CHEAP LIVING AT ANTIOCH.

Syrians Do Not Worry—Eggs Cost 4 Cents a Dozen. The inflated price of his majesty the

turkey has no terror for the inhabitants of Antioch in Syria. To be sure, they have no Thanksgiving feast to worry about, but on the other hand life can be one long fowl feast for them the year round if they so desire. You can buy pullets and chickens for 5 cents apiece. Eggs are 4 cents a dozen, while mutton and lamb sell for 3 cents a pound.

These facts about the cost of living were learned from a young Englishman who had been ordered by his physician to spend the winter away from the cold and fog of his native London. He decided to try Antioch. This Englishman lived in the lap of luxury in Antioch for \$5 a week. He rented a fine house for something less than \$5 a month and he kept three servants who were satisfied to work for 50 cents a week.

Throughout the winter months fresh fruit and vegetables are so cheap that they are not sold in fixed quantities. You merely pay a quarter a week and this gets you all the fruit and vegetables for your household needs.

This Englishman's nearest neighbors were an American family who had been living in Antioch for several years. They had all the comforts of life and their expenses were less than \$200 a year.—New York Sun.

IN THE REALM OF FASHION.

(By Maude Hall.)

New York, Jan. 8.—Dame Fashion is busying herself at present with new colors, for some of the latest materials are so exquisite that it is necessary to glorify them with high-sounding names to give them the aristocratic

tone of which their creators intend they should boast.

The yellows are going to be very popular again, and the more vivid tones are to replace the delicate effects. D'or is one of the newest tones. Argent is not new, but among the metal gauzes it appears in combination with a delicate blue line and is called silver twilight. Several of the novelties have atmospheric names; then fashion runs to the other extreme and borrows terms from the metal and animal kingdoms for the cloths, closely woven silks, etc.

While she is awaiting the declaration of spring styles, the woman who cannot afford to indulge in passing fashions would do well to pay attention to the details.

Following are some fashionable ideas worth remembering:

The butterfly is still dominant. Scotch plaids are fashionable for children.

Hats for little girls are of bonnet shape.

Leopard is the favorite fur for the motor wrap.

There is a revival of ostrich feather trimming.

Flowers for the hair and corsage are made of ribbon.

New handbags are made of silk embroidered with beads.

The high school girl is wearing the tam o' shanter hat.

The chrysanthemum is the favored flower for corsage wear.

Modified Norfolk suits are being worn by the older school girls.

Ribbons brocaded with velvet tristles are among the novelties.

All the winter wraps show the upward movement in the draping.

Metal woven tissues continue to attract attention for evening wear.

Underwear is daintier than ever. Never was there so much silk worn.

A few new sweaters of shetlon or angora have collars and cuffs of furs.

New colors are russet brown, bronze gray, foster green and mahogany.

Over blouses of chiffon vests of ecru lace bordered with narrow bands of fur, are worn.

Children's coats are fur trimmed, with collars made to turn up and keep small ears warm.

The most elegantly dressed women prefer sealskin, baby lamb, or mole-skin for coats.

It's difficult for the average man to live up to the opinion he has of himself.

Not even an expert aurist has ever discovered a woman who was deaf to flattery.
