

Another... head of... through Brenham... They were raised on... and driven to Washington... ty to find the corn necessary... put them into condition to be... converted into good, fat bacon... Well, our farmers have the corn, and many of them will need the bacon. The time is not far distant, however, when our people will raise all the porkers necessary for the bacon needed for county consumption.

District Court, Judge Turner presiding, has been disposing of the civil docket with great celerity this week. The same docket will be continued next week, when cases, requiring the intervention of a jury, will be submitted to the deliberations of this necessary body in the adjudication of litigated questions involving matters of fact. Monday week the criminal docket will be taken up, when those who have been quietly hibernating in the county jail will be brought out for the inhalation of fresh air. Some of them are no doubt destined to strengthen Ward, Doney & Co.'s brigade, which is already large in numbers, if not usefulness.

Yesterday, business in the city appeared very active. The day was beautiful and fair. Farmers are supplying themselves with plantation implements.

Speaking of these reminds us that F. W. Schuenerberg has a splendid lot of plows of every description of his own make. He neglects none of the late improvements in his implements for the farm. Planters are beginning to learn that it is better to patronize home blacksmiths, whose work being warranted, they know on whom to go for recourse, if the tools do not come up to what they are represented to be, rather than to buy from parties abroad, whose warranty is not worth a leather button. Mr. Schuenerberg, we are glad to observe, is receiving what he merits, a liberal patronage from the farming community contiguous to Brenham.

### THE PISTOL.

SHOOTING OF ANDREW PARKER BY J. H. HOLT.

About 3 o'clock yesterday evening a difficulty occurred between Mr. James H. Holt and Andrew Parker, in which the latter was shot through the body; the ball ranging downward and passing through the kidney. Parker's wound is thought to be mortal.

We were unable to learn any particulars of Mr. Adolphe Testard, who witnessed the shooting, further than that the shooting was justifiable.

REV. DR. ROYALL, President of Baylor Female College, will preach at the Baptist church to-day.

NORTHER.—A mild norther was blowing yesterday morning, but by noon the sun was shining out in all its splendor, rendering the day very pleasant.

CONFIRMED.—S. A. Hackworth, late Chief Justice of the Police Court of our county, has been confirmed by the U. S. Senate, as post master at this place. The office has within a day two been removed from the front to the rear of the Schlottman building.

FRESH OYSTERS received every day, at the POIRNIX RESTAURANT, and served up in elegant style, by Mr. Kamien. We have tested them, and therefore know whereof we speak. Kamien knows how to serve up oysters—or for that matter anything else.

There is not a vacant residence to be found in the city.

HEALTH.—The health of the city is very good, but little sickness of any consequence.

THE BALL given by A. O. S. M.'s Monday night was well attended and finely enjoyed.

PERSONAL.—Our old friend, General J. B. Robertson, formerly of this county, now of St. Louis, paid us a visit yesterday. He was looking hale and hearty, and says there is any quantity of good laboring men in St. Louis and Western States who would like to come to Texas, provided they could get good land at reasonable figures.

THE POOR.—At a regular meeting of the A. O. S. M., held at the lodge room Saturday evening last, an additional appropriation of twenty-five dollars for charitable purposes was made for the benefit of the poor of our town, who are in actual want. A committee of four consisting of Messrs. C. T. Roff, Geo. Seward, John Gee and J. G. Rankin were appointed to distribute the funds.

DEATH OF ANDREW PARKER.—Andrew Parker, who was shot by J. H. Holt, in a difficulty in this city on Saturday evening last, died of his wound at sunrise Sunday morning.

His brother, Mr. Milton Parker, a very estimable gentleman of Brynn, was with him some two hours before his death; and it is said Andrew made a full statement to him of the particulars which led to the unfortunate difficulty, the nature of which we did not learn.

The friends of both parties in it is city regret very much the sad occurrence.

A Stampede.—The weather for the past three weeks has been rather cool and chilly during the forenoon, and when there is no active demand for the drays, the drivers amuse themselves by getting on the sunny side of houses and proceeding to discuss the political situation—the cause of hard times etc. So deeply absorbed in the all important subject are some of our draymen that they frequently forget to hitch their horses, but leave them standing. Yesterday morning three horses attached to drays, feeling a little chilly standing in the wind concluded to "warm up" a little, and immediately improvised a first class stampede, in which dray wheels rolled lively; horses tumbled upon their backs; two drays collided smashing things generally and injuring one horse seriously. Nobody hurt, except the horses.

These festive drivers will likely have to answer before his honor, the mayor, to-morrow morning, and be made to waltz to the tune of about ten dollars and trimmings. Good enough!

HEALTH.—The health of the city is very good, but little sickness of any consequence.
