

NET SNOW IN COLORADO.

of One Inch Was Registered at Leadville, Ariz., Sept. 12.—Colorado's snow of the season fell at Leadville, Monday, according to reports to local weather bureau. The snow on Sunday night and amounts to only one inch. A light frost, prevalent over Colorado, Arizona and Utah, is forecast by the local observer.

PROB. WON IN ARANSAS.

ated Dry by Majority of 56 Votes Monday.

Corpus Christi, Tex., Sept. 12.—Aransas county, Tex., Monday moved to the prohibition column, the drys winning in a local option election by majority of 56 votes. The county four years ago voted prohibition, but for the past two years it has been wet.

LIGHTING THE FARM.

One advantage city dwellers have had for 25 years over those that live in villages and on farms has been in the matter of lighting the home. Brilliant electric and gas lights have been a striking contrast as against the pale light of the ordinary oil lamp.

But the farm home and premises can be as brilliantly lighted, nowadays, as any city home. Acetylene gas lights, gasoline vapor lights, and small electric light plants, are efficiently satisfactory and can be made to give the same lighting and other service in the country that electric and gas plants render in the city.

The experimental stage with such outfits is passed. Their value has been proved and is generally recognized. The number of rural and village homes, churches, school houses and stores that are being equipped with these small lighting plants is increasing marvelously.

As to what sort of a system is called for in any given instance local conditions must govern. In some the gasoline vapor system would be best, in others acetylene gas should be used, while in still others nothing better than electric light plant.

The expenses of any of the systems is not at all prohibitive. Any farm family that owns a fairly well equipped farm can afford a better system of lights than the old time oil lamp. And it will last a life time. It is inexpensive as to upkeep and operation, and will be a perpetual source of satisfied living to the entire family.

During a presidential campaign it is difficult to conduct any discussion affecting public interests in such a way as to prevent suspicion that politics is entering into it.—Washington Star.

A man is indeed lucky who can fall from grace and strike a soft thing.—Detroit Journal.

FOOTBALL GAMES AT COTTON PALACE

Leading Universities and Colleges of State Are to Contest.

A. & M. VS. BAYLOR NOV. 11

Will Be One of Biggest Gridiron Battles of Year—Waco HI vs. Austin HI for Texas Championship November 10.

Waco, Texas.—The big football games to be played at the Cotton Palace this fall are attracting the attention of the lovers of the great game all over the southwest. A series of games have been scheduled that will greatly surpass any games that have ever been played in Waco.

This feature of the big exposition will alone attract many thousands of visitors from every section of the state. Arrangements are already under way for the chartering of special trains to accommodate the great crowd that will want to witness the gladiatorial struggle between the gridiron favorites.

Under the personal supervision of Director Clint Padgett who is in charge of the athletic events at the Cotton Palace, the athletic field has been worked over in such a manner as to make it beyond doubt the best field in every particular that can be found in the state. Old time football coaches and players who have recently visited the field declare that it is now the fastest field in the South, and that the games this fall will be the best that will be staged anywhere in the state.

The first game will be played on the afternoon of the opening day of the exposition, Saturday, Nov. 4. It will be between Baylor University and Southwestern University of Georgetown. It is a well known fact that when the Baptists and the Methodists get together a scrap results that is remembered for many years.

The next battle will take place on Monday, November 6, between the Meridian college team of Meridian, and the Alexander Collegiate Institute of Jacksonville, Tex. These two teams crossed swords at the Cotton Palace last fall. It was a terrific fight. The Alexander boys won however, and they are quite confident that they will be able to again turn the trick this fall. On the other hand, the Meridian boys are out for sweet revenge, and are coming to the big exposition accompanied by their friends, determined to show the world that they have a much better team than the Jacksonville crowd.

The faculties and pupils of every high school in the state are deeply interested in Nov. 10 at the Cotton Palace. On that day the Waco HI and the Austin HI will battle for the championship of Texas. These two teams were conceded to be the best in the state last year, and they are both confident that they will be able to put up a better game this year than ever before. Much local interest is being manifested in the approaching game.

