Perhaps after Cuba is shot full of holes she will ask to be annexed.

Wonder if Judge Bell had rather be a married man than be governor? We bet he had.

It is never wise to let well enough alone, unless you are certain you cannot make things better.

A burglar up in Connecticut was

beaten almost to death by a woman, who mistook him for her husband, coming home late.

So live that when you die your local paper will devote a whole column telling of your noble qualities as a citizen and a man.

The mistake most East Texas people make when they move West is they do not buy a return ticket. They all come back, even if they have to walk.

A great big lazy bulk of a man who will booze and leave his wife and little children to suffer, should be taken up and put on the public roads until he makes up his mind to go to work.

It is within the memory of Texans that the president of the Waters-Pierce Oil Company made oath that that company was in no way connected with the Standard Oil Company, and Joe Bailey attested the truth of the oath. Now the question is, was Joe hood-winked in the matter, or did he know better?

In testimony deduced in St. Louis in the Standard Oil Company ouster suit, it was made to appear that the big oil trust paid its stockholders just 700 per cent. last year. Now that is not so bad for a big trust. Even a Palestine grocery merchant would be satisfied with such a profit on his investment. Most of them would rejoice over a net profit of 10 per cent.

The San Angelo (Texas) Fair, Fine

Stock Show, Poultry and Agricultural Display and Race Meet takes place on October 2nd to 5th. The whole state has its eyes on this rapidly-developing agricultural district, where the large ranches are being cut up into tracts to suit the farmer and offered on easy terms. The railroads are offering cheap rates for the occasion.

Prof. King of the public schools says the school board will not enter a plea of guilty, as charged, relative to that ice question. He says the board furnishes ice to each building, but that in some cases a sufficient quantity has not been left, and that this matter is being regulated as fast as possible, and as soon as it is ascertained how much ice will be required to run each building that amount will be purchased daily.

A Mississippi editor tells the story of a young bachelor sheriff who was called upon to serve an attachment on a handsome widow. He called and said: "Madam, I have an attachment for you." She blushed and said the attachment was reciprocated. "You misunderstand," he said, "you must proceed to court." She told him she knew it was leap-year, but she would rather he would do the courting. "Madam," he continued, "this is no time for trifling. The justice is waiting." "Oh, I prefer a minister," she said. "A squire married me the first time and I had bad luck."

## THIS IS MY 76TH BIRTHDAY.

Porfirio Diaz.

Porfirio Diaz, the creator of modern Mexico and for thirty years the president of the republic, was born in the city of Oaxaca, Sept. 15, 1830. His parents wished to educate him for the church, but the young man chose the profession of law instead. He served in the revolution against Santa Anna, which was the beginning of his brilliant military career. From first to last he was prominent in the defense of his country against the combined forces of England, France and Spain, in their effort to convert Mexico into an empire, with the ill-fated Maximilian on the throne. On April 2, 1867, Diaz scored his greatest victory by capturing the city of Puebla after a desperate assault. After the final overthrow of Maximilian Diaz proved himself a master in statecraft. He overthrew one after another of the ambitious leaders who were striving for a head in the republic. In 1876 Diaz finally be-

came constitutional president of the country. A better day began for Mexico from the time he first assumed power. That the republic appreciates his work is evidenced by the fact that he is now serving his seventh term as president and is practically assured of a continuance of his power so long as he lives.

## NEWS OF SPORT.

The New York Americans are playing to more people than the Giants. A winner catches the Gotham fans.

The New York Americans certainly have a great bunch of youngsters in Moriarty, Chase, Laporte, Thomas, Dehlanty and Doyle.

It is a foregone conclusion that the Chicago club of the National League will break all records of games won this season.

The Savannah Club made a great record in the South Atlantic League, climbing from last place to first and winning the pennant from Augusta.

It is claimed that the performance of the Highlanders in winning five double-headers in five consecutive days is without precedent in the major league.

The games now being played in the National League show that the leading clubs are playing a stronger and the others a weaker game than at any time this season.

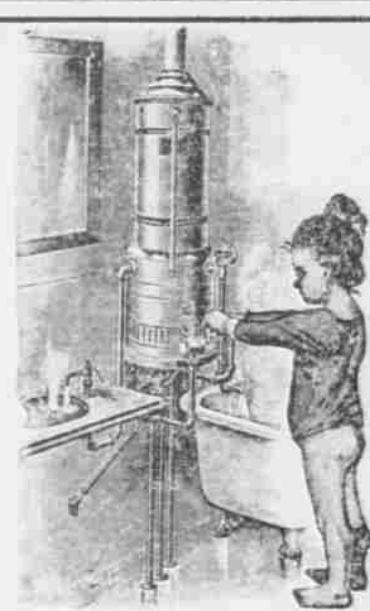

Joe Kelley of Cincinnati says that President Ben Johnson is determined to keep him out of the American League. Johnson will have none of the old Baltimore bunch.

New York fans believe it is a great mistake on McGraw's part in playing veterans instead of building up the team with minors. It will have to come, so the quicker the better. "Stony" McGlynn celebrated his return to the York team in the Tri-State League by winning both ends of a double-header against Harrisburg. There is no denying the fact, the McGlynn boy is a wonder.

## AT THE AUDITORIUM.

Steel and Whittier Will Visit Palestine Next Week.

Dare Devils Steel and Whittier in their thrilling acts, leaping the gap and the coast of death, on skates, will be seen in Palestine shortly.

Prof. Steel rides down a steep incline at angle of 40 degrees, leaping through a gap twenty feet. Prof. Whittier coasts down a 12 inch plank from the top of the building, jumping over sixteen chairs. Steel and Whittier also give a very fine exhibition of trick and acrobatic skating, something the like of which has never before been witnessed in any rink in Palestine. Manager Luster, who witnessed this act in some of the large rinks in the East, states that it is by far the most refined, up-to-date and thrilling exhibition ever presented on skates.

Steel and Whittier will be at the Auditorium beginning Thursday, September 20th, also one matinee, Saturday afternoon. Steel and Whittier will be on the floor during the morning and afternoon sessions to render assistance to any desiring to learn how to skate.

On Tuesday night the grand contest as previously advertised. Manager Luster states that he has a great treat in store for the Palestine skaters this coming season. He has engaged some of the best skatorial artists in the business.

We told you before we moved that we intended having an Up-to-Date Store with an Up-to-Date Stock, now come and let us show you that we are keeping our Promise.

### Ladies' and Misses' Suits, Skirts and Coats.

If there is a Department in a Dry Goods Store that requires careful thought and consideration, it is the Ladies' Ready Made Department. Having this in mind, our buyer while in New York, devoted days and days of long and careful search for the most durable, most stylish and at the same time most economical garments to be had. His efforts were rewarded by the purchase of a number of lines by prominent manufacturers, and the goods are now pouring in by every express. The styles are exceedingly pretty and becoming this season, and the materials the most sensible that can be had. While our line is not yet thoroughly complete, we would be pleased to have you call and inspect what has arrived, as it will give you an idea of what styles will prevail the coming season. "Prince Chap," "Pony Coats" and "Etons" are the thing.
