A pleasant place and a pleasant game. You will be made welcome.

Bunjes School Snap Shots

Geo whiz! Didn't that blizzard make you talk in your sleep about the woodpile? The onion patches around here are looking sick, the full extent of the damage can not be ascertained.

There are a great many cases of lagrippe in our neighborhood, there being several instances where as many as three of the same family have it.

We are pleased to report that Willie the little son of Mr. and Mrs. F. G. Schmidt who has been critically ill, is well again.

Emil Behlen son of Mr. and Mrs. Fred Behlen is reported sick with pneumonia, also Adele and Otto Helweg, children of Mr. and Mrs. Gottlieb Helweg have been very sick last week.

Mr. F. Muehlen of Floresville, one of the colony who bought land of Wm. Green of Shiner, near Floresville last year, writes that every one is well pleased and growing fat. They are building a new school and in order to show their appreciation to Mr. Wm. Green, have named it Green's School house.

John Othold who met with an accident while hunting last week is reported to be improving.

Mr. Chas. Dreager visited the Bunjes school last week.

Say, Mr. Editor cant you set em up to a glass of warm weather? (Yes, come in.)

SOWPAT.

Nickel.

SHINER GAZETTE:

We are passing through the cold.

est weather ever known at this time in the year, by the oldest citizens, the thermometer dropping as low as 15 degrees. Stockmen are busy looking after the safety of their cattle. Up to date the loss has been light, but if this weather continues the loss will be very heavy as some are in poor condition to stand such severe weather.

The ground has been frozen for two days, the warm rays of Old Sol has but little effect, although clear, but the cutting blast is direct from the north pole. There has been a succession of these blizzards for 3 weeks and today still freezing, ground which has been frozen is yielding to the warmth of the sun.

Today is the noted St. Valentine's day, many will be the pretty misadventures and love tokens sent throughout the world to happy hearts.

We are pleased to have the pleasure of meeting Bro. Waite of your city who was in our section visiting the members of Moulton Baptist church, preparatory to preaching on Saturday and Sunday last, with a view of coming as pastor, filling the vacancy that the resignation of Bro. Rowland made, which was universally regretted. We gladly extend a hearty welcome to Bro. Waite.

Mrs. Stroube of Denton Creek visited relatives here the guest of Mr. and Mrs. Griffin.

Cattle buyers are succeeded by hide buyers, paying a fair price for this article.

Mr. Geo. Cooper of this place has fenced in a turkey pasture and is going into this business right, with a view of supplying Bronze turkey eggs and birds for market. We wish him success as there is a demand for good stock.

Health of the community is very

good. As news is at a low ebb I'll ring off, AMICUS.

Among the Exchanges.

As a matter of information, can someone tell us what has become of Rojestvensky and his fleet? He is playing hide and seek around Madagascar and the Philippine islands.

The cold snap beginning last Sunday night gives one just the suggestion of a shadow of an idea what the Japs and Russians before Mukden are enduring for the sake of their mikado and their czar.—Houston Post.

"The suggestion of a shadow" is all sufficient.

The Houston Post says that "the 300,000 men in Texas who fail to pay their poll taxes ought to be classed among the intangibles."

A story is going the rounds that Rudolph, the suicide son of Franz Joseph of Austria, is alive and in Boston. That reminds us that we haven't heard anything from Marshal Ney lately.—Galveston Tribune.

How about John Wilkes Booth?

We have had some pretty cold and destructive blizzards, but they are warm sephyrs compared to the cold wave that is going to strike those members of the Legislature who forgot that their duty is to meet deficits already made and not to create any more of them.—Galveston News.

The Philistine says that it requires about three years to build a battleship and about five minutes to sink one.

MOULTON NEWS.

Dr. J. G. Guenther is building a telephone line from Moulton to Honkhaus.

Rev. Waite of Grayson county visited at Old Moulton last week. We understand that Rev. Waite will preach at Old Moulton on Sunday, March 25.

Friday night the electric light plant had to shut down on account of the dynamo going on a strike and as a consequence the people of Moulton are using lamps and oil, Messrs. Koeing & Pundt, proprietors of the plant, have ordered a new dynamo and expect to be able to furnish light in a week or two.—Eagle.

The March Smart Set.

The Smart Set has fairly outdone itself in the March Number, which marks the beginning of the sixth year of its existence. The complete novel is "The Princess Elopes" by Harold MacGrath, an author whose immense popularity is due to the fact that he is a born-story teller. Mr. MacGrath is at his very best in this charming tale of a European princess and a young American medical student. It is a delightful blending of romance and delicate humor touched everywhere with the deft hand of an author who has mastered his craft. Nothing better of its kind has appeared in a magazine in many a month.