One of the biggest games to be played anywhere in the entire south will take place on Nov. 11. The crack A. and M. team will come to the Cotton Palace on that day and do their level best to smash the Baptist boys. The Baylor bunch realize that this will be the greatest game they have ever been in during the history of football at Baylor. Nothing will be left undone to send the Aggies back to College Station beautifully trimmed. The Aggies say they expect very little trouble in sinking the hopes of the team representing the University over which Dr. Brooks presides.

The Cotton Palace management is deeply interested in the athletic development of the exposition, and to that end have provided a grass field that will be a big surprise to all visitors.

BETTER BABIES SHOW AT TEXAS COTTON PALACE

Yearly Conference at Waco Teaches Public How to Make Babies Prettier and Healthier.

Waco, Texas.—The Better Babies conferences at the Cotton Palace have done more to popularize the raising of more and better babies in Texas than any other agency. This broad assertion is admitted by everybody. As a result of the excellent work of the Cotton Palace, there are hundreds of homes that are now the proud possessors of beautiful, fuzzy headed youngsters, that heretofore had nothing roaming about the premises but barking bull dogs, bleary-eyed cats and screeching parrots. Instead of being the paramount feature of the home, these four-legged pets have now become the play things of the smiling and happy kids. But the good work has just started. The results of the Better Babies conference at the Cotton Palace this fall are expected to greatly surpass all previous efforts.

Mrs. Charles Ivy, is the chairman of the Better Babies conference. She has already named capable sub-committees and assistants who have gotten the work of that department well under way. They have adopted the admirable slogan of "More and Healthier Babies for Texas."

The conference this year will be conducted under the auspices of the University of Texas. The university has taken up the intelligent study of the baby problem, and the results of scientific investigations by the experts in the employ of that institution will be presented to the mothers of the children enrolled at the Cotton Palace conference.

The number of babies that will be admitted to the conference this year will be limited to 500. Past experience has shown that it is a physical impossibility for the corps of physicians to carefully examine a larger number with satisfaction. It will therefore be necessary for the mothers to make arrangements for the enrollment of their little ones at as early a date as possible.

NO SILK STOCKINGS STAYED FROM SCHOOL

Uniform Dress May Be Adopted in Kansas City as a Result of Recent Disclosures.

(By Associated Press) Kansas City, Mo., Sept. 12.—All high school girls in Kansas City may be forced to wear some uniform style of dress and a radical dress reform may come within the city schools.

Resolutions asking that such be done were adopted Monday by the civics committee of the Council of Clubs and action on them will be asked at the next meeting of the local board of education. The action was taken following disclosures that two girls refused to attend school because they had no silk stockings.

SOME HINTS FOR THE HOUSEHOLD.

Yolks accidentally broken in white of eggs will adhere to hot cloths. A delicious grape punch is made with lemon and orange juice, grape juice and shredded fresh pineapple. One may combine these ingredients in any proportion one prefers, but the entire mixture should stand some hours to ripen.

It is very difficult to whip the white of an egg if the yolk breaks when separating them and a particle of the latter gets into the whites. When this happens, take a clean cloth dipped in hot water, insert a corner of it into the white of the egg; the particles of yolk will adhere to the cloth.

EGGS GET 25 CENTS A DOZEN THE YEAR ROUND.

In March, 1915, about fifteen women organized the Clarke County Farmers' Union Egg Association. After electing officers, we decided to keep our eggs for one week to see how many we all were getting per week. We did this and met the next Saturday and shipped to a commission merchant.

Our secretary was fortunate in finding a cafe that would use a case (30 dozen) every other day for the year round at 25 cents. That was what we were trying to do—sell to the consumer as nearly as possible. We signed the contract with the cafe, also one among ourselves, agreeing not to sell an egg over seven days old in winter and none over four days old in summer, and no fertile eggs after May 1; not to offer for sale an egg that had stayed in the nest over night.

