

ROYAL BAKING POWDER Absolutely Pure. This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind, and cannot be sold in competition with the multitude of low cost, adulterated, cheap, or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall Street, New York.

SICK HEADACHE GARTER'S LITTLE LIVER PILLS. Positive Cure by these Little Pills. They relieve Discomfort from Dyspepsia, Indigestion and Torpid Bowels. A perfect remedy for Biliousness, Sickness, Dizziness, Headache, and all the ailments that result from a disordered liver. They regulate the bowels and prevent constipation and flatulence. Small, and pleasant to take. Only one pill dose. Fully effective. Price 25 cents. CANTON MANUFACTURING CO., Boston, New York.

TOWN AND COUNTY.

The County Alliance meeting at Mansfield Friday will be one of the most important of the season. The cabinet saloon property corner Third and Main streets, was sold yesterday to Dr. Noss of Detroit for \$20,000.

Two hundred and fifty acres of the Rice farm, two miles southwest of town, have been sold to Messrs. D. Portwood and F. Smith at \$20 per acre.

For the month of June the Fort Worth stock yards handled 749 cars of live stock, as follows: Hogs, 1972; cattle, 20,130; sheep, 23,300. The hay consumed amounted to 107,000 pounds.

Year by year the "feeding belt" of Texas lengthens and widens. More cattle will be fed in Texas during the fall and winter of 1887-88 than were ever before, a prediction which the late general rains has converted into a certainty.

The correct way, is to buy goods from the manufacturer when possible. The Elkhart Carriage & Harness Co., of Elkhart, Ind., have no agents. They make first-class goods, ship everywhere, and sell at a low price. See advertisement.

W. W. Dunn has in his yard a real black locust tree, that is new in full bloom and throws off the most delicious fragrance. It is said that this is the only blooming locust of this kind in the state, the sprout of which was brought from Louisiana several years ago.

Fort Worth is named in the charter of the Chicago, Rock Island and Pacific Texas extension, and it will have its southeastern terminus here. The western line calls for Cisco. No town thirty-two miles east of Fort Worth will ever get the Rock Island. This is official.

The managers of the colored state fair, which takes place in this city October 25 and continues five days, have out a neatly printed circular advertising a long and liberal list of premiums in all the departments in which prizes are given. The prospects for a successful fair grow brighter as the time draws nearer.

Farmers say that the corn crop of Tarrant county will, without a particle more of rain, yield from sixty to seventy bushels per acre, as fine as corn as ever grew. The price during seasons of abundance is always low for the producer to make any profit. But there is big profit in converting that corn into either hogs or swine flesh, and this will be done on a large scale all over North Texas.

The Chicago, Burlington and Quincy will be a right good road for Fort Worth, and the shops and terminals of such a system will be worth something to this city. It is understood that this road will come in from the north, between the Gulf, Colorado and Santa Fe and Missouri Pacific. The Chicago Burlington and Quincy will be a fit companion for the Chicago, Rock Island and Pacific.

There can now be but little question that the Gainesville-Dallas branch of the Santa Fe has been abandoned. The road will run from Gainesville to McKinney and connect with the Paris branch a number of miles above Dallas. It is certain that this line will give the company all they desire, for the Paris line will do on which to run to Cleburne.

The people living at Smithfield, in this county, are anxious to have a station established at their little city, and the Fort Worth committee is doing all it can to aid them in accomplishing this. It is said that the depot grounds and two miles of right of way both north and south from Smithfield are granted by Smithfield, the company is willing to put a station there. Smithfield will doubtless comply with this very reasonable request.

The GAZETTE has stated before and reiterates it that the Fort Worth and New Orleans will be the great iron road for Fort Worth and the Houston and Texas Central the iron road of the state. Receiver Dillingham will soon be ordering cars to transport the iron from the smelting works near this city. The iron business of the two roads mentioned will be no small thing. Fort Worth will be to the railroads centering here what Pittsburg is to the Pennsylvania roads.

The Best Line from McKinney to Fort Worth would be a good thing both for our city and for the old reliable Missouri Pacific. It would be in accord with the eternal fitness of things. It is understood from high Missouri Pacific sources that a move in this direction will soon be made. When that extension from Taylor to Houston is completed, Fort Worth will have another mighty line to the Gulf, and will probably prove to be the shortest line between Galveston and Fort Worth. Great is the Missouri Pacific.

