HARDY NEWTON

SAYS MR. BRYAN IN HIS OPENING INSTALLMENT

The Opportunity Will Come Through the Present War and With the Return of Peace Will Come a Demand for International Conference to Change Rules of International Law. These Rules, Mr. Bryan Says, Seem to Have Been Only for Nations at War—Ocean Highways, Property of All, Being Used for War Purposes—Effect War Is Having on the Country—U. S. Cannot be Indifferent Because of Her Mixed Population—There Were no Special Developments in the War Today—Aeroplane and Zeppelin Raids Do Some Damage—Two French Aviators Killed. Washington Investigating Promised Sensation.

[By Associated Press.]
Washington, June 15.—W. J. Bryan in the first section of his statement on "The Causeless War," today prophesied that the greatest peace making opportunity of all history was certain to come to the United States. Also that with the return of peace there would be a demand for an international law which "seems to have been made for nations at war, rather than nations at peace."

"Under the stress of the titanic struggle," the statement said, "each side has felt justified in encroaching upon the rights of neutrals. The ocean highways, the common property of all, have been to some extent used for war purposes."

After describing the horrors and afflictions of war, Mr. Bryan said no neutral nation was able to look on with indifference, particularly the United States, whose population was composed of people of every nation in Europe.

Mr. Bryan also said the war was deranging business and intruding into the politics of the United States, and also stimulating agitation for larger army and navy appropriations.

GENERAL STATEMENT.

[By Associated Press.]
London, June 15.—The French embassy announces that British forces yesterday took another line of German trenches west of Labasse.

Neither side announced any special progress on the French front.

The Italian invasion of the province of Trent seems to be going steadily forward, Italians claiming they are gradually capturing the dominating positions.

On the Isonzo river front the Austrians have prepared an elaborate system of fortifications, including at some places lines of trenches made of concrete.

The Italian statement charges the Austrians are using explosive ammunition, causing fearful suffering to those wounded.

Aeroplane Raid Results.

[By Associated Press.]
Karlshue, Germany, June 15.—Nineteen were killed, fourteen seriously injured, and many slightly hurt as a result of a French aeroplane raid here yesterday, when 23 machines dropped 130 bombs. They also caused a number of fires.

Zeppelins Again Raid.

[By Associated Press.]
London, June 15.—A Zeppelin dropped bombs along the northeast coast of England last night according to the official statement, which says it is reported that fifteen were killed, fifteen wounded and several fires started, but soon extinguished.

Vilified White Flag.

[By Associated Press.]
Petrograd, June 15.—The official statement accuses the Germans in fighting along Dniester of raising a white flag then opening fire. Consequently the Russian soldiers bayoneted them all, says the statement.

The Russians admit they yielded some ground in the region of the river San, but claim they captured twelve hundred prisoners on Stry river and fifteen hundred near Nifloff, between the Dniester and Pruth rivers, the Russians have withdrawn beyond the Russian frontier.

French Aviators Killed.

[By Associated Press.]
Geneva, Switzerland, June 15.—Two French aviators were reported killed and two captured in the raid on Karlsruhe, which it is said caused a panic. The palace of arms factory, depot and tracks were damaged.

May Be Sensation.

[By Associated Press.]
Washington, June 15.—The State Department is preparing to investigate published charges that Anton Meyer Gerhard, the German ambassador's personal messenger to Berlin, really was Alfred Meyer, a German army officer, who had been here trying to buy munitions.

TAX RATE IN STATE MAKES HIGH RECORD

Property Owners Will Pay Total of 54c On \$100 Valuation Present Year.

Austin, Tex., June 15.—Property owners in Texas will pay the largest tax rate for 1915-16 that has ever been fixed in this state. An ad valorem tax of 25c is predicted, which with a school tax of 20c and a constitutional tax of 9c, levied for the purpose of pensioning the Confederate veterans, will bring the total tax rate assessed for all purposes up to 54c.

From 1871 to 1889 there was levied for all purposes, on a basis of taxable valuations that was about one-tenth of what it is today, a tax of 50c per hundred dollars valuation. Then, with the provision for a special tax for school purposes, the ad valorem rate dropped steadily with few exceptions until it even reached 4c in 1910.

Three years later it touched what was then believed a high water mark, when 23c for ad valorem purposes was assessed. Statesmen in revising and revamping the constitution of the State of Texas placed a constitutional limit at 35c. For 1915-16 the ad valorem assessment falls but 6c below this mark.
