FOR WOMEN AND THE HOME.

Stale crackers are improved by placing them in a hot oven a few moments before serving.

A few drops of paraffin added to the blacking will aid materially in polishing damp shoes.

Cut flowers will keep a week or two if placed in water in which a small quantity of saltpeter has been dissolved.

A spoonful of kerosene in boiled starch keeps it from sticking, but do not use enough to make it smell of oil.

Fruit jars may be preserved from cracking, if, before filling, they are placed on a folded towel, soaked in hot water.

Put a few grains of rice in the salt cellars to keep the salt from caking. As the cellar is shaken, the rice keeps the salt moving.

If the skin becomes dry and hot from the combined effects of sea water and the sun, wash the face with buttermilk two or three times a day. It has wonderfully soothing properties.

Ivory knife handles which have become yellow from age and misuse may be whitened by being rubbed gently with fine sandpaper and then polished with a clean piece of chamois skin, until well polished.

White satin shoes may be easily cleaned at home. Stuff out the shoe in shape and rub it gently with a soft cloth dipped in methylated spirit, repeating the application until the shoes are perfectly clean.

Instead of putting food into the oven to keep it hot for late comers, try covering it with a tin and setting it over a saucepan of boiling hot water. This plan will keep the food hot and prevent it's becoming dry.

To clean an enameled bathtub, take a heaped tablespoonful of salt, moisten with turpentine and with it scour the bath tub; then rub it with a clean cloth. Before beginning operations take care that the tub is perfectly dry.

To remove freckles, take one ounce of lemon juice, a quarter of a drachm of powdered borax and half a drachm of sugar; mix thoroughly, and let it stand in a bottle for three days. It should be rubbed on the face and hands several times a day.

FOR SALE.

The choicest building property in Bryan. Either by the lot, quarter acre, or 4-acre block. Located on south side near graded school and Texas Woman's College, where the air is purest and healthiest. Select neighborhood. W. R. Cavitt. 142

NOTICE.

Notice is hereby given that the Commissioners Court of Brazos county will meet as a board of equalization on Monday, June 14, 1909. By order of the Commissioners Court.
W. C. Boyett, C. C. B. C.
By G. J. Nedbalek, Deputy.

A LONG AND FAITHFUL SERVICE.

Mr. A. Smoot, the Oldest of the A. and M. College Employees to be Operated on in New Orleans.

College Station, Texas, May 21.—For more than twenty years A. Smoot has been an employe of the dairy department of the A. and M. College of Texas. When he first came here, he made the trip behind an ox team, accompanied by his wife and children very small. James W. Carson, now assistant to the director of the Experiment station and in charge of the enforcement of the pure cattle food law, was superintendent of the farm, and he employed Mr. Smoot for work in the dairy, and since that time, Mr. Smoot has continued in his work, has handled all the cows that have been of the dairy herd in the score of years, has milked every one of them, has looked after every gallon of milk that was the output of the college, has seen administrations change, new faces come and old ones go, has marked the advance the college has made, has seen buildings go up, and about him those children of twenty years ago have grown to adult age, and other children have come on to be about his knee and make glad his home. He has been faithful in his work, and it was while faithful last winter that he was injured and is now suffering as a result of it.

As a part of his duties Mr. Smoot has been getting out of bed about 2 o'clock in the morning, so as to round up the dairy herd in time for the day-light milking. While he was in the pasture last winter on such a round up, his horse fell with him, and a rib was broken. The man was active, accustomed to outdoor life, and vigorous to an extent and it was but a short time until he was able to come out, the broken rib to all intents and purposes being mended. A few weeks ago he began to suffer from the trouble, and there was no relief for him. He has just returned from Galveston, where he made a trip for consultation with eminent physicians, and they state that there is no provision in Texas to give him relief; that New Orleans is the nearest place. It seems that on account of the fracture of the rib, his lung has found a way out of the cavity, and it will require an operation to replace it, and probably a silver plate across the opening will have to be provided.

Prof. Robert F. Smith of the department of mathematics, who has been here longer than any other at the College except Steward B. Sblsa, and who remembers when Mr. Smoot first came to college has taken much interest in Mr. Smoot's condition, and at the meeting of the faculty Tuesday he mentioned the misfortune of the dairy herd manager. The result was that a handsome purse was made up by the members of the faculty which was sent to Mr. Smoot, with a letter from Mr. Smith, who said:

"The members of the faculty of the college, wishing to express their sympathy for you in your misfortune, and to show their appreciation of your long and faithful services to the college, have taken this method of expressing the wish that you may be restored to health and usefulness, and this purse is sent you with the hope that it may be of assistance in restoring your health. As one who has for years known of your ever faithful performance of duty, it affords me pleasure to transmit this token of our esteem and best wishes."

It may be that Mr. Smoot will go to New Orleans for surgical attention.

