

# The San Angelo Press,

PUBLISHED EVERY FRIDAY BY  
SMITH & PARSONS

SAN ANGELO, TEX. Oct. 3, 1901.  
Subscription, per year. . . . \$1.50

The San Angelo Press aims to be in harmony with the reading people of the great territory of Southwest Texas, and a live local newspaper of the fertile section of country. Its columns are devoted to stock growers, breeders and farming news, interspersed with home, industrial and useful information.

San Angelo is a prosperous little city of 4200 population, very nearly 2000 feet above the sea level, which makes it an ideal place for the invalid, as the warm, dry atmosphere is not too rare for those suffering with any cough or lung affection, while it also rapidly cures the rheumatism of those with systems loaded with malaria.

It is an ideal health resort, furnished by nature, at the forks of the North and South Concho rivers, two streams of pure spring water.

The land of Tom Green county and the great Concho country is unsurpassed for fertility, yielding cotton, corn, oats, wheat, rye, barley, and all sorts of fruits and vegetables grow in abundance.

If you want any special information regarding lands, cattle, climate, health or location, The Press will gladly aid you if it can. Simply enclose two 2 cent stamps for postage and stationery, and address The Editor.

Austin Spencer, the Land Agent, will be pleased to answer any question by correspondence, will sell or trade, and should you conclude to visit San Angelo kindly call and let me show you the country.

**Fashion Notes.**

The proper shoe is a patent leather vamp and a cloth top to match. The costume with small gilt and gun metal buttons, according to the decorations of the costume.

For evening dress, the patent leather and soft imported skins in delicate evening shades, made up in colonial style with Louis XV heel, the adorning buckle to be in accordance with ones' purse. Of course the more expensive the more elegant.

Stockings—Hand embroidered and fancy lace effects, silk with fancy insteps, will probably suit the most fastidious ladies.

Gowns—The serpentine skirt now making its appearance, is to be fitted close to the form from the waist to the knees. Then the skirt flares sharply so as to give considerable train. Plounces and ruffles are to be the thing for skirt trimming. Of course, a lady requires quite a number of skirts in her wardrobe, made up of various material, such as chevots, prunella cloth and lustrous stuffs, that can be used for both house and street costume.

**A Fiendish Attack.**

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c at J. W. Harris & Co. Drug Store.

**Just Another Convert.**

A Southwest Missouri shipper who was here with hogs Wednesday got \$7.05 for them—the top that day of the Kansas City market. He said he was sorry that his last five or six consignments had not come to St. Louis instead of Kansas City. As they would then have made him considerable money.—Live Stock Reporter.

**Our Republic.**

This is the title to a book of 750 pages that our fellow townsman, Mr. E. L. Huffman, has taken the agency for, and it contains an interesting description of our country from the days when the deeply devout, sturdy and God fearing Puritans were ready and willing to withstand any change of fortune, no matter how it came, they were ever ready to give thanks to Heaven for its mercies to such worms as they whether writhing in the pangs of hunger or torture to lay the foundation of a great republic.

Every event in the history of our country is reviewed in an easy and fascinating way, from the times when the windows were made so narrow that Indians could not crawl through and oiled paper was used in place of glass to our present never ending list of luxuries for our wives and daughters. All of the notable inventions are described and the trials and vicissitudes of the inventors in displaying their inventions so as to secure their use and adoptions as necessities of life, form more than interesting reading.

The whole amount of it is, the entire book reads like an easy story and you simply start at the beginning and are never satisfied until you read every page to the end, consequently it is an easy and agreeable way of learning the history of our republic which should be known by every man, woman and child.

**Tot Causes Night Alarm.**

"One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infalible for Coughs, Colds, Throat and Lung troubles. 50c and \$1. Trial bottles free at J. W. Harris & Co.

**Feeding 50c Corn.**

From Twentieth Century Farmer.

A good many feeders are debating just now as to the wisdom of trying to feed steers for beef the coming winter, the question being whether they can make anything by feeding 50 cent corn. One thing is certain, there will be great falling off of beef production in any event. This fact is likely to put good beef animals up to fancy prices by next spring, and if a man has the right sort of steers—well bred beef animals—we had just as soon take our chance feeding them 50 cent corn this year as 30 cent corn in ordinary seasons. Then, the side issue of the hogs associated with the feeding of the steers is sure to be a good proposition. Now, mind, this statement is predicted upon the kind of steers fed, for we would not attempt the job with scrub stock.

## Dropsy

starting in the feet or ankles comes from a weak or diseased heart—a heart that cannot keep up the circulation. The blood then settles in the lower limbs where the watery portions ooze out into surrounding tissues causing bloat and swelling. The heart must be strengthened and built up before the dropsy can be cured to stay; and the best of all heart medicines is Dr. Miles' Heart Cure.

"Heart disease caused my son's ankles to swell to twice their natural size and his body shook with every beat. Four bottles of Dr. Miles' Heart Cure cured him." Mrs. A. M. DEMING, 1266 Broad St., Providence, R. I.

**Dr. Miles' Heart Cure**

gives new strength to the heart, regulates the circulation, stimulates the digestion and restores health. Sold by druggists on a guarantee.

Dr. Miles Medical Co., Elkhart, Ind.