Major Hinkley, chief engineer of the St. Louis, Arkansas and Texas, spent all of yesterday in Fort Worth looking after the pushing of the road to Greenville and Commerce. Over sixteen miles of the

road is now covered by graders and the forces are being increased daily. Major Hinkley says everything is moving smoothly. The gentleman left last night for Arkansas, where he will to-day let contracts for sixty miles of road to Shreveport. Work is progressing both on Corsicana and Hillsboro on that extension.

Smithfield will probably secure a depot of the St. Louis, Arkansas and Texas Road if the reasonable request of the company is met. All that is asked is depot grounds and two miles of right of way on either side of the town. It is said that the mainline people are perfectly willing to what is asked, and an engineer has been sent to locate the depot, so the Smithfield people may know what land they will have to secure.

Fort Worth is soon to be made the end of the division of the line of the Santa Fe to Paris. A train will soon be put on departing from and stopping at Fort Worth, which will call at Cleburne, Paris, where the "Frisco" is met. All St. Louis trains will run through to Fort Worth, and last time will be made. The Santa Fe and "Frisco" are after connections, which they find at Fort Worth and not at any point on the Cleburne-Paris line. It is believed this arrangement will go into effect on Sunday next and continue until the Fort Worth and St. Louis is completed from Farmersville to this city.

It need not surprise the good people of McKinney to see the Missouri Pacific put a corps of engineers in the field at an early day to run a line for the extension of the East line to Fort Worth. It is stated that high Missouri Pacific officials have said this is what the Missouri Pacific intends to do early in the fall. Great is the Missouri Pacific. Fort Worth will be more than glad to have direct communication with the splendid city of McKinney, that we may know her people better and that she may become acquainted with Fort Worth. The banners have been hung on the outer wall and the cry of "on to McKinney" shall never cease until bands of steel unite us.

It has been known for some time that the Chicago, Burlington and Quincy had made up its mind to enter the field for Texas trade, and with this in view the decision to extend its line to Fort Worth. When this decision was reached by the company several months ago, the papers had considerable to say about the matter, but the company has not been ready to put its plan in operation. Recently, however, the preliminaries have been arranged, and last week a representative of the company spent several days in Fort Worth. The gentleman was not open to interviews by newspaper men, but to Mr. Robert McCart he stated without any injunction of secrecy that the company not only wanted to build to Fort Worth, but was compelled to do so, and the present year would see the extension under way. The gentleman said they would obtain by building to this city all they could possibly want and Fort Worth would be their southwestern terminus, and here they would establish shops, roundhouses, etc. A few days later the Chicago, Burlington and Quincy established the office of its five state agents, and fixed Fort Worth as the headquarters. Immediately after this Mr. Capert was appointed the Texas agent and established himself with us. The gentleman has already done a good business for his road and is greatly pleased with the outlook.

THE GAZETTE this morning presents to its many readers including railroad presidents, general superintendents, receivers, chief engineers, general managers, masters of transportation and all their assistants a true, correct and revised edition of its railroad map of Texas. A copy of THE GAZETTE will prove invaluable as a pocket map. No map published by any of the companies is as late as the above. It will be noticed that the St. Louis, Arkansas and Texas line from Commerce to Fort Worth is duly recorded, also the same company's line from Chandler to Fort Worth. The extensions of this line to Sherman and from Corsicana to Hillsboro are also down. The Atchison-Gulf has been extended to Kansas City and the Gulf, Colorado and Santa Fe completed from Cleburne to Weatherford. When it is considered that only yesterday was the news of the building of the Gulf, Colorado and Santa Fe from Farmersville to Fort Worth known, General Manager and Chief Engineer Snyder and Assistant Chief Engineer Sherman must be supposed to see their wise move put on the map to stay forever inside of twenty-four hours. Paris is given her Fort Worth line as built by the Santa Fe and the extension of the "Frisco" to Roberts, making the Houston and Texas Central's St. Louis to Fort Worth line. The Missouri Pacific has been extended to Henrietta, while Wichita Falls is now in peace, ready for the Chicago, Rock Island and Pacific. The Fort Worth, Bowie, Montague and Burlington is down to Red river, and the Missouri Pacific from Greenville through Waxahatchie to Hillsboro. The Fort Worth and Rio Grande has been extended from Brownwood on the way to San Angelo and the spur run to Coleman City, and last, but not least the St. Louis and San Francisco has been extended from a junction point in the Indian Territory through Bonham and McKinney to a connection at Fort Worth with all the trunk lines in Texas. The most hypercritical can now find no fault with THE GAZETTE railroad map. There are no copies of the old map in THE GAZETTE counting rooms for sale at 10 cents each, although somewhat out of date. In this day and generation it is an insult to a man's intelligence to offer him a map of 1885 in July, 1887, even at the low price of 10 cents. THE GAZETTE's old maps have all been burned.

