The Jimplecure.

TAYLOR & TAYLOR,
EDITORS AND PROPRIETORS.

Office of Publication—Corner Austin and Yale Sts., Jefferson, Texas.
Entered at the Post-Office at Jefferson, Texas, as second-class mail matter.

Notice to Subscribers.

For the past year the price of white paper used to print on has continually gone up, and as yet the price of the JIMPLECURE is the same, but we must insist on prompt payments on subscriptions. We have waited on you and now we have our bills to meet and ask that you call or send in what is due on your JIMPLECURE.

It is now come and take some water on me—that is all.

Some hogs are seen on the streets. The owner should put them up. The owner is reminded it is against the law. To violate the law is wrong.

Who was it who said he would do no building until Jefferson would dry? Of course as soon as the money markets get easier the contract will be let for the building.

When a horse becomes a decided nuisance to the farmers coming to town by eating his corn and fodder, the owner should take it away. This much is due the farmers. How would the owner of the horse like it if he was a farmer and the other fellow owned the horse. Do as you would be done by is a good proposition to practice as well as preach.

WOULD THE COUNTRY PROSPER ON A CASH BASIS?

Many people are advancing the theory of putting everything on a cash basis. Just what is meant by cash basis is questionable. But if it is to relieve all class of credits now in existence, the proposition is simply ridiculous in the extreme. This would mean retiring bonds. In what, then, would the cash of the country be invested, so as to bring in a reasonable interest? How would the country be developed? How would the enterprises be started? Could the much needed railroads be built? Would not everything be reduced to a low minimum scale. All could not own real estate. In what would the surplus cash be invested? When the question is run out it will be found that nothing would be more injurious to the country than an absolute cash basis. It is admitted that the rule applies well to individuals, but is not applicable to the general business of the country. What would the condition of the country be today, national or otherwise, had the cash basis been strictly adhered to. No business of large magnitude could be run successfully on an absolute cash basis. In time some wealthy concern, if properly managed, can adopt the cash basis, many do, but credit is what made them. It has been suggested that the national government hold its coin, and issue government notes on a basis of three to one, and let this be substituted for national currency. This would mean an absolute purchasing power of 33 1/3 cents and a credit or faith purchasing power of 66 2/3 cents. If the credit portion was eliminated then it would require \$3 to equal the purchasing power of a gold dollar. Credit or faith would have to up hold such an issue. It is a well known fact that during the last panic, when gold was scarce, a syndicate of New York formed an endless chain with these treasury notes which drew millions of gold out of the treasury. Figuratively speaking, these treasury notes were passed in at the front door and a party standing at the back door took the bills and sent them to the front door to be repeated. The same procedure would take place with the proposed currency issue, only more so. The present system is good enough if only amended to suit the conditions of the country, and allowing the people of the country the benefit of the credit of the country. Suppose such a cur-

rency was issued by the Govern-

ment on a basis of \$3 in currency for one in gold, and these notes were presented for redemption, would not the government demand \$3 for \$1, or discount the currency? It would, therefore, not be a satisfactory currency. It would be better to retire the treasury notes outstanding and substitute them with national bank currency. This would require national banks to keep their reserve in gold and silver. The people are educated to use national bank currency. Why change? It may not be generally understood that 85 per cent, at least, of the business of the country is done by checks, only 15 per cent actual money changing hands. The 85 per cent is virtually credit, because it is not actually a money transaction. This or no other country will build up and develop its resources on a "pay as you go" policy. Confidence and credit is what is needed in developing a country. It is these two which create wealth. Under a pay as you go policy there would have been few or no railroads, telegraph, telephones, steamships, battleships, steamboats, gold mines, silver mines, cotton mills, machinery plants, or any large enterprise which required large combination of capital to construct. This would indeed be a dark age.

To show the good results to come of local option in Jefferson, one man who lives in this county came to town this week and he said that he had bought himself a pair of pants that morning, and he knew that if the saloons had been here he would have spent the money with them instead of with the merchants. From this it goes to show that local option will not kill a town for the same amount of money will be spent but it will go to a better purpose than for whiskey—the merchants get it. A dollar will do more good spent for dry goods and groceries than for whiskey.

Would not the Republican party be away up the tree if the Democrats should hold their National Convention first and put out the following ticket:
Theodore Roosevelt—President.
William J. Bryan, Vice President.
Then the thing what happened in Georgia will sure turn loose.
We heard a paradoxical expression during the rain. A party said the town was very wet, yet it was distressingly dry.

REMARKABLE RECOVERY.

Woman's Power of Speech Restored While Milking.

Houston, Nov. 28.—After being partially paralyzed for thirty-three years and absolutely dumb for seven months, Mrs. Charles H. Toft of Houston Heights has suddenly recovered her power of speech. While milking a neighbor's cow she felt a sudden pain in the waist and thought a bee had stung her, but found the head of a needle protruding through the skin. She had swallowed it thirty-three years ago. The needle was discolored, but not rusty. The instant it was removed her power of speech returned. The woman regards her recovery as miraculous.

His arms were soft and flabby. He didn't have a strong muscle in his entire body.

The physician who had attended the family for thirty years prescribed Scott's Emulsion.

NOW:
To feel that boy's arm you would think he was apprenticed to a blacksmith.

ALL DRUGGISTS; 50c. AND \$1.00.

