

My Doctor Said

"Try Cardui," writes Mrs. Z. V. Spell, of Hayne, N. C. "I was in a very low state of health, and was not able to be up and tend to my duties. I did try Cardui, and soon began to feel better. I got able to be up and help do my housework. I continued to take the medicine, and now I am able to do my housework and to care for my children, and I feel as though I could never praise Cardui enough for the benefits I have received."

TAKE CARDUI The Woman's Tonic

Cardui is successful, because it is made especially for women, and acts specifically on the womanly constitution. Cardui does one thing, and does it well. That explains the great success which it has had, during the past 50 years, in helping thousands of weak and ailing women back to health and happiness.

If you are a woman, feel tired, dull, and are nervous, cross and irritable, it's because you need a tonic. Why not try Cardui? Cardui builds, strengthens, restores, and acts in every way as a special, tonic remedy for women. Test it for yourself. Your druggist sells Cardui. Ask him.

FOSTERS WEATHER BULLETIN

Washington, March 8.—(Copyrighted, 1913, by W. T. Foster.)—Last bulletin gave forecasts of disturbance to cross continent March 11 to 15, warm wave 10th to 14th, cool wave 13th to 17th. Temperatures of the week in which this weather disturbance crosses the continent will average colder than usual and the precipitation of rain or snow, while not heavy, will be above the average of the present winter. This storm wave comes in between two severe storm periods and will therefore be comparatively mild. Severe cold will precede and follow this wave of disturbances.

Next disturbance will reach Pacific coast about March 17, cross Pacific slope by close of 18th, great Central valleys 19th to 21st, Eastern sections 22d. Warm wave will cross Pacific slope about March 17, great Central valleys 19th, Eastern sections 21st. Cool wave will cross Pacific slope about March 20, great Central valleys 22d, Eastern sections 24th.

This will be a very dangerous storm period and you should remember that we are hitting the dates of the dangerous storms. Within a few days of February 24 a million dollars in property was destroyed by great storms, just at the time predicted in these bulletins, and now we more earnestly advise you of the great storms that will sweep over this country within a few days of March 25.

As that dangerous storm period will cover more time than usual we have warned all to be on the alert from March 16 to end of the month. We regret that we are not yet ready to give the locations of these dreaded storms and to describe them in detail for every locality, but the time is not very far away when this can be accomplished completely.

The July storms will be the greatest, those of March next in severity, those of January we counted about the same in force as those of March, and those of February we considered the weakest of all. We expect property and lives to be destroyed in March and July by these terrific storms, and these warnings are given with a hope that property and lives may be saved by being prepared.

As a general average, rainfall is not expected to be great in March, but these severe storms will cause some heavy local rains and probably in Northern sections some blizzards.

Last half of March is expected to be warmer than usual. One of the precipitation waves is expected to cross the continent March 11 to 15, and the precipitation during its passage will be as heavy as any of the month. Great rise in temperatures between the passing of the cold wave March 8 to 12 and the passing of the warm wave March 18 to 22.

There are those who believe that at times the electro-magnetic forces become quiet and that the human mind is then not active, not energetic. It is claimed that at such a time the dark ages spread over Europe and held the human race as peons or slaves for a thousand years. Then it is further claimed our solar system moved into new relations to other systems, electro-magnetism became more active and is now on the increase. This, it is claimed, accounts for the great activity of the people in all countries of the world at the present time.

We have no opinion on this matter, but note it as a belief of many well informed people. We know that people are dull under a low barometer and brighter, feel better under a high barometer or as a cool wave comes in. We also know that more deaths occur under the oppressive atmosphere of the low than under the invigorating influences of the high.

SPOKE INTERESTINGLY ON TITHING

Mr. H. Z. Duke of Dallas, as announced through The Eagle, spoke at the Baptist prayer meeting last night on the subject of "Tithing." It was listened to closely, every word of it, by an audience that filled the Sunday school auditorium of the church to overflowing.

He quoted different passages of scripture to show that it was enjoined, and said he believed that tithing was just as much a Bible doctrine or obligation as baptism, the Lord's supper, or any of the other ordinances we observe.

Mr. Duke, as everybody knows, is a man of large affairs, being president of the firm of Duke & Ayers, owning twenty-three stores in Texas. He is a man who practices what he preaches and has practiced tithing in the strictest sense during the eighteen years he has been in business. He covenanted with the Lord when he entered business that it would be a

A. & M. COLLEGE DIRECTORS ELECTED

E. H. Astin of Bryan Succeeds Charles Davis and E. B. Cushing Succeeds D. W. Kempner—These Only Changes.

[Special to The Bryan Eagle.]

Austin, Texas, March 7.—The Senate late this afternoon gave its approval to the list of names submitted by Governor Colquitt for appointment as members of the board of directors of the Agricultural and Mechanical College. Only two changes were made, E. H. Astin of Bryan being appointed instead of Charles Davis of Steeles Store, resigned, and Col. E. B. Cushing, chief engineer for the Southern Pacific lines and an alumnus of the college being appointed to succeed E. W. Kempner of Galveston.

Walton Petzet of Fort Worth, Judge John I. Gulon of Ballinger, L. J. Hart of San Antonio, Dr. J. Allen Kyle of Houston, and R. L. Bennett of Paris

were reappointed. Judge Ed R. Kone, State Agricultural Commissioner, is ex officio a member of the board.

SENATOR CLARKE OF ARKANSAS WON OUT

Was Elected President Pro Tem of the Senate Over Senator Bacon of Georgia.

[By Associated Press.]

Washington, March 7.—The Democratic senators in caucus today selected Senator Clarke of Arkansas for president pro tempore of the Senate over Senator Bacon of Georgia by a vote of 27 to 14. The vote was a great surprise because it had been believed Senator Bacon would be chosen.

BUSINESS CHANGE.

T. A. Satterwhite has assumed full control and is in full charge of the Singer Sewing Machine Company's business in Bryan and Brazos County. Mr. J. K. Walker has retired from his work in this county.

MAKE MONEY---RAISE BIG CROPS---BY USING

Star Brand High Grade Fertilizers

They cost no more money than cheaper brands. Made in Brazos County for Brazos County soils. The new Texas law requires each sack to be branded or tagged with the following:

High Grade	-	-	-	-	-	The Best
Standard Grade	-	-	-	-	-	Second Best
Low Grade	-	-	-	-	-	Third Best