Dr. McCoy, 515 Main street, specialist in diseases of rectum, and genito-urinary organs. Cures piles, hemorrhoids, stricture, etc., without detention from business.

Fine calf boots only \$3.50, worth \$4.50, at the shoe store of Logan, Evans & Smith, successors to Lewis Bros.

Don't Forget That Those slippers at 50 cents at Randall & Chambers Co.'s are the cheapest in the world. Receiver Dillingham will soon be ordering cars to transport the iron from the smelting works near this city. The iron business of the two roads mentioned will be no small thing. Fort Worth will be to the railroads centering here what Pittsburg is to the Pennsylvania roads.

The Best Line from McKinney to Fort Worth would be a good thing both for our city and for the old reliable Missouri Pacific. It would be in accord with the eternal fitness of things. BUILDING THEIR YARDS.

The Alliance Surveys its Grounds for a Big Cotton and Wagon Yard in Fort Worth.

An Institution that will Redound to the City's Good—Col. J. P. Smith's Generosity—Splendid Crop Outlook.

From 'Squire J. S. Morris of Elton, one of the leading Farmers' Alliance men of this section, a GAZETTE reporter learned Monday that the work of establishing the County Alliance cotton yards in this city had begun in good earnest. "I have put in a pretty busy day," he said, "but the yards they are located about 300 yards east of the compress, and comprise a piece of ground 2000 feet long, which was generously tendered to the Alliance for a term of five years by Colonel J. P. Smith, which was equivalent to a money donation of \$100,000. The survey and dividing into wagon and cotton yards, and have made out the bills of lumber for the necessary buildings. On the cotton section we will begin to-morrow the erection of a two-story frame house containing offices and sample rooms. The grounds will be substantially finished by next week, four strands of wire-plank on top, and two ten foot gates opening into an avenue, on each side of which is a space sixty feet wide and 200 feet long, affording storage for 2400 bales of cotton.

Between the cotton grounds and the wagon yards is a solid fence eight feet high. These yards are on the north and east sides of the lot, and are divided for 150 horses, nicely covered over, and a ten foot entrance on the west side. By this gate stands a capacious water trough kindly furnished by the city authorities. One very good building is already on this part and others will be added later."

The location of the yards were secured for Fort Worth by the liberality of her citizens, who gave a handsome cash bonus in addition to Colonel Smith's donation of the grounds. That they will be of great advantage to the city cannot be doubted, since more than three-fourths of the Alliance cotton produced in Tarrant county will be brought to these yards. Not only this, but Alliance producers from Denton, Wise, Parker, Hood, Johnson, and other counties will bring their bales of the fleecy staple to the Queen City. In fact Fort Worth's chances to become "one of the leading cotton markets of the state" were never so bright as now. In addition to this should the State Alliance Exchange be secured and there is a bright prospect for that, her pre-eminence is assured, because wherever the state exchange is located there will the united Alliance plant its factories for making the raw cotton into cloth.

The retail trade of the city is especially to be congratulated. The bringing of three times as much cotton to Fort Worth as she has received for the past seven years, will be of proportionate benefit to the retail merchants of this city. Every branch of business will feel the quickening impulse of an enlarged traffic in the great staple which never fails to command the cash.

A BIG CROP IN SIGHT. The chances are, say all the farmers, for one of the greatest if not the biggest yield of cotton ever produced in Texas. Here in Tarrant county enough fruit are being raised to develop a market to guarantee half a bale to the acre. And the plant is in excellent condition, the fields looking as neat and free of weeds, for the most part as a garden. There has been but little if any increase of acreage in Tarrant, but there is no comparison between the status of the crop here and the corresponding one in other sections. Altogether the crop outlook is as bright as could be desired, and a season of exceptional prosperity now looks assured.

Some Folks Have much difficulty in swallowing the huge, old-fashioned pill, but one can get a little relief by taking "Pleasant Pills," which are composed of highly concentrated vegetable extracts. For diseases of the liver and stomach, sick and bilious headaches, etc., they have no equal. Their operation is attended with no discomfort whatever. They are sugar-coated and put up in glass vials.

