FIGHT UPON THE OCEAN.

Sampson's Fleet Will Hunt the Spanish Fleet Before It Can Land.

Washington, May 5.—From the best information that can be obtained Spain's fleet is not to be allowed to reach Porto Rico or to approach the coast of the United States.

Rear Admiral Sampson has perfected plans for meeting the enemy on the sea and giving battle at a time and place of his own choosing.

It is definitely known here is that the most powerful ships in the United States Navy are under the command of Admiral Sampson. The Iowa, the Oregon, the Alabama, the Florida, the Texas, the Massachusetts, the Wisconsin, the Michigan, the Minnesota, the Illinois, the Indiana, the Ohio, the Pennsylvania, the New York, the New Jersey, the New Hampshire, the Maine, the Vermont, the New Mexico, the Colorado, the Utah, the Arizona, the California, the Nevada, the Idaho, the Montana, the Wyoming, the North Dakota, the South Dakota, the Nebraska, the Kansas, the Oklahoma, the Texas, the Missouri, the Arkansas, the Louisiana, the Mississippi, the Alabama, the Georgia, the Florida, the South Carolina, the North Carolina, the Virginia, the West Virginia, the Maryland, the Delaware, the Pennsylvania, the New Jersey, the New York, the Connecticut, the Rhode Island, the Massachusetts, the Vermont, the New Hampshire, the Maine, the New Brunswick, the Nova Scotia, the Prince Edward Island, the New Brunswick, the Nova Scotia, the Prince Edward Island.

Washington, May 7.—"If Spain desires to send a fleet to the Philippines to attack Commodore Dewey's forces she is perfectly free to do so, but she is not to be allowed to do so without the consent of the United States government," was the statement made by the state department.

There is a great deal of popular opinion in this country that the United States is open to belligerent war with Spain, and that the neutrality laws applied to her are a disgrace.

More Riots in Spain.

At Madrid Much Excitement Prevails and the Situation is Serious.

MORE RIOTS IN SPAIN.

At Madrid Much Excitement Prevails and the Situation is Serious.

Madrid, May 7.—Much excitement prevailed here at noon today. Serious riots are anticipated. Martial law has been proclaimed at Ciudad.

A decree has been gazetted allowing free entry to cereals, etc., into Spain.

Campos the Last Chance.

Hendaye, France, near the Spanish Frontier, May 7.—Madrid advices say military dictatorship headed by Marshal Campos is probably the last chance to save the dynasty.

SUEZ CANAL IS OPEN.

The United States or Spain Can Pass Through, but Cannot Fight Within.

Washington, May 7.—"If Spain desires to send a fleet to the Philippines to attack Commodore Dewey's forces she is perfectly free to do so, but she is not to be allowed to do so without the consent of the United States government," was the statement made by the state department.

There is a great deal of popular opinion in this country that the United States is open to belligerent war with Spain, and that the neutrality laws applied to her are a disgrace.

caught without coal in that sea.

"None of the members of the war board believes for an instant that Spain will attempt to retake the Philippines, notwithstanding the Suez canal is open to her fleets. It was pointed out by an expert with whom I talked that the withdrawal of a sufficient force from the Atlantic to attempt the recapture of the Philippines would place not only Cuba and Porto Rico but the Canaries and Spain at the mercy of the American warships on this coast."

Father Sherman Goes to War.

St. Louis, May 7.—The son of the late General William T. Sherman, the Rev. Father Thomas Sherman, has been appointed chaplain of the Fourth regiment, Missouri National guard. Father Sherman declined to express an opinion of the consequences of the war. He was asked by Colonel Corley of the Fourth regiment to accept the position as chaplain and he readily consented. He is familiar with camp life, having spent considerable time with his father during the late war.

It is a Campaign Against Porto Rico and Not the Spanish Fleet.

Washington, May 10.—It is now generally admitted that Admiral Sampson's fleet is near Cape Haytien on the north coast of San Domingo and is about to be sent to Porto Rico. It is not believed that there has been any engagement between Admiral Sampson's force and the Spanish ironclad flying squadron, as reports would have been received already at the department. It is surmised at the navy department that if Sampson does not strike the Spanish flying squadron he may strike a blow at Porto Rico itself.

It is a curious fact that thus far the navy department does not know positively where the Spanish fleet is, and it is just possible that the vessels may be away on the other side of the Atlantic or at Cadiz, instead of being in Sampson's neighborhood in the West Indies. That such a thing can happen is plainly shown by the report from St. Thomas that the Spanish cruiser Alphonse XIII arrived at Porto Rico Sunday or the day before. This is a formidable protection cruiser of modern type, and it has been supposed all along that she was at Cadiz, Spain, forming part of the home squadron. The fact that she has arrived at Porto Rico without the knowledge of her departure shows that the Spanish authorities are able to guard the secrecy of their naval movements much better than our own people are able to do.

More Field Guns Arrive.
