Writes: My wife has been in a very bad state of health. Nothing seemed to do her any good until she began TO USE PERUNA.

MRS. J. G. DUKES.

Rev. J. G. Dukes, Pastor of the Unitarian Church of Pinetown, N. C., writes:

"My wife has been in a very bad state of health for several years, and nothing seemed to do her any good until she began to use Peruna one month ago. Since then the color has returned to her face, and she is gaining in flesh every day, and I believe she is a well woman to-day."

"My little boy, ten years old, was pale and had but little life. He began to use Peruna the day his mother began. To-day his face is rosy, and he is out in the yard running and jumping with the rest of the children."

Stomach Trouble Relieved.

Mrs. T. J. Ballard, Pryor Creek, Indian Territory, writes: "I am happy to tell you that I keep free from my old stomach trouble; feel no catarrhal symptoms at all. I am able to do my work, eat and drink what I want, and rejoice that I found a sure cure in your valuable medicine, which I failed to find in the best of home physicians."

OFFICE OF PUBLICATION—Corner Austin and Vale Sts., Jefferson, Texas. Second-class mail matter.

Unfortunately too many things are gauged by the money that is in it now a days, not the right or wrong in it.

The present forest area of Texas is 20,000,000 acres, and 2,099,000,000 feet was cut during 1910. Texas lumber is found all over the world.

The Texarkana Courier has become a member of associated pressed and changed its name to "Four States Press and Texarkana Courier," with its issue of Sunday April 30th.

The Jimplecute has just turned out a new tariff sheet for the J. & N. W. Ry., which is now preparing to build into Linden from its track near Lanier. We learn from C. E. Backer, general freight agent, that the road will be completed to Linden some time in July, and Linden, one of the oldest towns in this section will have her first railway connection with the world.

A man living near De Leon, Texas, is putting in a hundred acres in Spanish peanuts, and expects a gross yield from nuts and hay of from \$35 to \$50 per acre. The peanuts are expected to reap a more profitable harvest than it is possible to make from same acreage in cotton. Peanuts is the coming crop, and too many cannot be planted, for they furnish better food for man and beast than cotton seed.

The Jimplecute has received a copy of the Special Trades Edition of Caddo Mills News, April 21st. It is a creditable issue and contains many illustrations of the leading citizens, churches, homes etc., with a splendid write-up of each feature. The News and Caddo Mills are to be congratulated on the handsome edition, which should be of great benefit to the town and the News.

According to the Manufacturers Record, the coal fields of the Southern states aggregate 148,466 square miles, and of this area Texas has 68,500 square miles, or approximately 50 per cent of the total. It matters not what viewpoint you take of Texas, we are the world's sanitarium; in fertility and strength our soil excels that of any other country on the globe; in minerals we are nature's treasure box. Texas has a glorious past, a strenuous present and a future as bright as the rising sun.

The Jefferson Jimplecute deplores greatly the fact that Senator Culberson has the manhood to come out and state that he is opposed to statewide prohibition. Of course the esteemed Jimplecute belongs to that class which believes it is right and every one else who does not believe like it is wrong. Unfortunately the population of this class is very large in Texas.—Four States Press and Texarkana Courier.

The Jimplecute begs to differ with the Courier. While a majority of the big dailies are against statewide prohibition, the good solid weeklies of the state are largely in the majority for statewide prohibition and the Jimplecute is in that class. We believe saloons are an evil to the country, and the Jimplecute cannot be made to believe wrong is right just because saloons are a money making device. There are too many papers shutting their eyes to the evils in the land for the sake of money.

Texas Leads in Highways.

The National Good Roads Association has issued a statement for money spent in public highways during 1910 and also an estimate for monies to be spent in road building in 1911.

Texas takes front rank in the expenditure for 1910, having expended \$7,000,000, and in the estimate for 1911 we lead all states in the Union. Texas will spend \$25,000,000 during the present year. The figures used by the national association were compiled by the Commercial Secretaries' Association.

With its issue of April 28th the Bonham News entered its forty-eight year, and during the last 30 years it has been under the management of one family—the Evans, father and two sons; Ashly Evans the youngest son, is now the editor. The News is now a semi-weekly and holds the record of being one of the best edited newspapers in the State, and its policies have ever been for the uplifting and betterment of the country and the social and moral conditions of the people generally. May it continue to do good and prosper.