AN ENGLISH COUNTESS. The Earl of Aberdeen's Wife is Highly Pleased With Texas. From Friday's (July 1st) Daily. A glance at the register of the Hotel Pickwick last evening showed a couple of inscriptions such as do not often grace the book whereon pilgrims at Texas hotels leave their autographs. One was the Countess of Aberdeen, the other the Hon. A. J. Majorbanks (pronounced Marsbanks). A personal in yesterday's GAZETTE contained the information that the Earl of Aberdeen had passed through the city en route for Kansas City. As he unluckily missed the pleasure of a meeting with the young man THE GAZETTE hires for interviewing purposes, the latter concluded that he would give some of the other members of the Aberdeen family a chance to repair the damage, and so called on the Countess and the Hon. Mr. Majorbanks at the hotel parlor. The latter is the brother of the former, and is a good looking young Englishman of some twenty years summers, without the slightest tinge of nationality, titled Englishmen traveling in this country carry so deep a tinge of hauteur, along with them that the atmosphere they breathe takes on a distinctive coloring of it. But this is a digression.

The reporter was quite cordially received by Mrs. Aberdeen and her brother, and in a few minutes felt thoroughly at home. The Countess could not be called a strictly beautiful woman, though she is undeniably very fine looking, and has that indefinable air of aristocratic breeding and bearing that marks out the patrician class. She is just a healthy color in her face, characteristic of her countrywomen. In response to the reporter's question of how she liked Texas, her ladyship said, with a winning smile that "it was most beautiful and interesting country, far better than she ever imagined."

She had been spending a week on the Earl's ranch in the Pathandale and was in raptures with the glorious prairies. She thought the cowboys a picturesque set of men as gallant as men could be, and wondered how anyone could have ever had the heart to shoot them. The longhorn cattle were interesting novelties, and on the whole the visit (their first to Texas) was an unalloyed round of pleasure. The Countess and her husband are now journeying toward their home in Scotland, after having proceeded thus far in a tour round the globe. They first visited the Orient and sailed across the Pacific to California and thence to Texas. Before embarking on the Atlantic, however, they will see Niagara and visit points in Canada. The lady and the gentleman proceeded to the

County School children. County Superintendent Moore has just forwarded to the State Educational Department at Austin the census of children in Tarrant county (not including Fort Worth) between the ages of eight and sixteen years, as follows: Total white male, scholastic age, 12,000; Total white female, scholastic age, 12,000; Total colored male, scholastic age, 1,000; Total colored female, scholastic age, 1,000. This shows an increase in the county of about 200 children over 1886, and is, according to Professor Moore's view, a pretty faithful count. Add to this the duty of this city (something over 3000) and a grand total of about 8000 is obtained for the entire county.

Logan, Evans & Smith, successors to Lewis Bros., are giving splendid bargains in boots and shoes, 375 Houston street.

The Glorious Rain. People in the city felt happy Saturday afternoon when the moisture of the big black clouds that overhung Fort Worth was condensed into rain drops that fell with pleasing sound, thick and fast upon the dusty streets. From reports received subsequently the blessing appears to have been pretty general. It was a worthy cause of rejoicing coming as it did in time to insure perhaps one of the largest corn crops on record. With plenty of water and grass for the stockman and enough for the farmer, "that feedeth all," Texas is indeed a blessed land, and so its people think.

We are Glorifying Our stock of embroidered linen robes and will sell you one at \$5 that can't be duplicated for less than \$5.

The Gas Enterprise. Professor Ralston, the expert engaged by the Fort Worth Natural Gas and Water Company, left Saturday for the east. He goes to make a contract with competent parties to sink the experimental well in this city. The drilling will be done in the eastern suburbs this side of the river.

We are offering great bargains in our hosiery departments and will save you money on all your purchases from us.

Both Sides Working. A meeting will be held at the courthouse Tuesday night to organize a prohibition club in this city to act in the interests of the cause during the rest of the campaign. Among the names of those favoring this action are noted: M. B. Loyd, R. E. Beckham, W. J. Boaz, Robert McCart, R. M. Wynne, John C. Harrison, E. M. Turner, A. F. Truitt, K. M. Van Zandt, Jr., A. S. Nicholson, R. H. Sellers, Charles E. Maloney, B. H. Dunn, S. W. Stearns, Sam J. Hunter, J. B. Jeter, James C. Scott, W. A. Gardner, W. M. Brown, W. A. Huffman, E. M. Walker, Thomas Bush, M. C. Bowles, A. M. Carter, C. M. Russell, K. M. Van Zandt, Thomas A. Tidball, John F. Zinn, Judd C. Boyd, James F. Prosser, T. W. Snick, Charles H. Fry, George Mulkey, S. H. Mulkey, L. B. Imboden, W. F. Patterson, D. C. Milan, D. S. Brown, D. Boaz, N. A. Steadman, J. W. Hanna, Zeno C. Ross, W. Hughes, George B. Hardwick.

