.
