**LAWLESS NEGROES.**

They Seek Vengeance on a White Man and Are Stirring up Trouble.

Special to The Statesman.

PARIS, Tex., Aug. 6.—It seems that the trouble that led to the killing of Jarrett Burns by John Ashley is to be the cause of serious trouble. Certain negroes in that vicinity have not been willing to allow the law to take its course, but have made repeated threats to do violence to Ashley or his property. His property has been damaged and threats made against his person Thursday the woman, Ella Ranson, came in and claimed to have been taken out by a mob. Mr. Ashley was informed that an effort would be made that night to wreak vengeance on him, it being claimed by the woman that he participated in the mob that attempted to hang her. A number of his neighbors gathered in and proposed to protect him. They stood guard during the night and some of them say they saw negroes prowling around over the place in a manner that indicated that they were bent on mischief. This morning it was discovered that they or some others had ridden all over Ashley's field, doing great damage to his crop. On the inside of the inclosure was a place covered with a thick growth of Bermuda grass about 400 yards from the house, this seemed from the signs discovered this morning to have been the camping ground for a number of negroes. This taken in connection with numerous threats made against Ashley gives rise to the supposition that they intend to mob him if they get an opportunity. Ashley came to town yesterday to ask for such protection as the law can give him. This is all he wants. It is safe to predict that if the colored people press their unlawful attempt much further they will stir up a race war and a lot of them will go the way of all flesh.

**GERMANY.**

**RECEPTION TO BISMARCK.**

BERLIN, Aug. 6.—Prince and Princess Bismarck arrived at Spandau at 11 o'clock this morning on their way to visit the ex-chancellor's brother at Naugard, Prussia. They were given a hearty greeting by the large crowd which had gathered in and about the railroad station. From Spandau the prince and princess proceeded for their destination, passing through Berlin en route.

**FIFTY-SECOND CONGRESS.**

ANOTHER ENTIRE DAY WASTED BY THE SENATE.

The House Still Struggling With the World's Fair Appropriation and the Senate Will Not Recede—The Day Passed and Little Progress Made.

**SENATE.**

WASHINGTON, Aug. 4.—The session of senate today was simply an exhibition of a waiting game in legislation. The joint resolution extending until Aug. 10, the appropriations for service of the various government bureaus covered by the sundry civil bill was received from the house and passed.

The resolution reported yesterday from the committee on contingent expenses authorizing the committee of the quadro-centennial to visit the World's Fair buildings to obtain information as to expenditures, was rejected.

After receiving a message from the house that that body insisted on disagreement to the World's Fair amendments to the sundry civil bill and requested further conference, the senate adjourned till 2 o'clock tomorrow.

**HOUSE.**

WASHINGTON, Aug. 4.—The session of the house today was important and interesting, although not exciting. Mr. Holman made a motion to suspend the rules and send the sundry civil bill to further conference. Agreed to, 141 to 54. Holman, Sayers and Bingham were appointed conferees.

Mr. Reilly of Pennsylvania moved to suspend the rules and adopt a resolution providing that immediately after its adoption the house proceed to the consideration of a substitute for the Durborow bill, such substitute to be considered as an original bill. Consideration shall continue from day to day and at 1 o'clock tomorrow the committee of the whole shall report the bill to the house and the previous question will be considered as ordered on its passage. No intervening motions shall be entertained until the bill is finally disposed of.

Mr. Bailey of Texas demanded a second reading, and it was ordered by a vote of 163 to 0.

Mr. Bailey protested against the resolution as being a high handed, unprecedented proceeding. The resolution violated the agreement of the Democratic caucus. Nowhere in the agreement was there any resolution requiring Democrats to vote for a cloture resolution. Adoption pending the resolution meant that the treasury doors would open and an Illinois corporation permitted to walk in and take out \$2,500,000.

Mr. Culbertson of Texas took issue with his colleague and urged the faithful carrying out of the honorable agreement.