The prohibitionists at Shreveport are thoroughly organized and are doing good work. Men, women, young men, and railroad men are all working to carry prohibition again in that city and parish at the election in June. May they have an overwhelming victory.

RAILROAD ASSURED.

Linden is to have a railroad at last, without a doubt. Contracts to this effect were signed up by some of our substantial citizens and the Jefferson & Northwestern Ry. Co. last week. Work began on clearing the right of way yesterday.

The route has been surveyed and the right of way practically secured up to Jim's Bayou, within two miles of town.

We do not know which way they will come in from there, nor where the depot will be. The general impression is that it will be a block or two west of the business part of town.—Cass Co. Sun.

We find ourselves in hearty agreement with the Statewidens when they assert that "local prohibition and State prohibition are the same in principle." If it is competent and right for the people of McLennan County to vote prohibition on the city of Waco, it is equally competent and right for the people of Hill County to vote prohibition on the city of Waco. Verily, "local prohibition and State prohibition are the same in principle." To contend otherwise, it seems to us, is to make one's self ridiculous.—Waco Times Herald.

W H M S.

The H. M. Society will meet at the church Monday May 8th, at 3:30 p. m. The lesson will be the first chapter in "The Burden of the City."

LOCK FOOT CADDO LAKE

Public Hearing at Shreveport, Louisiana, Thursday, May 18th.

Notice of the Hour and Place of Meeting will be Given at a Later Date.

The following important news has been received by the Jimplecute from F. H. Jackson captain corps of engineers, Dallas, which shows that a public hearing will be held at Shreveport in reference to the lock in the proposed dam at the foot of Caddo Lake, which is given:

War Department, United States Engineers Office.
Dallas, Texas, May 3, 1911.
Editor Jefferson Weekly Jimplecute, Jefferson, Texas.

Sir:—It is expected that it may be desirable to hold a public hearing at Shreveport, La., in connection with the preliminary examination covered by the item reading as follows in the river and harbor act of February 27, 1911.

"For a lock in the proposed dam at the foot of Caddo Lake, Louisiana and Texas, and a channel from said dam to the Red River by way of Big Pass, Little Pass, Soda Lake, Twelve Mile Bayou and Cross Bayou," on Thursday, May 18, 1911.

Definite notice of the hour and place of meeting will be given at a later date.

Very respectfully,
F. H. JACKSON,
Captain, Corps of Engineers

It will be of great benefit to Jefferson and surrounding country and Mayor Hussey should select a good delegation of prominent citizens to be present at this conference with the government engineers.

Mr. O. P. Basford of Austin, has arrived at Houston and taken up active work in the headquarters of the State-wide Prohibition Amendment Association. Mr. Basford has had a number of years of experience in newspaper work, and having been prominently connected with a number of political campaigns, is very familiar with the details of campaign work. He was the reading clerk of the Texas legislature for the last three sessions, and has an extensive acquaintance over the state. During the prohibition campaign in 1887 he took a prominent part, and was secretary of the campaign committee which looked after the interest of R. V. Davidson in his last race for Attorney General and in his race for governor. It is rather noteworthy that during the last campaign state chairman Thos. H. Bell, was for Judge Foidexster, state secretary Tom C. Swope was for Cone Johnson, and Mr. Basford was Gen. Davidson's campaign secretary.

Scholastic Census.

I wish to inform all parents that I am now taking the Scholastic Census for School District No. 3, and if I have not enumerated your children hunt me up or send me word. Every child within the age that is not on the rolls, means a loss of about six dollars to the school fund.

Jap N. Jackson, Enumerator.

The Jimplecute acknowledges an invitation to attend the annual recital of the music class of the Dingerfield High School, May 4, 1911, at auditorium. Mrs. A. M. Parker teacher, is one of Jefferson's gifted musicians, and we feel assured the recital was a splendid success.

W. R. Davis, of Marion county's leading citizens and farmers has brought to the Jimplecute a sample cabbage which is as fine as any we have seen this time of the year; the head weighs five pounds or more and not fully grown yet.

