THE prayers for rain still continue, and so does the drought.

THE Panama canal bill was passed by the Senate—after a fashion.

MR. BRYAN says that Mr. Cleveland should return to the democratic party before he be invited to speak before democrats.

CLEVELAND and Hill spoke at the opening of the new Tilden club of New York. Cleveland virtually said nothing, while Hill advocated harmony in the party in strong terms.

EX-GOVERNOR DAVID B. HILL, of New York, in his speech at the Tilden club, severely criticised General Leonard Wood, and Wood retorts by saying that Hill is either "ignorant or untruthful."

SENATOR MORGAN, of Alabama, denounced the Panama route as a place "where labor and death join hands," and said it was cowardly for the Senate to refer the choice of routes to the President.

CHAS. F. JONES, who confessed to the murder of millionaire Rice in New York, has been released on a \$1,000 bond and will return to Texas. He eluded us stopped on the border and turned back to New York.

AFTER a pretty thorough investigation of the eruption of Mont Pelee, Mr. Robert T. Hill, scientist, has come to the wise conclusion that the eruption was "peculiar." We are not a scientist, but we thought that all along.

THE "Big Four" packing firms, encouraged by the failure of the prosecution against them, have resolved to organize a sure enough beef trust with a capital of \$1,000,000. Of course, the charter will be obtained in New Jersey.

THE Gazette is in receipt of a sample copy of the June number of the Pilgrim, a monthly magazine published at Battle Creek, Michigan, at 10 cts. a copy or \$1.00 a year. It is chock full of readable matter and embellished with finest engravings.

THE report of the proceedings of the county democratic convention in last week's issue of the Herald was full and complete and reflects great credit on that enterprising paper. The Herald can always be depended on for full reports of all county happenings.

MR HANNA is not president, but his power is supreme at the White House. He has succeeded in freeing Rutbone in spite of the fact that Roosevelt, Wood and the courts have adjudged him guilty. So the political game goes on, but the people will yet rise in their might and snipe the gamesters hip and thigh.

You Know What You are Taking.

When you take Grove's tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No cure, no pay. 50c.

EDITOR MEITZEN, of the New Era makes a labored effort in his last issue to apologize for the democrats of the county for defeating the resolution to throw open the democratic primaries to all comers. No apology is necessary, Brother Meitzen. The doors of the democratic party are wide open, and if you wish to participate, come forward, receive absolution for your past errors and become one of the chosen elect.

My little son had an attack of whooping cough and was threatened with pneumonia; but for Chamberlain's Cough Remedy we would have had a serious time of it. It also saved him from several severe attacks of croup.—H. J. Strickfaden, editor World-Herald, Fair Haven, Wash. For sale by Schultze & Seydler, druggists.

A Letter From Mexico.

Chihuahua, June 18, 1902.
Friend Habermacher:—My vacations started on the 14th inst., and will last about two months. I arrived here last Sunday with my family, who had gone out to the Hacienda del Carmen, to enjoy the fresh and invigorating country air. Here in Mexico, the teachers, whether they teach in a public or a private school, draw their salaries during vacation. I shall stay here about a month and then go out bear hunting in the "sierra" with the eldest son of my employer, who has just come home from college. United States Consul-General, Andrew D. Barlow, has the following to say to Americans desirous to come to Mexico: "Hundreds of letters are received at this office from young men in all lines, mostly from graduates from some college, who want to come to Mexico to make their fortune and inquire about the openings here for them. The same reply can be given to all of them, viz: Mexico is a bad place for a young, inexperienced man without ample funds, in any line he chooses to follow. True, this is a new and undeveloped country and offers great inducements for the investment of capital and to the man with a few thousand dollars who desires to come here and engage in business. A few people without money to start with, come here and make money, but they are the exception. No man working for a salary should come to Mexico without a definite engagement in advance at a better salary than he is able to earn in the United States, or without sufficient funds to live on for several months while seeking employment and with which to return to his home if unsuccessful in finding it."

colony are making ample preparations for the celebration of the Fourth of July. Ten thousand pesos have been collected for this purpose. It is needless to say that the celebration will be worthy of the citizens of the greatest republic. The concert and the entertainment will take place in the "Teatro de los Heroes," the new opera house, which was built at the expense of 80,000 pesos, under the supervision of Mr. King, an American architect. In due time I shall give you an account of our Fourth of July celebration.

With kind regards to yourself, as well as my other friends, I remain Very truly yours,
EMILIO JUAREZ.

Convention Aftermath.

Hallettsville and New Sweet Home were the only two precincts that voted for a measure to disorganize the democracy of this county. Dr. D. H. Clark of Moravia and Edgar Merrem of Shiner are two men who have the courage of their conviction and who vote as their conscience dictates. If they take a stand it is on the side of principle and right. The democratic party is honored by having two such men in its ranks.—Hallettsville Herald.
