THE census bureau has made a report on the death rate in the United States for the year 1910 and places it at 15 in each 1000 persons.

THE full moon has slipped by and the equinoctial period has slipped by, but neither has brought us any rain or cooler weather. The drouth is still with us.

THE GAZETTE would suggest that the city council (we are now a city) order a few car loads of gravel and fill in the depression near the Sap depot before the winter rains set in.

THE congressional committee will investigate the election of William Lorrimer as senator from Illinois this week. Bribery and corruption is charged. Of course the verdict will be not proven.

DEVOE's weather predictions for September were away off this year. He started in by saying that this month would bring in plenty of rain, and so far we have had virtually none in this section.

A BITTER fight is expected between the Roosevelt-Sherman factions at the republican state convention to be held at Saratoga, New York, this week. We predict Roosevelt will come out on top.

THE GAZETTE is not given to blowing its own horn, but is willing to let its readers and advertisers judge of its merits. We notice that some of our exchanges when they get a newspaper subscriber make big mention of the fact and others when they turn down a mail order ad. charge great credit for the same. The Gazette quietly consigns these ads to the waste basket and says nothing.

The time—the place—the article. The time is now—the place is in front of your property—the article is a cement sidewalk.—Yoakum Times.

Shiner would be satisfied with a good, solid plank sidewalk.

FERN JUESCHER,

Some of the plank sidewalks in Shiner are in a very bad condition and something should be done to improve them. The city should call on the owners to do something.

COTTON

Is about all in and now is the time to sell what chickens you have. Prices are high now and will be much lower as turkeys begin to come in. Take our advice and sell all the old hens that are too old to lay, also large fryers now.

When you have any good eggs, let us have them; price higher at this time of the year than we ever saw it.
