over the majority given Buckner in 1887 There have been some surprising victories for Republican candidates for the legislature, but this has been due in all cases to local causes. In the Republican conuties where ex-Senator Colson, the Republican nominee for treasurer, was expected to make heavy gains, there has been rather a decrease. Louisville gives Sharp 2500 majority and the state probably 25,000. The Prohibition vote is light. The votes for a convention to revise the constitution probably will show a sufficient majority to call a convention.

SNUBBING MRS. BLAINE.

Mrs. Harrison Said to Have Awalted Her Chance to "Get Even."

NEW YORK, Aug. 1 .- A special from Washington says that Mrs. Harrison's refusal to go to see the Blaines at Bar Harbor is taken by the gossipers to mean a snub of Mrs. Blaine. It has not been forgotten that Mrs. Blaine's snub of Mrs. Harrison when the latter was merely the wife of a new and almost unknown senator came near involving the Republican party in a first-class family row, and the gossips will have it that Mrs. Harrison, who is known to have a very strong mind of her own, has been simply waiting for a good chance to get even. It is somewhat extravagant to ascribe Mrs. Harrison's refusal to go to Bar Harber to a settled desire on her part to have revenge on Mrs. Blaine. All hands agree that Mrs. Harrison is not the sort of woman to store up small social gradges, but that she dislikes Mrs. Blaine is as well known as that Mrs. Harrison paints china. Her position at this janeture, in all likelihood, is simply one of unwillingness to place herself under the necessity of maintaining close friendly relationship with Mrs. Blaine for ten days or two weeks. Stephen B Elkins, who is now rather more of a manager of in one minute by the Catteura | the administration than anybody outside of the White House family, has, from the first, advised against the proposed visit of Mrs. Harrison to the Blaine cottage. Mr. Elkius knows of the feeling which the lady of the White House entertains for the wife of the prime minister, and last winter, before Mr. Harrison had taken the oath of office, freely confessed that he had more fear of trouble between the Blaines and Harrisons from the woman and social end of the administration than from the masculine and political. Grand Chamberlain Elkins has within a few weeks given it as his solemn opinion that the best thing that can be done with The Democratic counties so Mrs. Harrison and Mrs. Blaine is to keep

The President Going Far from the Sea of Conflict to Meditate in Quiet for a Few Days.

The Black Diamond People Believed to Have Been fold to Go and Sin no More. Yesterday's Appointments.

Special to the Gazette.

WASHINGTON, Aug. 5 .- It seems that the enterprising captain of the United States sloop that captured the Canadian sealing vessel, the Black Diamond, the other day on the ground that the latter was engaged in the unlawful taking of seals, was overconfident of the ability of the single man put aboard the Canadian to carry her on into some convenient port, or else he carred very little about executing his orders to their full extent. It is even hinted that after seizing the seals carried by the Black Diamond, only one man was transferred from the American vessel in order to let the captured party get away. Anyway, the Black Dlamond did get clear out of the hands of the Americans, and nobody at the state department or the treasury department appears to know just what was done. They don't seem to care much, either. It is probable from all the circumstances of the case that the crew of the Black Diamond were let off under a promise by them that they would go and sin no more. That is, that they would abandon the illegal and cruel practice of killing the seals at a time when the females were breeding, thus rapidly hastening the day when the seals should meet the fate suffered by the buffalo, extermination.

THE REMAINING TEXAS APPOINTMENTS appear to be in that delightful condition expressed by the phrase "hung up. That is to say they are indefinitely postponed, and because of the redhot war the candidates for the various offices are making on each other. The knife is be-

Weekly Resume of the Gazette's Daily Report from 11 Over the

HASKELL, TEX., July 25 .- Haskell county now presents a most inviting appearance to the home-seeker. There has been an abundance of rain during the present year, and those who put in crops have been well repaid for their labor. Hitherso-the country has had to rely almost exclusively on its stock interests. Now, kowever, things are changing, and many farmers are opening up large

firms. The range is better than for eight or ten years past, and the country is a stockman's paradise. There will be many Int beef cattle neld in pastures for buyers and for shipment during the coming fall. They will be in much better condition for shipment than for several to suit anyone. Business in the

years past. However, the stockman must go. His time is short and his place is soon to be taken by the tillers of the soil. To all such, who are men of industry and of means, Haskell county offers one of the most inviting places for a home new to be found in the northwest. To them will be extended a cordial welcome, and they will have an opportunity to assist in shaping the destiny of a county one day destined to take a leading rank among the many fair counties of Texas.

was decided upon, and an adjournment was had until some future day. In the meantime an effort will be made to nduce Galveston capitalists to take hold of a rolling mill enterprise.

RHOME, TEX., July 31 .- Our farmers are buoyant over the splendid cotton prospects; no indications of worms, and the plants are loaded down with fruit. We have a big corn crop assured, and farming people of the Eastern states who contemplate coming to Texas should locate here, where they will be able to get plenty of 15 aml 20 cent corn.

Cattle are doing anely. There are milions of acres of fine grass and plenty of water, but the low price prevents much trade and dealing in cattle.

JOSHUA, TEX., Aug. 5 .- Mr. H. E. Slaughter, about twenty-two or twentythree years of age, attempted suicide near Joshua last night by swallowing broken glass. He was found early this morning in the woods vomiting blood. He was at once carried to Mr. A. W. Absher's residence and a physician summoned, who reports him doing well this evening with a good chance of recovery. He gives as a reason for his rash act that the young lady to whom he was engaged to be married had changed her mind and accepted the heart and hand of another, and that the pressure was more than he could stand and still says that he can't stay here, but must go.

TYLER, TEX., Aug. 5.—This morning Mrs. Talbert, a lady over sixty years old and who lives with her son Mason Talbert a teamster of this city, was knocked down by a Cotton Belt car while crossing the above track at the junction with the International and Great Northern railway. Her right foot was crushed in such manner that the amputation of that number was necessary. No other serious injuries resulted. She is doing very well under the circumstances and there s hope of her recovery. the has a son and daughter living at Dalby Springs.

I send you a Japan plum, grown in Mr. J. L. Stephenson's orchard. The trees are only two years old and bore about one hundred plums apiece, as many as eighteen growing on a limb not over twenty inches long. Even now before the time for maturing the fruit will mellow when put in a dry, warm place, and has a fine flavor. It is the coming plum for North Texas in my opinion. The sample sent measured when pulled six and one half inches in circumference.

The health of our section is very good for such rates and warm weather as we have passed through for the past two mouths.