Reilly's resolution was agreed to—187 to 7. Then Mr. Bailey started on a brief course of filibustering. He received no backing, however, and after a few minutes parliamentary sparring came to an end and Reilly was recognized to call up the Durborow bill, as amended so far as to provide for the appropriation of \$2,500,000. The bill was considered in committee of the whole, Dockery of Missouri in the chair. It was agreed that there should be no general debate but that the usual time for special debate (five minutes) should be extended to ten minutes.

Mr. Pickler moved to increase the sum appropriated to the fair to \$5,000,000. Lost. So was the amendment offered by Mr. Dickerson of Kentucky striking out the appropriation.

Mr. Atkinson of Pennsylvania offered an amendment prohibiting the sale of intoxicating liquors on the fair grounds. This led to a discussion involving the question of the sale of liquors in the house restaurant and the recent charges made by Mr. Watson, but nothing came of it. Mr. Atkinson's amendment was defeated. The committee arose and the house adjourned.

**CONGRESSIONAL NOTES.**

WASHINGTON, Aug. 4.—Mr. Durborow of Illinois today reported to the house from the committee of the Columbian Exposition of the senate a joint resolution authorizing foreign exhibitors at the World's fair to bring to the United States foreign laborers from respective countries for the purpose of preparing for and making their exhibits.

The report that the British government has taken formal possession of Johnson island in the Pacific ocean does not excite much interest in official circles, for the reason that the island is of no value for strategic purposes, and its supply of guano is practically exhausted.

**THE WATTERSON CLUB.**

Dedication of their Magnificent Club House at Louisville Yesterday.

LOUISVILLE, Aug. 4.—This has been a great day and night for the Kentucky Democrats. The opening and dedication of the new Watterson club house drew together all the leaders of the party of the state. The governor and his staff came down from Frankfort and the legislature was left without a quorum. But the chief feature of the occasion was the presence of Hon. Adlai E. Stevenson, Democratic nominee for vice president, who came at the invitation of the Watterson club and spoke to the great concourse of people at Liederkrauz hall and a smaller gathering at the club house, where he was given a reception and where Watterson in spite of his severe illness, also spoke. The city is in holiday attire and the streets are ablaze with illuminations tonight. Hon. John Young Brown, governor of Kentucky, presided over the great mass meeting and introduced General Stevenson to an immense audience. He was greeted with tumultuous enthusiasm and his speech loudly cheered. Speeches were made by Hon. J. Proctor Knott,

Hon. James A. Mackenzie, Hon. Boyd Winchester and Hon. Albert S. Willis and others. After adjournment of the mass meeting General Stevenson was given a public reception. The Kentucky legislature by unanimous vote invited Stevenson to go to Frankfort, and he will proceed thither tomorrow morning, having accepted the invitation.

**HELD UP BY ROBBERS.**

A California Passenger Train Stopped and a Big Haul Made on Express Money.

FRESNO, Cal., Aug. 4.—Passenger train No. 17, southbound, was held up by train robbers six miles east of Cillis, last night. Two of the robbers crawled over the tank to the engine and ordered the engineer and fireman to stop the train; they made the engineer walk ahead a quarter of a mile and compelled the fireman to stay with them. They then went to the express car and ordered the messenger to open. He refused, and the robbers threw six or seven dynamite bombs at the doors, completely demolishing them; they then forced open the safe and took out the money, amount not known. They made the fireman with them carry the treasure a distance, and then galloped off on horseback. The robbers' faces were masked with light cloth. The engine was injured by bombs exploding under it. One of the express messenger's ribs was broken.

The train was a south bound night express, leaving San Francisco at 5:50 p. m. The sum contained in the messenger's safe is thought to have been between \$30,000 and \$50,000. Several deputy sheriffs from southern counties of the state are stated to have been on board the train, but no resistance was offered to the robbers. Roberts, when ordered to open the Wells, Fargo & Co.'s safe set about doing it, but was so excited and nervous he forgot the combination, and so informed his captors, who thereupon struck him a heavy blow on the head with a gun and threatened to kill him if he did not immediately open the safe. With trembling hands he did so and they took out the sacks of coin. When the desperadoes exploded a cartridge on the engine the passengers put their heads out of the windows to see what was going on, but drew them back again when they found pistol bullets and buckshot whistling past their ears. A panic ensued, the passengers making a wild scramble under the seats to keep out of range of flying missiles. The express car was shattered into atoms by the concussion. After the highwaymen made their escape in the darkness the engineer sent a short dispatch to the agent at this city announcing that the train had been held up, and arriving here an hour and twenty minutes late. The time occupied in blowing open the car and securing the treasure was not more than twenty-five or thirty minutes. A large crowd was at the depot awaiting the arrival of the train. Although two men appeared to do the principal part of the work it is believed there were several confederates, for several buckshot were found imbedded in the rear of the passenger coach.

