Give Us More Room!

Room, room, give us room! is the cry of the children of San Angelo. Every day is but adding evidence to the already well known fact that the accommodations for school purposes are woefully inadequate to meet the needs of the scholastic population of the rapidly growing city of San Angelo. The work of education cannot be successfully done in crowded, hampered quarters where good ventilation is impossible, owing to the number forced to stay in about half enough space.

What has been done by the committees to investigate, report and recommend some means for relief?

The future of the country is in the hands of these children, who are now receiving their training in our public schools. The best brains, as a rule, are those nourished by perfectly healthy bodies.

Don't neglect health in pursuit of knowledge. Health is of the utmost importance. Without it, learning, wealth, position are like tools laid away to corrode with disuse and rust. Give us more room!

Steve Killman has taken charge of the Legal Tender restaurant, so San Angelo will have an up-to-date place for those who want something good to eat.