The Commercial Club of Jefferson received from the Chamber of Commerce of Clarksville the Clarkeville News, with the following endorsement:
"Good old Jefferson, get up and push. We will all help you, as we need you with your water rates. We all have known you of old, when you were the biggest business town in Texas, and we all want to see you it again. Clarksville, Paris, Bonham and Sherman, in fact all Northeast Texas will help you. So go to work."

Jefferson is glad to hear that the business of the transcontinental section at last realize of what great advantage a water point at Jefferson will be to the territory tributary to this point. Northeast Texas needs Jefferson as a water point as badly as Jefferson needs it herself. It is evident this is beginning to be appreciated by the business interest which have investigated the question as Clarksville has. Jefferson is by no means sleeping on her rights. Thanks to the good people of Clarksville for their encouraging words. Jefferson never sleeps.

Why don't those who can, say let her go, and she will surely go. The country has long since learned that there was nothing in the stringency. Everybody has his theory of what caused it. It is the opinion of the JIMPLECURE that some one high up in finance had indulged and said there was going to be a very close money market, and another fellow said yes, and it started. Then the race began for who should get his cash out. In other words it was a case of race chain fright—nothing but imagination.

AGAINST TAX RATE.

Protest is Filed by Wichita Falls Railway Company.

Wichita Falls, Tex., Nov. 22.—Protesting against the action taken in this county by officials in following the directions of the state tax board in assessing taxes upon the tangible and intangible property of the Wichita Falls Railway company at full value, and at the same time falling admittedly to assess other property at more than 50 per cent of its real value, J. T. Montgomery, attorney for the railroad company, has filed suit in the Wichita county district court praying for judgment setting aside and annulling the said legal acts of the board of equalization of Wichita county and perpetually enjoining the said tax collector of Wichita county and his successors in office from collecting or attempting to collect the illegal portion of said taxes * * * further that said illegal taxes * * * be declared void and the lien removed as a cloud upon plaintiff's title and for costs," etc.

THE FIRST LETTER

A Woman Writes.

THE FIRST LETTER that a sick woman should write or have some one write for her is to Dr. Pierce, Buffalo, N. Y., asking him if "FAVORITE PRESCRIPTION" is suitable for her case, and he will frankly tell her so if he thinks it is. He may have to ask some questions before he can be sure just what the trouble is. If you are suffering from chronic disease, the symptoms of which are headache, backache, stiffness, pains in various parts of the body, especially in the pelvic region, bearing-down, inflammation, irritation, sleep Dr. Pierce will advise you to use his "FAVORITE PRESCRIPTION" for he has had a wonderful experience in the use of this remedy. It is not a PATENT MEDICINE but it is a GREATLY IMPROVED PRESCRIPTION that became his "favorite" when he was engaged in private practice forty years ago and found that it cured more than ninety-eight out of every hundred of all such cases that came under his care.

and, best of all, safe for any woman, old or young, to use. It is a strong, stimulating, and invigorating tonic, composed of natural vegetable and mineral ingredients in the treatment of this class of diseases, and its success is called Dr. Pierce's Favorite Prescription.

It Stands Alone not only in respect to its ingredients being known, but also as the only specific advertised remedy for women's diseases which absolutely contains NO ALCOHOL.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and send them exactly what they are taking. This Dr. Pierce can afford to do, because his "FAVORITE PRESCRIPTION" is made of such ingredients and after a working formula that has thousands of cures to its credit, placing it above all other medicine.

Death of W. T. Thompson.

It was with sorrow that the death of W. T. Thompson was received in this city last Saturday morning. His death took place Friday night about 9 o'clock, after a short illness of only since the night before, at the home of his mother, six miles north of the city. Deceased was a leading county man and a devout christian, and honored and respected by every body. Formerly county commissioner, and president of Trinity Union, and was a member of the present grand jury. He leaves three children, all married, an aged mother and brothers and sisters to mourn his loss, and to whom we extend our sincere sympathy. The burial took place Saturday afternoon at the old Foundry graveyard.

What is a Sale—and Meaning?

Plainly, the cutting of prices on some goods, raising on others and remaining the same on others; thus making a fair coverage of all for the purpose of "unloading." In many instances old shelf worn, out of date stock. To this end the assistance of the professional sales people is procured under the hope of getting you to buy. We say, come and buy from us just what you want and need in any quantity desired; that of good fresh, up-to-date merchandise; at prices just the same as the so-called "sale."

REMEMBER THAT

SATURDAY NIGHT,

DECEMBER 7th,

UNLOADING SALE.

You certainly can not overlook an opportunity such as this.

To find something exactly as advertised and more is a departure from the usual run of sales. But that's our way of doing business, and judging by the immense crowds that have crowded our store in spite of bad weather ever since the opening hour of our

GREAT UNLOADING SALE. WE CAN SAY, ITS THE ONLY WAY.

The people of Jefferson know when WE say BARGAINS, it means bargains in the true sense of the word.

But we expect larger crowds than ever tomorrow and we have prepared for them. We added a larger force of extra salespeople to be better able to give our friends and patrons the attention they deserve. For the benefit of those that didn't get our circular we name a few of the prices below.

But bear in mind, if you please, that every article in the house, whether for man, woman or child, has a price sale ticket on, and every item marked in plain figures at the reduced price.

COME TO THE ONLY BARGAIN SPOT IN THE CITY and you will say like hundreds that were here, **THAT BARGAINS SUCH AS THESE ARE SELDOM SEEN.**
