**TWO MONTH'S BUSINESS IN ONE.**

That's just what every department in our store is going to attempt to do this month. The low price of cotton last month, and other inconveniences caused a falling off in trade, and as the prospect for Better Prices for Cotton is in sight, and inconveniences have been removed, we are working with renewed effort, for the increase in our business, which must surely follow.

To help the occasion along we have made noticeable reductions in all departments. A constant stream of new goods, and a constant exhibition of novelties invite you to our store.

**There's a Significant Something.**

About our New Fall Dres Fabrics that throngs the department with ready buyers.

It may be the styles or qualities or prices; perhaps it's a combination of the three; whatever it is, it's doing the business, and a most satisfactory business at that.

Hosts of new wares have arrived during the past few few days.

We want to introduce them to your notice so that you can get first pick.

**Colored Fabrics First.**

Hardly know where to begin; just as hard to tell where to stop. Such a grand collection of handsome gownings, and every item of them pleading for a place in print. Here are a few lots at random, they'll have to talk for a stock full.

- Boucle Dotted Novelties, at..... 75c
- Brocade Novelties in Persian Combinations, at..... 85c
- Mohair Figured Granite, at..... 85c
- Silk and Wool Novelty in Moire effects, the Moire outlined in colors woven on back ground..... \$1.10
- Silk and Wool Matelasse in combination of Gold and and Napolian Blue, at..... \$1.25
- Scotch Novelties, Silk and Wool, a very elegant article \$1.40
- Escureal Figured Novelties in six different colorings, at \$1.40
- Brocade Camels Hair, exquisite in appearance and rich designs..... \$1.50
- Mohair Figured Granites at..... \$1.50

Of course we have a big stock stock of all the cheaper grades of goods. In Cashmères, Serges, Henriettas, Crepons and Bengalines—besides Silk and Trimmings to match.

Our Shoe Stock has been augmented with New Arrivals, making it full to overflowing.

We have Many Bargains in Leather to which we desire to attract your attention.

One Lot \$4 and \$5 Shoes at \$1.95 each.

Some people wonder at the Busy, hustling look of things in our store.

No mystery about it. It's simply buying what people want, and selling it for less than they expect to pay. This is what has built this business to its present large proportions.

The best of its kind is none too good for our patrons.

**Harrison's.**

Our Clothing Room is Fuller than it has, been for a year. We must sell the goods and the price must make the things move.

If a low price is what you want be sure and see what we can do for you or the boys when it comes to Clothing, or furnishings.

We have made special efforts this season to put in a supply of Men's shoes, that are exceptionally good values, and at prices lower than the same qualities have been sold heretofore.

WHOLESALE AND RETAIL.

The goldite press of the east who were cackling so joyfully over the recent fall in the price of silver, says the Denver Republican, will now be given an opportunity to tell what they think about its still more remarkable advance. Just why any American newspaper should be pleased with the decline in the value of one of our principal products passes our comprehension. If it is a good thing—as

it unquestionably is—for wheat and corn and iron and all other products of industry to advance in price, why should it not be equally good and desirable for silver to rise in value? The United States is the largest producer of silver in the world, and every right-thinking citizen of this country should be glad to see it go up as far and as fast as possible.

ACCORDING to the Cuero Star the average jury has mighty little regard for the fellow in the grave. The man who has snatched away his existence has the call on all the sympathy there is to be given out, no matter how ruthless the assassination, how many in his household or out of it were dependent upon him for sustenance or guidance, how full of promise the future or how sweet life may have been to

the deceased. None of these considerations seem to weigh with the jury. Intelligence and courage are mighty badly needed in the jury box. THERE are now more feeble, emaciated and woe-begone looking men pulling themselves about our streets than have ever been seen before. They are pitiful looking fellows, to be sure. The dengue did it.

ACCORDING to foreign papers the success of the proposed university for women in Tokyo is now assured. The principal officials and nobles of the empire are greatly interested in the project, and the emperor and empress have not only used their influence in its favor, but have contributed a considerable sum of money toward its endowment. About 300,000 yen (\$175,000) will be needed to start the institution.
