

## Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

Kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## The Jimplecute.

TAYLOR & TAYLOR,  
EDITORS AND PROPRIETORS.

Saturday, Jan. 21, 1905.

OFFICE OF PUBLICATION—Corner Austin and Vale Sts., Jefferson, Texas.

Entered at the Post-Office at Jefferson, Texas, as second-class mail matter.

Copies of the JEFFERSON JIMPLECUTE, in wrappers ready for mailing, can always be had at the office by single copies or the dozen.

This paper is mailed regularly to its subscribers until a definite order to discontinue is received and all arrears are paid in full.

Farmers pay taxes by telephone in Missouri.

Bonaparte in Maryland and Barksdale in Virginia, presidential electors, are for Roosevelt.

Gen. Stoessel's ambition to die in the last ditch was thwarted by the capture of that ditch by the Japanese.

A woman in Pedham, New York, horse-whipped, and pursued for a mile across country a red haired lady (?) who had slandered her husband.

It is intimated that congress heard something from the source of political power during the Christmas holidays that has induced it to take up tariff revision.

A beautiful family quarrel on the tariff question has long been developing in the Republican party and bids fair to culminate in an extra hot summer session.

A Chicago chemist thinks he has discovered that life may be created by chemical action. The discovery is not new. Who has not heard the song, "There's Life in the Flowing Bowl?"

It is said that the administration and congress are in favor of economy? What about that little bill to double the salary of the president, pension all ex-presidents and to pay members of congress \$10,000 instead of \$5,000 a year?

The Harvard medical commission says that cancer is not infectious, that it is not an hereditary affliction, that it can only be cured by the knife or by serum, and that its cause is as mysterious as that of human life. This is the result of two years work of a commission made possible by a hundred thousand dollar endowment for original medical research. It is safe to say that amount for two years has been bountifully wasted.

It will be dilettante statesmanship to appoint a commission to study the tariff question. A hundred individual and aggregate commissions have been studying, discussing and threshing out the tariff question since the days of Henry Clay. The man who will suggest a new thought, or even a new word or a new misrepresentation, the subject will be entitled to a patent.

The president and the people are in earnest for the protection of the forests, but the first step to accomplish this appears to be the repeal of the tariff on wood pulp and paper. This might increase the destruction of the forests in Canada north of the lakes, but it would do much to preserve the forests of the United States.

Something splendid, picturesque and spectacular will be seen on Pennsylvania avenue on the 4th of March. Douglas of Mass., with Gen. Miles and others of his military staff will add a touch of Oriental splendor. Why can we not have Viceroy Curzon and his caparisoned elephants?

General Nogi, who lost two sons in battles with Russians, smilingly referred to the subject in a conversation with Gen. Stoessel saying, "Their lives were nothing compared to the object sought. This may be loyalty to one's country, but it is not of the stuff of which civilization is made."

The postal franking bill of the District of Columbia has been sidetracked and the District will have to pay for stamps for another year. A great falling off of literature proceeding from the District and to reform the word will be observed.

It is said that the Japanese are going to fish out and make better than new the sunken Russian battle ships in Port Arthur harbor. If they accomplish this task we may be able to give them a contract in Havana harbor and off Santiago.

The Mikado is said to be the most economical of the reigning monarch, and his economies are so great and so small as to give him a reputation for parsimony. He manages to eke out a living on \$3,000,000 a year.

Mr. Cortelyou is talked of for secretary of the treasury. Now it must keep him busy finding out where his office is located. He has gone to find health and rest in southern Europe.

A United States senator in an interview says that Judge Swayne is no worse than some other men. The Judge, it is said, feels bitterly the cruelty of this statement.

Which is the happier, the bachelor, or the spinster, has been the subject of discussion in certain debating societies. We think that both together are happier.

**Deafness Cannot be Cured**  
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.  
F. J. CHENEY & CO., Toledo, O.  
Sold by all Druggists, 75c.  
Take Hall's Family Pills for constipation.

Three Lamar county, Texas, farmers sold 403 bales of cotton to a Paris firm at 6 1-2c all round.

## THE TONGUE.

It is said by someone some where, "that he that bideth his tongue is greater than he that taketh a city." This is evidently true. One is done with the sword, and other appliances of war, assisted by a multitude of others, while the tongue is alone his or hers, and is controlled by the power of the will, and is naturally inclined to perverse things, this evil under the sun, causes more trouble, perhaps, than any one thing, I don't mean the tongue as a member of the body, but the use to which it is applied; it is needful as a member of the physical being if used judiciously, but when applied in a wrong direction it is destructive of human happiness. It is called a world of iniquity. It opens the gates of sin, and admits a flood of sin an iniquity. The Bible says, "keep thy tongue from evil and thy lips from speaking guile, depart from evil and do good; seek peace and pursue it." That is the rule all should follow; then we would be happy ourselves and make those around us happy. "The Lord is nigh unto them that be of a broken heart; and saveth such as be of a contrite spirit." I commenced this about the tongue; that unruly member, if not controlled will do perverse things, and cause much trouble and unrest. A busy man or woman has but little time to look after other peoples affairs but unfortunately there are some of both who are "idle busy-bodies" who take pleasure in prying into the affairs of their neighbors, and the least thing that happens of an unusual character, central is called with, "Give me No. —. Hello! is that you Susan Jane? Did you hear so and so? No. Well it is so sure." Central is called again, for other parties and so it goes ad infinitum and in an hour all that gossiping class have a sweet morsel. Women are no worse than some men who are idlers on the street, and if a woman passes and is simply polite to a man, you will see these fellows wink at one another and smile as much as to say, "did you see that," Shame, shame! upon such conduct. I have heard nice genteel ladies say they were actually afraid to be polite to an acquaintance on the streets. The telephone is a great convenience to the busy portion of the town, but a nuisance in other respects. I have been informed that many clandestine meetings after ordinary bedtime, (while the old folks were asleep) have been arranged over the phone. Of this I do not know, but gossip says so. At all events some parents would do well to sleep with one eye open.

## QUIS.

The new tariff of express rates, which are a reduction of 8 per cent in the existing rates, went into effect January 1. The arrangement of the new schedule is very simple and easily understood by agents and shippers. Under the reduced rates it is expected that the fruit and vegetable shipments by express will be materially increased.

A farmer living near Marseilles, France, has discovered that by "watering" his melons with milk they will grow to twice their ordinary size. He carries off all the melon prizes at local agricultural shows.

## Special Clubbing Offer.

Every man should subscribe to his local paper, because from it he secures a class of news and useful information that he can get nowhere else. He should, however, also subscribe to a first-class general newspaper. Such a newspaper is

## The Semi-Weekly News.

Thousands of its readers proclaim it the best general newspaper in the world. Its secret of success is that it gives the farmer and his family just what they want in the way of a family newspaper. It furnishes all the news of the world twice a week. It has a splendid page where the farmers write their practical experiences on the farm. It is like attending an immense farmers' institute. It has pages specially gotten up for the boys and for the girls. It gives the latest market reports. In short, it gives a combination of news and instructive reading matter that can be secured in no other way.

For \$1.50 cash in advance, we will send The Semi-Weekly News and The JIMPLECUTE, each for one year.

This means you will get a total of 156 copies. It's a combination which can't be beat, and you will secure your money's worth many times over. Subscribe at once at The JIMP. Office.