The cool spell here is unusual ly cold for May, and the young cotton plants are dying out from too much rain and cold weather; some will have to be replanted.

The Jimplecute is indebted to Will J. Hill for our first mess of new Irish potatoes, sent us last Friday.

Statistics show that Great Britain consumes less tobacco per capita than any other civilized people.

Why I Attend Church on a Rainy Sabbath.

1. Because God has blessed the Sabbath day and hallowed it, making no exception for rainy Sabbaths.
2. Because I expect my minister to be there; I should be surprised if he should stay at home for the weather.
3. Because, if his hands fall through weakness, I shall have great reason to blame myself, unless I sustain him by my prayers and my presence.
4. Because by staying away, I may lose the sermon that would have done me great good, and the prayers that bring God's blessing.
5. Because my presence is more needed on Sabbaths, when there are few, than on those days when the church is crowded.
6. Because, whatever station I hold in the church, my example must influence others. If I stay away, why may not they?
7. Because, on any important business, bad weather does not keep me at home; and church attendance is, in God's sight very important.
8. Because, among the crowds of pleasure-seekers, I see that no bad weather keeps the delicate female from the hall, the party, or the concert.
9. Because, those who stay from church because it is too warm, or too cold, or too rainy, frequently absent themselves on fair Sabbaths.
10. Because, though my excuses satisfy myself, they must still undergo God's scrutiny; and they must be well grounded to bear that.
11. Because, there is a special promise that where two or three meet together in God's name, he will be in the midst of them.
12. Because an avoidable absence from church is an infallible evidence of spiritual decay. Disciples first followed Christ at a distance, and then, like Peter, do not know Him.
13. Because my faith is to be known by my self-denying Christian life, and not by the rise or fall of the thermometer.
14. Because such yielding to surmountable difficulties prepares for yielding to those merely imaginary, until thousands never enter a church, and yet think they have good reasons for such neglect.
15. Because, by a suitable arrangement on Saturday, I shall be able to attend church without exhaustion; otherwise my late work on Saturday night will be as great a sin as though I worked on the Sabbath itself.
16. Because I know not how many more Sabbaths God may give me; and it would be a poor preparation for my first Sabbath in heaven to have slighted my last Sabbath on earth.—From Feigned Excuses.

Letter To Prof. Ernest Bobo, Jefferson, Texas:

Dear Sir: Here's another problem for those arithmetic and algebra scholars:

If Devoe is worth \$2.25 a gallon, and spreads a half further than average paint, and wears twice as long, what is average paint worth a gallon put on, painters' wages being \$3.50 per day and a day's work being a gallon of paint.

The answer is minus \$2.25 a gallon. That is: you could afford to paint with average paint if somebody gives it to you and pays half the painters' wages.

Yours truly
F. W. DEVOE & CO.

GIVE YOUR LIVER A FAIR CHANCE

Stop Drugging it with Calomel! Dodson's Liver-Tone. Vegetable Liquid Medicine. Works Without Harm.

If your liver stops working it is a mistake to try to whip it into action with a dose of calomel. It's so much simpler and safer to cure your liver troubles with the pleasant tasting liquid, Dodson's Liver-Tone. You can get a large bottle at the Rexall Drug Store for fifty cents and every member of the family can use it. Dodson's Liver-Tone is an all vegetable liver medicine that starts the liver to act within a few hours and has no bad after effects. No restrictions of your habits or diet necessary.

The Rexall Drug Store guarantees it to be a perfect substitute for calomel and will give you your money back if you are not pleased with the medicine.

Get a bottle instead of calomel next time.

Our Senator Charles A. Culberson writes a letter which the Antis are using. He gives his reasons for not voting for State-wide prohibition. In our judgment it is the weakest letter we have ever seen from Charley Culberson on any subject. He ought to remember how R. Q. Mills committed political suicide in the campaign of 1887.—Citizens Journal.

Cotton Seed.

I have 30 bushels of pure Triumph Cotton Seed (Vaughan's Improved) and 15 bushels of pure Rublee seed, both these were bought direct from the originators in 1910, grew on good land, and were ginned on cloth and carefully sacked. None better to be had. Price, \$1 per bushel.