Each egg is stamped with "Clarke County Farmers' Union Egg Association," and each has a number on it. Each member has a number, and if a bad egg is reported to the secretary the member whose number is on the egg is fined \$1.

One member on each road packs the eggs, one person takes all the eggs to the packer one time, and another the next time, so that it does not take much of any one's time. The one that carries the eggs to the packer takes them on to the express office. We still have the first contract made and are selling six cases per week now.—Mrs. L. B. McCarty, in the Progressive Farmer.

VETERAN KILLED BY FALL.

Austin, Texas, Sept. 12.—J. F. Hutchens, 80 years old, Confederate veteran, is dead as a result of injuries suffered when he fell from a window in the hospital ward on the third floor of the State Confederate Home Sunday. The old soldier was in a very feeble condition, and it is surmised he went to the window and, leaning out, fell to his death. He was a member of the Forty-sixth Georgia infantry during the war between the states, and came to the home from San Antonio August 15. The body was taken today to San Antonio for interment.

WISE AND OTHERWISE.

The Tender-Hearted Cook—"No bad news, I 'ope, ma'am?" The Mistress—"The master's been wounded." The Cook—"There, now, ma'am, don't let that worry you. They tells me they can patch 'em up so's they're better than before."—Pittsburgh Dispatch.

The Grecian sculptors cut the marble like snow.—Emerson.

"Pa, what's the difference between a patriot and a jingo?" "A patriot, my son, is one whose bosom swells with pride of his country, while in a jingo the swelling appears in the head."—Boston Transcript.

"What is Gertrude Gader's latest fad?" "Prison reform." "Along what lines?" "She thinks that every convict ought to have a canary in his cell."—Birmingham Age-Herald.

BULLETIN ISSUED ABATING DISEASE

State Board of Health Issues Bulletin Which is Growing Popular Among Public Schools.

(By Associated Press) Austin, Texas, Sept. 12.—Since the state board of health issued a chart and bulletin with ten lessons as to prevention of diseases there have been many requests coming from all sections of the state for the chart and lessons to be used in school work.

The arrangement by Dr. W. A. Davis, secretary of the board, includes a series of ten lessons, all explained by charts and figures, and likewise an article covering each phase of the work.

The lessons are "Home Sanitation," "Stimulants," "Personal Hygiene," "Accidents," "Our Universal Guests," "Preventable Diseases" (lesson two), "Vital Statistics," "School Sanitation," and "Social Hygiene."

The state board of health is endeavoring to fulfill all requests for the chart, as they believe the movement for education of the young along these lines is inevitable.

GOOD HEALTH DEPENDS ON GOOD TEETH.

Care of the Teeth Should Begin in Childhood and Be Kept Up.

Since the health depends so largely upon the condition of the teeth, the rule of constant care should be rigidly enforced, and the time to begin this enforcement is when children are young, so the habit will become instinctive.

Dentists say that it takes time to clean the teeth properly; that is the vertical movement should be used instead of the horizontal one; that after the powder or paste application there should be a final brushing with pure water, so that every lot of foreign substance may be removed.

Nearly all powders contain borax, an element which is very cleansing, but bad for the enamel. Charcoal, too, though very cleansing and possessing antiseptic qualities, is bad for the enamel, for it cannot be pulverized fine enough to rid it of the needlelike particles of the fibers.

Salt is good, though if used too strong by people with sensitive gums is liable to smart painfully. One dentist recommends common baking soda as the best dentifrice known to science.

It is, of course, pure alkaline, and is thus a neutralizer of the acid condition of the mouth; if rubbed on the teeth just at the gum margin it cures that sensitiveness which is often so distressing, even when there is no actual decay.

In case of pyorrhea, it may be used as an antiseptic mouth wash in connection with the regular prescriptions given by one's dentist.

Another good dentifrice is from the old English receipt of orris root, English prepared chalk and pulverized eucalyptus leaves.

