FACE HUMORS

Seven Years of Physical and Mental Suffering Ended by Cuticura.

BOUT seven years ago I had a humor break out upon my face; it started in a small tch and looked like the sting of a bee, then sprey and looked like a ringworm, and bevery painful. I at once went to one of o good. No less than twelve of the best docve falled. I will not give you a list of eir names, but will say that they were from coton, New York and Maine, also from Eng hotel cook and steward for years, the summer I cook at watering places; that is why I have had an opportunity of being among good doctors. They could not cure my face, and I had given up all hopes of er being any better. Last June, I went t oschead Lake. Maine, to cook for the season face was so had I did not like to be seen. the lake I met a gentleman from England He told me to use your CUTICURA REMEDIES esuit was in three weeks the sores on my face were benied up. I used it all the season. My face is all well and no sears to be seen. I have ommended it to a number, and in every case has cured them? It would take a great deal mency to put me back where I was one year worlding Filld not know what your CUTS worlding I shall recommend it as long I shall recommend it as long

A Most Womberttiskin Oure Have just heed your Cuffence Remadles on one of my cuttle, and foundly to be fast what it a recommended to be My daughter was all

the best doctors in the city and he could do me The Roseate Hue of the Brightest Dawn that Ever Smiled on the Queen City. Some Frezen Facts

> THE GAZETTE has time this morning for brief mention of only a few of the enterprises and agencies that are so surely going to place Fort Worth at the head of the procession of Texas towns, that, as between it and any other Texas city, any question of rivalry will be a thing of the past. It can be truthfully stated that never at any former period of the town's history was the outlook so full of hope; never were the people so confident and ing the expenses of his position worse

A party of Sicilian viniculturists under the patronge of Colonel J. P. Smith have set out 20,000 grapevines of varieties best suited to Texas, in the valley just across the river. The vines are healthy and give promise of great things GOING TO BEAUTIFY.

Colonel Nathan F. Barrett of New York, the celebrated engineer and landscape artist who planned the beautiful city of Pullman, has been sent for and will shortly arrive to begin the work of laying out North Fort Worth. A plat of the ground has been sent him and it is understood he expressed the confident opinion that this portion of the city will be made surpassingly beautiful. It will be traversed by dummy lines of cars, and every requirement of estheticism as well as convenience will be looked after and met by this eminent engineer. He will also superintend the picturesque park that is to be the crowning glory of East Fort Worth.

A NOVEL THEFT.

Affoung Girl Relieved of Her Hair while otal to the Gazette.

BONHAM, TEX., June 7 .- A robbery of unusual kind occurred in this city last night, being a theft of hair from the head of a young lady while she was asleep. The young lady in question is Miss Jessie Bryan', the fourteen-year-old daughter of Mrs. Mary Bryant, a widow, wao resides in the northeastern part of town. The girl was sleeping near a partially opened window, and the thief placed a box on the ground outside to stand on and surreptitiously clipped her hair off close to her head. The girl's mother was sleeping near her daughter, but strange to say neither heard the thief nor knew of the robbery until this morning. There is no clew whatever to the perpetrator.

DAVITT'S APPEAL.

He Wants the President of the United State

to Espouse His Cause. NEW YORK, June 8 .- The following appeal from Michael Davitt has been cabled to John Fitzgerald, president of the Irish National League in America:

COUNTY CLARE, June 7, 1887. The work of extermination of our race is going on daily. The people are contesting every inch of the ground with spirit. Their resistance is admirable, but the odds are against them. The Tory policy of eviction and forced emigration we must resist as one man. The v orkmen in America should protest against this pauper labor being forced

upon their market. I would suggest that a deputation of the friends of our cause Humanity and enlightened self-interes are urging America to action in this matter. We want the means to succor and make some small recompense to the imprisoned who sacrifice their liberty in resistance to injustice. Bodske is fighting the battle of Ireland. [Signed]

MICHAEL DAVITT. ECONOMICAL PRESIDENTS.

Many of Them Have Been Able to Retire From Office with Snug Fortunes.

Jacksonville (Fla.) News. There seems to be some conflict in opinions among writers for the press just now about the amount of money Mr. Cleveland is going to accumulate in his presidential term. One writer, the other day, declared that the President was findthan the salary. Another says, on the other hand, that he will go out with about The stockholders of the Moss Horse \$100,000 saved out of his salary. CHICAGO, ILL. June 8 — July wheat opened at 86%c, and within 5 minutes had declined %c. Almost everybody seemed to have some to sell, and under free offering it immediately began a downward movement with few panses until 86% c was reached. Then there was a little withdrawal of pressure. A proportion of the stuff sold came from houses that had stocked up little on the stronger spots yesterday, Receipts were very large, being about 100 cars more than was expected. June wheat was offered in settlement at 92 sc The impression is growing that June is getting pretty nearly covered up, so nearly at any rate that the citque are likely at any moment to allow June to take care of Itself. During the first hour July was quiet in the vicipity of 863, w863,c, and June was steady at 33. As the session proceeded all life seemed drop out of Rice-Louisiana 5% @6%c.
POULTRY-We quote: Young frying chickens either left pit entirely or stood around listlessly. July fluctuated between 86%c and 86%c, and heavy receipts were depressing influence all day. Wheat continues to pour in faster than place can be found to put it, and pressure from behind is getting stronger every day, Good many of shorts who intended shipping out corn to make room for wheat find their plans interfered with by scarcity of vessel room. Cars laden with wheat and corn are accumulating on side tracks, and there seems to be no a equate means of relief at hand, and the blockade is borrly becoming more menacing. It is estimated by presumbly competent authority that there are 2500 or 3000 cars of grain on side track waiti g to be emcars of grain on side track waiting to be em-tied. Reports from leading cities showed there are 1.163,000 bushels on hand and 342,000 bushels shipped. June wheat closed at 92%c, July at 86%c and August at 83%c. Corn was entirely featureless to-day, flucture tions in prices during the regular ression being extremely narrow and speculation in trading light. The opening figures were was to under yesterday's closing, and fair trade wes reported early all round 39 4c for July. Later there was positive duliness on the whole list of futures and tame closing, July being 39 ic. Lets desire to sell provisions, especially short ribs, which being shipped out quite freely, 8,000,000 pounds going out the past two days; July ribs opened \$7 42%. Demand to cover sales made yesterday became quite brisk toward the close, and prices advanced lie above yesterday, but later reacted slightly. July ribs closing at \$7.521. Lard easier, early July opening at \$6.65; later it a vanced to \$6.67%; but closed at opening figures. Leading futures closed as follows Wheat No 2, June 92%c; July 86%c; August 83%c; Sep-tember 83c. Corn No. 2, June 38c; July No '4C; August 40 '4C; September 41'4C. Pork, June \$20.00 Lard, June \$8.60; July 8665; August 86 75; September 8685 Shortribs. June \$7.52%; July \$7.52%; August \$7.50; September \$7.70.