**Proof of Merit.**

The proof of the merits of a plaster is the cures it effects, and the voluntary testimonials of those who have used Alcock's Porous Plasters during the past thirty years is unimpeachable evidence of their superiority, and should convince the most skeptical. Self praise is no recommendation, but certificates from those who have used them are.

Beware of imitations and do not be deceived by misrepresentation. Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.

TAYLOR, Tex., Aug. 6.—A fire in the International and Great Northern yards this evening at 5:30 destroyed sixty tons of prairie hay belonging to Womack & Sturgis. Loss \$400, fully covered by insurance. The Taylor fire department did gallant service in saving adjoining property, which included the oil tanks of the Waters Pierce Oil company.

The examining trial of two Taylorites for releasing two Cyprians from the calaboose was begun in the mayor's court this morning and continued over till Monday.

The Third party people of this precinct held their primary today and nominate Rev. Mr. Speigler for justice of the peace of this precinct; McLain for constable, and S. N. Allison for county commissioner. As yet they have not nominated a cotton weigher. This nomination will be closely contested.

Beautiful rains have fallen and good crops of corn assured. Cotton on an average will yield a bale to three acres.

**Peoples Party Conventions.**

Special to The Statesman.

SAN ANTONIO, Aug. 6.—The Peoples party of the Twelfth congressional district held conventions in each of the thirty-seven counties embracing this district today and unanimously endorsed T. J. McMinn for congress. Mr. McMinn is a prominent attorney of this city and recently gained much notoriety by making a legal flight to overthrow the criminal code of Texas on the ground that it is unconstitutional. He will make a thorough canvass and has strong hopes of being elected owing to the factional fight now being waged here in the ranks of the Democratic and Republican parties. McMinn was formerly a newspaper reporter in St. Louis, Cincinnati and Chicago.

**COMPTROLLER'S DEPARTMENT.**

The total deposits into the state treasury during July amounted to \$306,563.86 as follows:

Revenue.....\$51,024 08  
Available school.....172,984 99  
Permanent school.....52,852 20  
Available university.....12,489 45  
Confederate Home.....1,332 40

Balance to the asylums and other special funds.  
The disbursement for the month amounted to \$589,273.36, of which amount \$413,803.39 was paid out of state revenue. Bonds purchase during the month \$27,600; bonds redeemed \$10,500.

Occupation taxes for the year ending May 1 amounted to \$920,000, being an increase of \$60,000 over last year.

**GENERAL LAND OFFICE.**

The lease department makes the following showing for July:

Public free school—Acres leased 621,809; canceled and expired 494,257 acres; paid on under old lease 17,275; sold 17,480; remaining 283,887; revenue \$11,333.

University—Acres canceled and expired, 10,240; paid on under old lease, 37,135; remaining, 16,773; revenue, \$503.19.

Unorganized county school—Acres paid on under old leases, 39,852; remaining, 39,852; revenue, \$797.

Public domain—Paid on under old leases, 18,720; remaining, 18,720; revenue, \$748.

The last volume of Abstracts of Land Title is printed in larger and plainer type than the old ones. Running the lines up the page instead of across, was by direction of the printing board. It was printed under the contract system and shows the old paternal system up in a bad light. The typesetting on 6709 tracts of land, contained in the book, cost \$783.54, while on page 75 of the last report of the printing board it will be seen that under the paternal system 6709 tracts would have cost \$1399.47, thus saving the state \$515.93, or about 80 per cent on this one job, and yet there were hundreds more flagrant than this. The people of Texas owe a lasting debt of gratitude to those printers who forced the officials to observe the constitution in the matter of public printing.
