

PREVAILING DRUG PRICES AND THE CAUSE:

High prices are no longer confined to the luxuries of life, but they extend to the necessities as well.

Even the prices of food, clothing and drugs are not exempt from the new standard.

The effect of the European War on Drug Prices is familiar to all our customers.

The principal advances, however, have been on chemicals and rare drugs which are not produced in America.

For this reason we are forced to charge more for certain prescriptions, but in every case where this happens we are glad to give our customers a reason for the advance.

Our prices on staple lines of drugs and on most toilet goods are still reasonable and in many cases no advance whatever has been made. Our motto is—

"Quality Goods and Superior Service at Right Prices"
