Learning By Experience

An investment last winter and spring of $78 in advertising space in two agricultural publications put $2,400 in a farm boy's pocket. He advertised seed corn. It was the first publicity purchasing he ever did, and naturally he went about it in that diffident, incredulous manner which is of considerable assistance to the "new man" in killing trade. Still he made money and, what is more important when philosophically considered, learned to appreciate the value of printers' ink.—Agricultural Advertising.

If there are any doubting Thomases among our merchants, they should advertise in this paper. It reaches the buyers in town and the adjacent territory.

CASH ON DELIVERY.

On and after June 1st, 1906, we, the undersigned launderies, wish to announce that all laundry must be paid for on delivery.

The great number of small accounts, when not collected at time of delivery, are a constant source of trouble and dissatisfaction to proprietor, driver and customers.

While we are aware that this departure from the present way of doing business will entail for the time being, perhaps, a little annoyance, we feel confident that the new method will be in the end the most satisfactory for all concerned.

Hoping that our patrons will look at this from a business standpoint, and that our pleasant relations may continue, we are