Gus Stevener of near Kurten, who has been hauling Irish potatoes to town this week, was here today and informed the Eagle representative that he raised his own seed Irish potatoes last year and by that means saved some \$12.00 an acre on this year's crop. He says it is all a mistaken idea that the seed potatoes cannot be raised right here, and that they can be as easily kept through the winter, as sweet potatoes. He also says the yield on the land planted from native seed, is much better than that planted from northern grown seed. Potato growing gives promise of being a big item in Brazos county farming next year.

BEACON SHOES \$3.50

\$3.00 FOR MEN

Look like \$5.00 shoes—because they have worked into them the same snappy, graceful curves that well-dressed men demand.

Before you buy shoes again, see the extraordinary values offered by

EUGENE EDGE
ON THE CORNER

A BRYAN MILLIONAIRE.

The People of Bryan Rejoiced at Young Claude Mitchell's Good Fortune.

The people of Bryan were rejoiced yesterday afternoon when they read in the Eagle's telegraphic dispatches of the good fortune that had come to young Claude Mitchell of Palestine. The dispatch stated that the young man had fallen heir to nine hundred thousand dollars in Tennessee and had left for Nashville to receive it. The same dispatch was printed in all the state papers today.

The young man is a son of Mr. and Mrs. Claude Mitchell of Cleveland, Texas, and was born and raised in this city, as were his mother and father before him. He is a grand son of the late Dr. J. P. Mitchell, a brother of Col. Harvey Mitchell, both of whom came from Tennessee. It is supposed the money was willed him by some rich relative residing in the old home state of the Mitchell family.

Long Distance Notice.

Under our contract with the Southwestern Telegraph and Telephone Co., we handle the Long distance business of that company practically without profit. We cannot, therefore, indulge subscribers for long distance tolls longer than the end of the month. 144
Bryan Telephone Co.

JUNIOR LEAGUE.

The Junior League of the First Methodist church will have two entertainments tomorrow. All the members from twelve years old and up will go on a picnic leaving the parsonage at 8 o'clock in the morning. The boys of the League will furnish the vehicles and the girls furnish the lunch. The children under twelve will have a lawn party in the parsonage yard from 4 to 6.

Long Distance Notice.

Subscribers, who are indulged until the first of the month, on tolls for long distance connections, are earnestly requested to settle promptly when collector calls. We are required to advance all tolls on the 5th of each month, whether collected or not. 144
Bryan Telephone Company.

POULTRY MARKET.

Chickens of all kinds are in excellent demand.
Hens, \$2.00@2.50 a dozen.
Springs, \$2.50@3.75 a dozen.
Fryers, \$3.00@3.50 a dozen.
Broilers, \$2.00@3.00 a dozen.
Ducks and geese not wanted. Turkeys out of season.
Eggs, good demand for fresh yard. First 12 1/2 to 15 cents a dozen. Second and stained, 8 to 10 cents. Market almost bare of fresh yard eggs.

POTATO SHIPPING CONTINUES

The potato shipping by the farmers continues with fine success. Mr. F. W. Yeager is in charge at the compress, where the potatoes are billed out and proves to be an able and experienced shipper.

Three cars have been sold and the fourth is ready for shipment. Two cars were sold to Gordon Sewall and Co., and one car to a Kansas City wholesale house at 95c per bushel. The fourth will be sold to a firm in Houston at 95c per bushel.

About 1500 bushels have been received and more are coming in all the time.

This is a fine move on the part of the farmers and it is a paying business. The land planted in potatoes is averaging nearly \$100 per acre. The diversified method is fast taking the place of the all cotton and corn idea. It is proving a success and it is only a question of a few years until Brazos will be the land of milk and honey.

Parties in today from Harvey report the rain very light in that section. Some did not get enough to lay their corn by and with them rain is now badly needed.

ASTHMA AND HAY FEVER WILL VANISH.

Everybody knows that Hyomeo cures catarrh. But there are many sufferers from asthma and hay fever who don't know that Hyomeo will give them instant relief and if used regularly permanent cure.

But E. J. Jenkins knows so well what Hyomeo will do that he guarantees it to cure catarrh, hay fever and asthma.

Surely it's worth a trial on that basis and why people continue to choke and wheeze and spit and hawk and snuffle when a certain cure is at hand is beyond the comprehension of human intelligence.

When you breathe Hyomeo deep into your lungs you breathe exactly the same pleasant antiseptic balmy air that you would breathe in the forests of pine and eucalyptus of inland Australia.

"Doctoring and remedies never helped my hay fever, till I used Hyomeo. It gave me great relief, and has my endorsement."—Louis A. Grobe, Flint, Mich.

Complete Hyomeo outfit is only \$1.00 and extra bottles 50 cents. A Hyomeo outfit consists of a bottle of Hyomeo, a hard rubber inhaler, medicine dropper and full instructions for use. Just breathe it in and get immediate relief.

MI-ONA

Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach disease or money back. Large box of tablets 50 cents. Druggists in all towns.

NICE PERFUMES
