Has a fresh stock of Groceries, Beer, Cigars and Tobacco.

PROTECTION

So numerous are the developments of malaria that people continually suffer from this noxious poison when they least imagine it is lurking in their system.

MALARIA!

Chills, Headache, In- fever, General illious Fever, Fever, Las- Nausea, are the

Painful Offsprings of Malaria.

and have their origin in a disordered Liver, which, if not regulated in time, great suffering, wretchedness and death will ensue.

SIMMONS LIVER REGULATOR

(PURELY VEGETABLE.)

is absolutely certain in its remedial effects and acts more promptly in curing all forms of Malarial diseases than calomel or quinine, without any of the injurious consequences which follow their use.

If taken occasionally by persons exposed to malaria it will expel the poison and PROTECT THEM FROM ATTACK!

As evidence see extract from W. B. Yates' letter, where the Regulator afforded protection from the worst and most deadly type of Malaria, to-wit: Yellow Fever.

"Sirs: I have stood the storm of four epidemics of the Yellow Fever. I had it the first visitation, but during the other three I used your medicine. I was continually in the rooms of the sick and dying, but I escaped. I have had several to ask me how I escaped; I told them it was all owing to the virtue of your Simmons Liver Regulator. If the fever was to break out again and I had a bottle of your regulator I would feel as safe as if I was 1,000 miles away."

"Memphis, Tenn., April 17, 1879." Having neutralized the poison of Malaria in such extreme cases, it can be relied on as a sovereign specific and antidote in milder forms.

See that you get the genuine in white wrapper, with red Z, prepared only by H. Zeilin & Co.

in London, last week

to the medical profes-

showed that more

third of all the doctors

the United States, and

this country contain

physicians than the rest

world, omitting only

and England. We ought

healthier and longer-lived

we are.

The Waco Telephone

The files of a newspaper

forgetting words of men,

prove inconvenient with

The senator from Galve-

(Mr. Stubbs) has just been

galing the Houston Post

re-publication of one of its

torials, written in the

spring, expressing a most

dial approbation of Galve-

as the proper location for

medical branch of the sta-

university.

The mayor of Philadelphia

a democrat and his appoint-

ment of negroes on the police

force is extensively commented

upon. That city has had many

republican mayors, but not

withstanding the professed love

of that party for the colored

man, it remained for a democ-

rat to give negroes a place on

the police force. Are the re-

publicans really sincere in their

professed love for the colored

man, or do they only desire his

vote?

The Buffalo Commercial Ad-

vertiser mentions what may be

safely set down as the worst

case of spelling of recent record.

It occurred in a "notis" of

"sellybrashum" to be held on

the shores of "Lake Eary," and

mentioned the occasion as a

"guble." This word troubled

the editor a great deal, but with

rare perspicacity he at length

resolved it into a "jubilee." If

this had happened in one of the

southern states it would have

been held up by some of the

northern republican papers as

the current style of southern

literature.

GOVERNOR BLACKBURN, of

Kentucky, who is a prominent

retired physician, expresses the

following opinion relative to the

condition of the president:

"I thought at the time the

president was shot that his

wound would prove mortal; I

still think so. He will undoubtedly

die. I believe the ball was

deflected and struck the spinal

column, affecting the great

nerve. Nothing else could ac-

count for the pains in his feet.

This thing you noticed in pa-

pers about their getting him to

sign his name in order to test

his nerves is all foolishness. It

is my opinion they got his name

signed for the purpose of calling

congress together in the event

of his death."
