TELEPHONE 444,  
"The Hamilton Boys, You Know."

SUBSCRIPTION 10 CENTS THE WEEK  
BY THE YEAR, \$5.00

Take you heed of this: As sure as you live, the producers are the feeders and clothers of the world.

Among freemen there should be no masters but justice and duty and love of right and fellowman.

PALESTINE, TEXAS, OCTOBER 6, 1905.

THE straw hat and the peek-a-boo waist must go.

THERE are many worthless dogs in Palestine that should be taxed out of existence. They are a source of great annoyance to those inclined to nervousness, and are a benefit to no one.

THE president of the New York Life insurance company says that lobbyist Hamilton spent \$466,927 in various states, "producing results." Wonder how much of that wad was dropped in Texas?

THAT New York man who drew \$300,000 from a New York bank on a forged instrument, said he did it on a bet. He won the bet all right, and with it will likely win a term in the penitentiary.

MORE producers are needed throughout this territory; the men who till the soil and produce the wealth that we all scramble for. This section must be filled up with thrifty farmers in order for the town to prosper.

A MISSISSIPPI white woman has been sentenced to the state penitentiary for a term of ten years for marrying a mulatto negro. The report does not say what became of the negro. Both should be quietly conducted to a pool of water and drowned.

MAKING his initial trip a rural mail carrier out of San Antonio rode twenty-four miles to deliver a printed circular, describing the merits of a certain brand of coffee. On one of the routes out of that city it is estimated it costs the government 65 cents to deliver each letter.

THE demand for negro cotton pickers in some sections, and the manner in which they have been treated as an inducement to get and hold them, has resulted in a great deal of trouble and much lawlessness. The negro is a very peculiar being. Pamper and taffy him a little, and it turns him fool, and destroys his usefulness.

THE Austin News-Tribune advocates the whipping post for wife-beaters. They deserve nothing better, and along with them should be punished the trifling, loafing negro, who will not work when the opportunity is offered him. And Palestine has a number of that kind, both male and female.

A SPIRIT of side-walk building needs to strike Palestine good and hard. A good side-walk adds wonderfully to the appearance and to the value of a piece of property, and would prove an incentive for your neighbor to do likewise. Let our citizens take a greater interest in the matter of good side-walks. They are sadly needed all over this good old town.

IT appears to be the plain duty of Texas to kick the New York Life Insurance company clean over the fence into Arkansas, or some other state. That company made affidavit that they did not make campaign contributions to Texas, when the evidence shows they did. Not only that, but thousands were spent lobbying in this state. Now the question is, who got the money?

THE key to health is in the kidneys and liver. Keep these organs active and you have health, strength and cheerful spirits. Prickly Ash Bitters is a stimulant for the kidneys, regulates the liver, stomach and bowels. A golden household remedy.

THE mending department in Belcher's Steam Laundry is no new feature. Its been there ever since he took charge. Phone 120. 14-1f

## Ovation for Roosevelt.

New Orleans, La., Oct. 6.—The determination of President Roosevelt to ignore all timorous advisers and come to New Orleans, yellow fever and mosquitoes to the contrary notwithstanding, has created a popular furor in this city which has not been equaled in many years. To spend one day in New Orleans the President has entirely rearranged the latter part of his southern trip, and falling in with Arkansas' desire to receive him first instead of from New Orleans, owing to quarantine, will make New Orleans his last stop on October 26, and sail from this city on a U. S. warship direct to Washington. The Times-Democrat in commenting upon the matter says: "Mr. Roosevelt has decided to pay his promised visit to New Orleans this month, in spite of the advice of the timid newspapers, politicians and stock jobbers, who wished to immerse him in the White House, safe against any possibility of trouble and danger."

"The decision is manly, therefore, like him. He announced months ago, when this trip was first arranged, his desire to visit the South, a section of country he has not seen, believing that it was to the benefit of the country, and himself as well, that a President should meet and know the people of all sections—a true and forcible declaration of the presidential obligations."

"But there were several other reasons which made Mr. Roosevelt desire to come here. He had been cordially invited to visit us and accepted—and he believed that a promise of this kind should be kept, with all the more reason that it was hard to keep. He was well aware of the fact that the visit would have a most beneficial effect, both in the matter of ending the fever and the quarantines and thus save lives and business losses; but what appealed most strongly to a man of Mr. Roosevelt's type, one who had faced danger, was his appreciation of the courage, energy and public spirit shown by New Orleans in fighting the fever and, like Horatius at the bridge, holding back an enemy which threatened the entire South, and his belief that it was entitled to some recognition on the part of the president of this country. It has recognition from most of the press, but the sentiment of the president can best be shown by a visit. It will do good here; it will do good hereafter."

Dr. White, surgeon, U. S. Marine Hospital service, in charge at New Orleans, has assured the President that he may come to New Orleans in safety.

## If It's a Fall Suit

You want, of course you want to know it fits and that the workmanship is first-class. Then you'd better see J. F. Gilbreath and give him your order for a suit made to your measure by "The Royal Tailors," Chicago, the "Pay Less and Dress Better" house.
