BEAUTY'S CHARM.

IT IS the little things that make an impression, the look you step on, the FRECKLED nose, or a blotch or pimple on the cheek. Not everyone can be beautiful, but the plainest face is made attractive by a clear, pure skin.

A Talented House Agent.
Mrs. Homemaker—You certainly don't expect anybody to take this house? Why, the floors all run down hill.

Agent (a smart man)—It was built in that way on purpose, mum, to keep peace in the family. Greatest invention of the age, mum.

Mrs. Homemaker—Keep peace in the family? What do you mean?

Agent—It's all right, mum; nothing like it. Whenever your husband drops his collar button, they'll roll down to that wall, and he'll always know where to find 'em.—London Tit-Bits.

THE REMAINS OF GREAT COLUMBUS.

The Spanish Will Not Leave Them In Cuba When They Evacuate

THEY WILL BE TAKEN TO SPAIN.

General Blanco Superintends the Exhumation of the Remains in the Cathedral.

HAVE BEEN UNDISTURBED MORE THAN A CENTURY.

They Were Brought to Havana In 1795 When Spain Ceded to France the Island of Santo Domingo.

Havana, Sept. 27.—The official exhumation of the remains of Columbus took place here yesterday in the presence of General Blanco, Secretary Govin, the civil governor, the bishop, the dean of the cathedral and other authorities.

The remains of Christopher Columbus, which were removed from their niche in the cathedral preparatory to their shipment to Spain, had lain in their last resting place since Jan. 19, 1796, when they were brought from Santo Domingo, that island having been ceded to France by Spain.

Since the date mentioned the remains had lain in an open niche in the wall of the presbytery of the cathedral, a yard and a half above the ground between a pillar supporting the main arch and the choir.

In 1892 there was placed in front of the niche a slab, of doubtful artistic taste, representing in relief a bust of the great admiral and bearing this inscription in Spanish:

"May the remains and image of the great Columbus lie a thousand centuries

FOUR OF COLUMBUS IN THE CATHEDRAL AT HAVANA.

preserved in this urn and in the remembrance of our nation."

The ashes were deposited in a zinc case which was placed in the sacristy of the cathedral and a permanent guard was established to watch them. Public religious services will be held.

Admiral Sampson has leased a chalet about a mile distant from the Trocha hotel where he and his household will reside during their stay here.

General Blanco has authorized the free entry of the Comal and other vessels bringing supplies for the relief of the sufferers in Cuba. Matanzas, it is reported will be the first port where relief supplies will be landed, owing to Captain Page's report of the distress existing there.

The captain general has decided to remit the fine of \$500 imposed upon the Clinton because she did not have a manifest and has ordered the money to be refunded. The payment was made under protest and by direction of President McKinley.

The Junta Patriota of Matanzas held a meeting at which it was decided to address a letter to President McKinley setting forth that "an immense majority of the people of this island adhere strictly to the government constituted by the revolution as being the only ideal of the Cuban people."

Committees have been appointed for the purpose of securing signatures to this document in every city and village of Cuba, which will make it a very lengthy affair.

ALASKAN GOLD FIELDS.

Fifty-Nine Return on the Fulton With Some Gold—Reports From Those Are Not Very Encouraging.

Port Townsend, Wash., Sept. 27.—The steamship Fulton has arrived 14 days out from St. Michaels, having encountered severe gales during the voyage. She brought 59 miners from nearly every mining district in Alaska, and among the crowd according to the statement of the purser, there is between \$50,000 and \$100,000 in gold dust.

Among the passengers were John Emerson of Minnesota, and Charles Daniels of Honolulu, who left Ketchikan sound Aug. 20. They have prospected nearly every stream emptying into the sound, but found nothing beyond small colors. They heard nothing of the reported strike on the Kowak river. About 1500 men were on the beach awaiting an opportunity to return south. All the business houses which had opened there to catch the trade of the miners had their goods packed ready for shipment to some other point.

Seventeen prospectors are known to have been drowned during the season at Hottom inlet. Many others are missing. They are supposed to have lost their lives in attempting to ascend the small rivers.

Favorable reports from the Minook district are brought out. Captain Robert J. Dunham, of the river steamer Ridout says that a number of new strikes along the creeks in that district are reported and the prospects are most favorable. He also reports the discovery of two veins of coal on the Yukon river about 900 miles from its mouth. The coal is being mined and sold to the steamers at \$25 per ton. It will render navigation on the river much cheaper, as wood is scarce and expensive. During the trip up the river the steamer paid \$4700 for wood. The coal is easily mined, one man being able to take out from five to seven tons a day.

State Senator J. W. Range of Seattle, who is among the returning Dawsonites, said just before leaving Dawson, that Colonel Davis, president of the relief commission of the combined secret orders, told him that the average death rate was five per day during the past two months. The highest in one day was 18.

On her way down the Fulton found the schooner Louise J. Keaney which was successfully floated and taken to Dutch harbor where she is undergoing repairs. She will soon be in seagoing condition.

Sixty-Five More Return.

Vancouver, Sept. 27.—Sixty-five Klondikers have arrived here on the steamer Horsa. A majority were broke. Two men, one named William Sundstrom, from Chicago, came out, having been traveling all the time since a year ago last August on the Edgemont route. They were lost in the rocky mountains for a week. Several thousand men are on the trail, but only a few could reach Dawson, they say.

Several accidents have recently occurred on the Skagway railway. Two men, it is said, were buried under a slide, and their bodies have not yet been recovered.

Only One Reached Dawson.

Seattle, Sept. 27.—Out of a party of 28 men who left San Francisco early in the year to go to Dawson via the Sitka trail Herman Lang of this city is the only one who pushed through. Two out of the number were drowned, two are insane, others are far in the interior regarding their health at trading points.

PRESIDENT WAITING TO CONSULT MR. HAY.

It is Said Mr. Hay's Chances Will Be the New Ambassador to the Court of St. James.

New York, Sept. 27.—A dispatch to The Herald from Washington says:

President McKinley is considering the recommendation of prominent public men of Massachusetts that Governor Wolcott be appointed ambassador to Great Britain. Notwithstanding the strong endorsements which the Massachusetts governor has, it is not believed in well informed circles that he will be tendered the position.

In any event the president does not propose to make a selection until the arrival here of Colonel Hay, when the matter will be discussed and settled. In view of the president's desire to consult with Colonel Hay, it is believed in some quarters that Mr. McKinley will be willing to accept a suitable man who may be recommended by the new secretary. The name of Henry Adams, a warm friend of Colonel Hay, is mentioned in this connection.

Mr. Adams is well known as a historian and writer. While he has had no diplomatic experience it is recalled that his father, Charles Francis Adams, was minister to Great Britain during the rebellion; his grandfather, John Quincy Adams, held the same position before the war of 1812 and his great grandfather, John Adams, was accredited to the British government as minister immediately after the revolution. Mr. Adams is a highly educated gentleman, a ready speaker and would, his friends believe, creditably represent this government at the court of St. James.

Representative Hitt's name is only mentioned in circles outside of the White House and it is generally conceded that he stands no chance for the appointment.
