STEDMAN GETS NEW POSITION.

Resigns as General Solicitor For the International and Great Northern.

Austin, Texas, March 7.—Judge N. A. Stedman has resigned the position of general solicitor for the International & Great Northern and becomes attorney in this city for the railroads of Texas, a newly created position and one which comes as a complete surprise to the state generally, as no intimation of its creation has sifted to the public. It is not believed that any one will be appointed to fill the position of solicitor for the International & Great Northern, as the receiver at the head of the road is an eminent railroad lawyer and it has Judge John M. King at Palestine as general attorney.

With the new position the railroads of Texas will have two general employees at Austin, the other being their chief statistician, Mr. H. G. Askew. Messrs. Stedman and Askew will have joint offices here.

In connection with the change Judge Stedman tonight authorized the following statement:

"I have accepted employment as attorney, with headquarters at Austin, of several of the principal railroad companies of this state. My employment contemplates that I shall represent the companies in matters of common interest before the Railroad Commission and in suits of common concern in the courts at Austin, and that I shall look after the legal interests of a general nature of the companies at Austin. During the last few years the demands on the time of general attorneys of the companies have increased to such an extent that they cannot give the necessary attention to all the matters at Austin in which their companies are interested without neglecting other important duties. It has therefore been deemed advisable to have a lawyer at Austin who will give practically his entire time to the legal interests of the companies at that place.

"I wish to observe that as to the feature of my employment relating to the performance of services before the Railroad Commission, there is, in my opinion, a better understanding than has previously existed between the commission and the railroad companies, and I anticipate that much of my work before the commission will be directed to furnishing information from the railroad companies that will be of value to that body in solving the intricate problems with which it may from time to time be confronted.

"My retirement from the position of solicitor of the International & Great Northern Railroad company is entirely voluntary, and the dissolution of my connection in that capacity with the receivership is devoid of the least friction or unpleasantness. Judge Freeman, the receiver, and myself are close personal friends. I was delighted at his appointment as receiver and I sincerely believe that he will administer the important affairs with such ability and fidelity as to establish the wisdom of his selection.

"The only significance of the severance of my connection with the receiver is that I have been offered and have accepted other and more desirable employment."

MISCHIEVOUS BOYS

Stretch Wires Across Sidewalks on South Sycamore Street.

Some miscreants, presumably mischievous boys, were at their mean-ness again last night, and chose South Sycamore street for their operations. Their meanness this time consisted of stretching wire across the sidewalk on South Sycamore street, and tripping people who were on their return home from church. One woman had her hand lacerated by falling over the wire. A few Sunday evenings ago, out on this same street, a number of small boys, some of them not so very small either, amused themselves by throwing idiom on people passing. Some of these boys are laying up trouble for themselves and their parents. They should be taken in hand and made to be good.

HOME CANNERS ORGANIZE

Strong Local Organization at Frankston Saturday.

At a meeting of the Truck Growers' Association of Frankston Saturday, a local organization of the home canners was formed by Mr. B. M. Anderson, secretary of the state association, with a very large membership. T. L. Beard was elected secretary of the local association. The local society plans to can several car loads of fruit and vegetables this season. They will co-operate with the state association, and help to put the East Texas canned goods on the market. The county is rapidly falling in line in this work, and great things are expected of the movement.

CIVIC PRIDE.

This Good Old Town Needs a Revival In the Spirit of Civic Pride.

The Herald is determined to awaken the people of this good old town to the need of a revival of civic pride. We are not living up to our opportunities. Our business streets are always dirty over Sunday, and yesterday in a most conspicuous place fronting the business center, and on parade for people from the south side going to and coming from church, a number of towels were hung out to dry and wave a disagreeable greeting. People who want to see Palestine the city beautiful should get busy and help us make a plea for a better observance of civic conditions.

A BAD PRACTICE.

People Violate Law By Throwing Slops From Upstairs Windows.

Last night a number of people returning from one of the city churches, and who had to pass through the business streets, had a narrow escape from being soused with the contents of a slop bucket, thrown from an upstairs window. This is a violation of a city ordinance, and the ordinance should be enforced.

A Splendid Choir.

The choir of the Centenary Methodist church continues to improve and is rapidly developing into one of the best choirs in the state. The music yesterday was splendid, and showed the result of good training. Good choirs are a valuable addition to the services, and all who attend the Centenary church are gratified at the good music.
