

INTERESTING FACTS ABOUT THE JAPANESE

SECRET OF JAPAN'S STRENGTH IS DUE LARGELY TO EARLY TRAINING OF THE BOYS.

The following interesting article is taken from the New York Commercial:

The strength of character, the stamina and the courage shown by the Japanese in the late war with Russia which so astonished the Western nations is explained largely by the early training of their boys. Their national school system, judged by proved results, is incomparably superior in most respects to our Western methods. Japanese boys are trained with system and consistency, and hence they become "men."

The elementary school boy in Japan rises at 5:30 o'clock in the morning, has breakfast at 6, and school begins at 7. Between 7 o'clock and noon there is half an hour for gymnastics and a ten-minute interval of play between every fifty minutes' work. Lunch follows immediately after noon; at 3:30 the children have afternoon tea, dinner at 6 o'clock and are off to bed at 8:30 or 9. Those who live far from school must get up earlier. In the country they may have to walk seven miles to school and seven miles back.

After school the children have to review and revise the work done in school that day. For games they wrestle and leap and do almost anything but quarrel. Prof. Hearn of Tokio University says that he never saw Japanese school boys quarrel. A portion of the school gymnastics consist of military drill. Those school boys desirous of showing that they can be more than toy soldiers, practice long marches. The government encourages them by providing them with real rifles and bayonets.

The discipline in Japanese schools is no trouble to the teacher who knows his subject and how to teach it. The pupil's mental attitude is earnestness; they are, above all, anxious to learn; nowhere in Japan is it a point of honor to look on lessons as tomfoolery and the teacher as an enemy to be defeated if possible. The government, knowing this, has abolished all corporal punishment. No Japanese teacher ever loses his temper without

religious enthusiasm, there seems to be none. The faddists who are allowed such sway in our national school system will hardly claim anything approaching the success obtained by the Japanese methods.

MAY ESCAPE GALLOWES.

Slayer of Hornsby Is Held for Robbery in Mexico.

San Antonio, Texas, July 19.—Marcella Lossana, wanted in Travis county for the murder of ex-Sheriff Hornsby about four years ago, seems in a fair way to escape the gallows in Texas.

But in case he does he will merely escape the rope for a long term in the salt mines of Mexico.

Lossana is now in jail in Monterey on a charge of murder and the government refused to turn him over to Sheriff Matthews when he went to that city a few days ago. The authorities want to try him on the robbery charge. The matter of his extradition will be taken up with the state department at Washington.

After escaping from the Travis county jail, where he was held for the Hornsby murder, Lossana went to Mexico and joined the Garza band on the border. He was captured and served ten years in the state mines. He again faces that or a hanging sentence in Texas.

MIDNIGHT RAID ON MILKMEN.

Sanitary Force at San Antonio Catch Milkmen Unexpectedly.

San Antonio, Texas, July 19.—Stationed at the crossroads on the outskirts of the city the sanitary force lay in wait in the dead hour of midnight for the dairyman to make his appearance on his way to deliver milk to his customers. Before he was allowed to proceed he was ordered to give up a sample of his milk and this was taken to the office of the Board of Health to be analyzed by City Physician Burg. Those whose milk is found to contain adulterations will be dealt with according to the provisions of the pure food ordinances. This system of inspection is a new departure and the milkmen were caught at a time when they did not expect it. Some of the milk taken was found to be considerably diluted, while some of the milk appeared to be right in its natural state. One dairyman admitted that he had put water and salt in his milk.

ACT QUICKLY.

Delays Have Been Dangerous in Palestine.

Do the right thing at the right time.

Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. Patrick Ryan, of 11 Fulton street, foreman in the employ of the I. & G. N. R. R., says: "Since I publicly recommended Doan's Kidney Pills in the summer of 1902, after I had procured a supply at the Bratton Drug Co.'s store, and their use had relieved me entirely of the pains across my loins and kidneys which had bothered me off and on for some years, I have told many of my fellow-workmen in the shops about them, and know of several who have found the same good results from their use. If I ever feel any indications of the coming on of kidney trouble I always use the pills and find in them prompt and effective relief. I am pleased to re-endorse the preparation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SALT LAKE CITY IS DEMORMONIZED

FIGURES SHOW THAT THERE ARE TWO GENTILES TO EVERY MORMON IN SALT LAKE CITY, UTAH.