The anti is firmly set on having their grand state rally in this city on the 26th inst., as reported in yesterday's GAZETTE. They will hold a meeting Tuesday to take into consideration ways and means for making the meeting a great success. As many anti helped contribute toward making the late prohibition convention here, a concourse almost unprecedented in its importance and personnel, so they expect the pros to reciprocate, and for the sake of making Fort Worth the greatest mass meeting center in the state, return the favors shown them.

Good speakers have been written to, and the meeting may be said to be a sure thing. The anti seem enthusiastic on this subject, and will work hard.

Bargains. Taffeta, silk and all other gloves and mitts, at Randall & Chambers Co.'s.

It is a good axiom, "If we wish a thing we must seek after it; it will not come to us. Thus, those who desire perfect health and freedom from headache, indigestion and rheumatic pains, should find and use Morning's Star.

A mammoth stock of ladies fine polish shoes only \$1.00 at Logan, Evans & Smith's, successors to Lewis Bros.

Ladies and Misses Remember When you come to Fort Worth that Randall & Chambers Co. is the place to get bargains.

Fine kid polish shoes only \$1.00 a pair at Logan, Evans & Smith, successors to Lewis Bros.

At New York City. Alvest, silk and hellebore, 48 and 50 cent, worth \$1.00. After the \$5.65, worth \$10.00. Proceeded to the

DR. PRICE'S PURE FULL WEIGHT PURE CAKING POWDER. DR. PRICE'S SPECIAL FLAVORING EXTRACT. PUREST AND STRENGTHENED NATURAL FRUIT FLAVORS.

MOST PERFECT MADE. Do not think she would find any scenery in their further travels that could surpass that of Texas in a certain magnificence and beauty.

The Earl of Aberdeen while Lord Lieutenant of Ireland was very popular with all factions of the Irish people and so was his noble and kind hearted wife. Both are staunch adherents of and believers in Gladstone to-day, though the Earl is not actively engaged in politics.

The Countess proceeded to Kansas City to join her husband, while her brother goes back to the Pathandale ranch, which he has helped to manage for several years.

It is surprising How cheap you can buy a pair of shoes at Randall & Chambers Co.'s.

County School children. County Superintendent Moore has just forwarded to the State Educational Department at Austin the census of children in Tarrant county (not including Fort Worth) between the ages of eight and sixteen years, as follows:

Total white male, scholastic age, 12,000; Total white female, scholastic age, 12,000; Total colored male, scholastic age, 1,000; Total colored female, scholastic age, 1,000. This shows an increase in the county of about 200 children over 1886, and is, according to Professor Moore's view, a pretty faithful count. Nicholson, R. H. Sellers, Charles E. Maloney, B. H. Dunn, S. W. Stearns, Sam J. Hunter, J. B. Jeter, James C. Scott, W. A. Gardner, W. M. Brown, W. A. Huffman, E. M. Walker, Thomas Bush, M. C. Bowles, A. M. Carter, C. M. Russell, K. M. Van Zandt, Thomas A. Tidball, John F. Zinn, Judd C. Boyd, James F. Prosser, T. W. Snick, Charles H. Fry, George Mulkey, S. H. Mulkey, L. B. Imboden, W. F. Patterson, D. C. Milan, D. S. Brown, D. Boaz, N. A. Steadman, J. W. Hanna, Zeno C. Ross, W. Hughes, George B. Hardwick.

The anti is firmly set on having their grand state rally in this city on the 26th inst., as reported in yesterday's GAZETTE. They will hold a meeting Tuesday to take into consideration ways and means for making the meeting a great success. As many anti helped contribute toward making the late prohibition convention here, a concourse almost unprecedented in its importance and personnel, so they expect the pros to reciprocate, and for the sake of making Fort Worth the greatest mass meeting center in the state, return the favors shown them.

Good speakers have been written to, and the meeting may be said to be a sure thing. The anti seem enthusiastic on this subject, and will work hard.

Bargains. Taffeta, silk and all other gloves and mitts, at Randall & Chambers Co.'s.

It is a good axiom, "If we wish a thing we must seek after it; it will not come to us. Thus, those who desire perfect health and freedom from headache, indigestion and rheumatic pains, should find and use Morning's Star.