It is never too early to begin to take children to the dentist for inspection and cleaning the teeth. Small boys often get the idea that mother is "fussy" and that the cleaning and attention she tries to persuade them to give their teeth is "girly and wissy." But when a dentist talks to them as outlining the troubles that neglect will cause, and giving good reasons for the necessity of constant care the boys are impressed.

Another predilection of the small boy is to use his teeth for a nut cracker and to enter into competition to see whether he can crack the toughest nuts. Little girls bite off threads and tear bits of cloth instead of using the scissors. They must be taught that the price of the teeth which will last through life is constant and respectful attention, and no "store tooth" will ever give the service that their own will.

"You ought to forgive your enemies." "I may eventually," replied Senator Sorghum. "But I should like to give them a lesson beforehand, so that they will know my forgiveness is generous and strictly voluntary."—Washington Star.

CARE OF CHILDREN'S CLOTHING.

One Mother Secured Their Co-Operation in an Ingenious Way. Every mother knows how hard it is to coax, bribe or even punish children into hanging up their coats when they come into the house. Small garments are cast aside whenever they are taken off—for some patient grown-up person to hang up in the closet.

One mother has achieved success by purchasing several of the decorated coat hangers—attractive wooden ladders with outspread arms to receive the coat. Each hanger is named and the children carry their coats to "Bally or Peggy" for safe keeping, with much glee.

EUROPEAN DECLARATIONS OF WAR.

July 28, 1914—Austria declared war on Serbia. August 1—Germany declared war on Russia. August 3—Germany declared war on France. August 4—Germany declared war on Belgium. August 4—England declared war on Germany. August 6—Austria declared war on Russia. August 8—Montenegro declared war on Austria. August 10—France declared war on Austria. August 12—Montenegro declared war on Germany. August 12—England declared war on Austria. August 23—Japan declared war on Germany. August 25—Austria declared war on Japan. November 5—England declared war on Turkey. May 23, 1915—Italy declared war on Austria. June 3—San Marino declared war on Austria. August 21—Italy declared war on Turkey. October 15—Serbia declared war on Bulgaria. October 15—England, France, Italy, Russia declared war on Bulgaria. March 9, 1916—Germany declared war on Portugal. August 27—Italy declared war on Germany. August 27—Roumania declared war on Austria.

What to do when Backache comes on

"I found immediate relief in the use of Foley's Kidney Pills, have recommended them, and do not know of a single instance when they failed to give relief."

C. U. Landrum, a traveling salesman, writes from San Angelo, Texas: "Driving over rough roads and in all kinds of weather gave me acute pains in the back and I suffered greatly. I found relief in the use of Foley's Kidney Pills, and before the first bottle was used, the pain in my back had entirely disappeared and I have had no recurrence of those pains which frequently amounted to almost neurologic proportions."

When backache comes on, and it seems as if you can't stand the pain and pressure in your back, you will find quick and grateful relief comes with the use of Foley's Kidney Pills. They stop the cause of the pain, ease the stiff aching joints and muscles, and clear the poisons out of your system by helping your kidneys and bladder to normal healthy action.

M. H. JAMES

Attention School Children!

School will open September 18th and you will find me better prepared to serve you than ever before—Have installed a HAMBERGER STAND with a competent chef in charge. No use to worry about your lunch, I can serve you on short notice, and at a small cost. Will also carry Pies, Bottled Milk, Ice Cream Cones, Cold Soda and all SCHOOL SUPPLIES including Tablets, Pencils, Etc.

Everything Strictly CASH.

CLAUD R. LAWSON

THANKS

To extend our thanks to those operated with us in establishing our market. We appreciate there are many people in appreciate the kind of service we give. Yet there are some who order early, thereby making the order uncertain, as to time. We desire to give the very best service to those who have not "Early" movement, we desire your co-operation and insist your meals for the day early in order for your meats... if us possible. Only give our service to those themselves of it. The choicest meats of all kinds, place your order by 8 o'clock

361 E. CLOUD SERVICE MARKET.