You do not think of New York as a community of Dutch farmers under Peter Stuyvesant. Philadelphia is now something more than a colony of Quakers. Detroit is no longer a French fort and trading post. Nor is Salt Lake City a frontier community of religious zealots threatening with annihilation all "outsiders" who venture there.

The Dutch and their descendants are still in New York; the Quakers are in Philadelphia; children of the French remain in Detroit and New Orleans. In each of these communities these various elements help to give individuality, even though they are in the minority. The Mormons are undoubtedly in Salt Lake City, but it is a fact not generally understood that they constitute a minority there.

A careful political census made in 1904 disclosed the fact that the Latter Day Saints, including all persons of Mormon birth who had not openly apostatized, formed approximately 35 per cent. of the population. Since then the non-Mormon population has increased so rapidly that it is safe to say at present there are two Gentiles to every Mormon in Salt Lake City and suburbs, and the Gentiles continue to pour in.—Pacific Monthly.

HE WAS TURNED DOWN.

If He Had Been a Republican He Might Have Made Good.

What! The stork has been turned down at the White House? Can it be that the great Word Thunderer who issued his philippic against race suicide referred exclusively to a Republican stork?

Earl Morris, a sturdy Missouri Democrat, who wanted the postoffice at Centalla, on the big family plank in the Roosevelt platform, thought the bird under the presidential wing was non-partisan. He was proud of the twelve calls of the stork at his house, proud to have a president who appreciated home extension, so he sent a fine group photograph of the fourteen Morris to Washington.

The picture showed that it was a very fine bird which had the Morris home on its calling list, but alas! it was not of the Republican feather. It seems now that only the "right kind" of stork is recognized at the White House and that birds of Democratic, Populist or Prohibition plumage are not in the swim for office. No dainty water cress postoffice at Centalla will be allowed to fill the bill of an industrious Democratic stork. This is the ruling of an administration which hitherto has stood high in storkdom.—St. Louis Republic.

Precinct Democratic Convention. To the White Democratic Voters of Court House Box Voting Precinct No. 1:

You are hereby called to assemble in convention at the court house of Anderson county on the 28th day of July at 11 o'clock a. m. for the purpose of selecting delegates to the county convention and transacting such other business as shall properly come before the precinct convention.

W. R. Petty, Chairman Court House Box Voting Precinct No. 1.

100,000 Envelopes just received at the Herald office. They can be had in any grade, from the cheapest to the best.

The Most Popular Chew Made

There is real enjoyment in chewing SCHNAPPS tobacco. That's why it has won millions of chewers every year, until now more is sold than all similar tobaccos.

SCHNAPPS, the most popular product of the Reynolds factories, is man-

ufactured in the very heart of the Piedmont tobacco belt, known to the world as producing tobacco with an aroma so delightful and appetizing that it introduced and popularized the chewing of tobacco.

Schnapps

The Clean, Pure Chew

is manufactured by the cleanest and most healthful processes ever devised, under the direction of men who have made the chewing tobacco business a life study, and who have managed the R. J. Reynolds Tobacco Company since 1875.

Only choice selections of thoroughly cured leaf are used in SCHNAPPS, and expert tests prove that this class of tobacco requires and takes a smaller amount of sweetening than any other kind of tobacco grown—and that it has a wholesome, stimulating and satisfying effect on chewers, besides being the most economical.

There are a great many imitations claiming to be "just as good" as

SCHNAPPS, but there is only one *genuine* SCHNAPPS. Be sure the letters on the tag, and under the tag, spell S-c-h-n-a-p-p-s. There are more pounds of SCHNAPPS chewed every year than the total amount of all similar kinds.

Internal revenue statistics show that SCHNAPPS and others of the Reynolds brands won enough chewers in one fiscal year to make a net gain of six and a quarter million pounds, or one-third of the entire increased consumption in the United States on chewing and smoking tobacco.

SCHNAPPS is made and sold everywhere in 5c. cuts and 10 and 15c. plugs.

Turned Loose.

Just now college graduates feel hilarious and they seem to think that they can set the world afire with their enthusiasm. This is the right feeling to possess, but you cannot feel that way if your Laundry Work is turned out in a slovenly and unsatisfactory manner. It will provoke you to anger to think that carelessness or stupidity should have ruined that handsome and expensive shirt of yours, but if you entrust your work with this establishment you can rely on it being done in the most satisfactory manner.

We are enthusiastic about our work and want you to be enthusiastic in your praise of it. Try us.
