Fortunes Being Made In Pecans.
 Do you know that Lavaca County is all right for growing paper-shell pecans? The nuts from our grafted trees are two inches long and run forty-five to fifty nuts to the pound. The standard price of these nuts to the grower is fifty cents per pound. Our trees are genuine paper-shell pecans, propagated from our own bearing orchards. We have over four square miles of pecan orchard ourselves, part of it in bearing. We will plant one thousand acres more this winter. Our bearing orchard is on Piney wood land. We have two pecan nurseries devoted exclusively to pecans. By dropping a postal card to our local agent, (J. C. Habermacher, Shiner, Texas,) he will give you full information.