Office, U. G. Taylor block, up stairs, Chadbourne st. SAN ANGELO, TEXAS

**Sorghum Cane.**

It is only a matter of a few years before the attention of our farmers will be forcibly drawn to the importance of all sugar bearing plants, for sugar will be just as much a money crop as cotton, since there is at all times a demand for sugar and its products.

In 1899 the United States paid to foreign countries \$94,904,120 for sugar that we needed for domestic use, and as Louisiana only produces 16 per cent of the sugar we consume, it is evident that there is no danger in us over producing our crop of sugar. As it is now, it takes about one third to one half of the cotton we export to pay for our sugar. It is estimated by some authorities that in ten years it will take our entire cotton crop for sugar.

Sorghum cane produces something the whole world needs and must have, which is sugar, and as it grows very luxuriantly in this section of Texas there is no reason for limiting its acreage.

In the stock regions of Western Texas we can make syrup and find a ready market. But we have a card that beats the sugar and that is transferring the sorghum cane into fat bees for market, which beats sending the cane to the mill. It is a wonderful fat and flesh producer for cattle, the stockmen know, and since the future money in cattle will be in the scientific feeding of cattle for market, would it not be policy to give the sorghum cane more acreage and attention, and thus utilize the facts as presented.

**Is Lite Worth LIVING?**

Then don't neglect a cough or cold, especially when only twenty-five cents will buy a bottle of Mexican Syrup. It is so soothing, and so many consumptives have been made well by its use. Read some of the testimonials on the wrapper around each bottle that prove this remedy more sure for deep seated colds, habitual coughing and even consumption, than any other remedy known to physicians, many of whom recommend and prescribe it where less efficacious remedies fail.

**Prices of Hay.**

Timothy and clover are in good demand in northern markets, the Timothy is bringing about \$13, clover \$10, Prairie from \$7 to \$10.50 and Alfalfa \$12. At San Angelo the market is Johnson grass \$12, Alfalfa \$14.

**The Circus Came to Town**

For the past two weeks the old folks and the young folks have been awaiting the day that the circus should come to town, and for miles around the stockmen have been arranging their business so as to be in San Angelo on that day.

For several days the boys have been steadily pouring in from all directions until the wagon yards and streets were filled with all sorts of outfits bringing in their families. The boys on the range believe in having a good time. They like to see good riding and the ladies flying through the air, and those who have families want the children to enjoy themselves while they can. So circus day is a sort of a feat day with the ranchman and his family in Western Texas. Every body seemed to enjoy themselves. The streets were thronged with people to witness the street parade, to see the clowns and acrobats and listen to the steam calliope, and spellers crying out their various big things they are going to do and show the people.

Of course there were all sorts of remarks made by those who did not want to give up anything in the shape of money, said it was not much, and made all sorts of disparaging remarks so as to prepare their friends why they did not want to spend anything. But the cheap and mean folks never will be able to rule this world, and it is a good thing they don't, as it would not be much of a world to live in if they did rule things.

It does the people good, and for the children's sake alone, all those who do not believe in spending anything for the circus, should be dropped over the first high fence as no good to themselves or any one on earth, for the little ones went to bed the night before, those living within the sound of the whistle of the special, were up and could hardly eat their breakfast, as their appetites had deserted them for the thoughts of the circus. To anyone who loves children it was certainly a great day of pleasure to hear them talk over the big things they saw, and watch them enjoy themselves.

Well, the circus has been here and gone. It has left pleasant memories in hundreds and hundreds and hundreds of little hearts that we should ever strive

**Always Pays to Advertise.**

Alexis, Ill., Sept. 25.—A bunch of high bred roadsters sold at John Calder's farm yesterday near Henderson, this state. The animals were fairly good looking and most of them showed pedigree and speed. Prices were low and not much better than have often been received at Kansas City for a good bunch of unbroken broncos. Little advertising was done and, perhaps, this may account for the low prices. The pedigrees show most of the offerings to have been sired by Allerton 2:09 1/2 and Muscovite 2:18.—Drovers Journal.

We have seen the frail infant when the faint struggle for existence seemed almost ended, resuscitated and made strong by the use of White's Cream Vermifuge. Price, 25 cents. For sale by J. W. Harris & Co.

The second annual show of the Angora Goat Breeders' Association will be held at Kansas City, October 24 to 28, inclusive. Exhibitors and members will make every effort to have it a great success and those who desire to buy goats will be able to make their selection at that time from the greatest collection in America. W. T. McIntyre, at Kansas City, is the Secretary and is in charge of the arrangements.

## Dr. Betts & Betts

Physicians, Surgeons, Specialists

**DRS. BETTS & BETTS**  
367 MAIN ST. DALLAS, TEX.

to make happy, for with joyous little hearts there is ever a happy home, which, in days to come may, like the bread cast on the waters, be returned in old age with homes of pleasant memories, and a love for those who loved them in their childhood days. The circus is a blessing; it distributes its rays of sunshine into many a little heart. It is always welcome, and we hope that when they make up their route, they will not forget San Angelo, in the Concho Valley of Western Texas.

In anemia and most women's ailments the digestion is weak, the making of color, flesh and strength out of food, is imperfect so that the patient is weak, wan, nervous and dyspeptic. This condition can be corrected by taking a course of Herbine. Price, 50 cents. For sale by J. W. Harris & Co.
