TAFT ON CONSERVATION

PRESIDENT TAFT OUTLINES HIS
VIEWS ON PROBLEMS.

Gives Secretary of Interior Credit for
Suggested Legislation and Does
Not Want to Wait.

Washington, Jan. 14.—President Taft gave his views on the conservation of the nation's resources in a special message to Congress today, as promised in his message at the opening of the session. He fully approved the Roosevelt policies on the subject and gives his predecessor credit for inaugurating the movement. He urges Congress not to wait until after the Ranssler-Pinchot investigation is concluded before taking up the recommendations made, which are for immediate appropriations to complete projects already begun. He urges the issuance of bonds aggregating thirty million dollars for the work, to be sold as necessary to continue the work. He gives Secretary Ranssler credit for the measures which he asks Congress to enact into law.

There was a round of applause from the Republicans when the reading of the message was concluded, which was joined in by some of the Democrats.

The regular meeting of the C. H. S. Debating Society three names were presented for membership and favorably acted upon.
The question, "Resolved: That a city is the best location for a college," was debated by Fred Peak and Raymond Harrington for the affirmative and Fred Ballard and Herbert Childress for the negative. After a short but animated discussion the negative was awarded the decision. The question of securing a debate with the High School of some neighboring town was favorably discussed and the secretary instructed to enter into correspondence relative to this matter.

THE BOOSTER CLUB.

Held a Well Attended Business Meeting Last Night.

The Booster Club held the regular weekly meeting last night which was strictly business and the most business like yet held. The most important business was the appointment of committees to solicit members, one to make assessment against the business men for the support of the club, and the hearing of the reports of committees and discussion of them. The committee on street railway reported \$14,000 subscribed by this project. They will hold another meeting Wednesday afternoon at 2 o'clock. A resolution to change the name of the club from Boosters Club to Chamber of Commerce was read and carried over until next meeting. There were a number of good talks by local men and Judge George Hardin of Farmersville made a fine address.

A communication from Judge V. W. Grubbs asking the endorsement of his work for industrial education was read and the endorsement enthusiastically given.

BIG SLUMP ON AGAIN

COTTON LOSES \$250 PER BALE
YESTERDAY.

Big Drops on Staple at New York
and New Orleans—March and
May Options Affected.

New Orleans, Jan. 14.—Another slump in the cotton futures markets of New York and New Orleans again carried prices down \$2.50 a bale. In New Orleans, March cotton option dropped 50 points, going to 14.31, and May option went from 15.10 to 14.60.

SLIGHT RISE CAME.

But it Was Soon Dispersed by Heavy
Dealings.

New York, Jan. 14.—Improvement, which started shortly after the opening, carried May cotton contracts up to 14.62 1/2, thirty-seven points above the lower level of the morning, and about eighteen points higher.
All the more active deliveries were carried down to levels between \$2 and \$3 below the highest prices of today, March and May options being the principal ones affected by the break. The break was attributed to unlooked for liquidation by certain long interests unaccounted for by bearish aggressiveness.

WRECKS ON THE RIVER

SCENES OF DEVASTATION ALONG
THE MISSISSIPPI.

Financial Losses Are Great at Many
Points—Scores of Small Boats Go
to the Bottom.

St. Louis, Jan. 14.—The Mississippi river front at St. Louis presented a devastated appearance today. The river, gorged with ice, rose from twenty-two feet Wednesday night to 31.9 feet early today and then the gorge broke. Inside of three hours the river fell more than five feet, and at 8 o'clock the gauge read 26.1 feet. Boats along the river were left high and dry by the rapid fall and the levees are strewn with wreckage.

The property loss will exceed \$200,000. Before the gorge broke last night the river carried a heavy toll of wreckage from shipping interests. The Jefferson Mailman, valued at \$20,000, sunk at Madison, Ill.; the excursion steamer City of Providence, and the tugboat Julia, Greeley, valued at \$20,000, also went adrift. Scores of small boats went to the bottom before the gorge passed.
