WIND-UP IN NEW YORK

Bryan, Taft and Other Speakers Will Address the Voters of That State This Week.

New York, Oct. 26.-That New York is regarded as the pivotal state in the election is evidenced by the fact that both the leading candidates for president will devote this, the concluding week of the campaign, to stumping tours that will extend from this city to Buffalo. In the consummation of their plans of making an extraordinary effort to carry this state the managers of both the Taft and Bryan campaigns are now marshaling their best talent for the fray. Beginning today and continuing until Saturday night the state will ring with the oratory of the foremost campaign speakers of both parties. Mr. Taft and Mr. Bryan will personally lead the oratorical battle.

There was great activity in demo cratic circles today in consequence of the visit to the city of Mr. Bryan. Upon his arrival in the city the democratic candidate for the presidency found awaiting him a program calculated to take up every moment of his time. Nine speeches were scheduled for the day and evening. The National Democratic Club has arranged a reception in honor of the candidate at the club house in Fifth avenue this afternoon. The reception is to be followed by a dinner, at which Mr. Bryan is to be the guest of honor. After the dinner the members of the club will personally escort Mr. Bryan to Madison Square Garden, where the great democratic mass meeting of the campaign takes place tonight.

Mr. Bryan is to remain in this city and vicinity until tomorrow night, when he will start on a trip across the state, speaking in Albany, Syracuse and Buffalo.

Mr. Taft left New York this morning for a flying trip through Connecticut. The itinerary provides for speeches to be delivered in Stamford, South Norwalk, Bridgeport, Ansonia, Waterbury, Bristol and New Britain, with an hour's stop in Hartford for a speech in the state capitol. The next stop will be Meriden, then Wallingford, reaching New Haven at 3 o'clock this afternoon. At New Haven Mr. Taft will be the recipient of a unique present from the faculty and students of Yale University. The present will take the form of a testimonial on a sheet of parchment to which practically every member of the faculty and student body has affixed his signature.

The republicans plan to throw an imposing array of speakers into the fight in this city during the remainder of this week. Mr. Taft and Governor Hughes will speak together in Madison Square Garden Wednesday night. In the Durland Riding Academy Saturday night Secretary of State Elihu Root will deliver his only address of the campaign. Starting Thursday Mr. Taft and Governor Hughes will make a trip through the state together, speaking in Albany, Syracuse, Rochester and Buffalo, and making numerous rear-platform talks on their journey between these cities.

Lewis Stuyvesant Chanler, democratic candidate for governor, is to continue his record-breaking whirlwind tour during the week. According to the program laid down for him by the state committee, he is to speak in Kingston, Brooklyn, the Bronz, Ogdensburg, Auburn and Ponyhkeensie.

Theodore Whitmore Will Face Courts the Second Time on the Charge of Murdering His Wife.

Special to the Herald.

Jersey City, N. J., Oct. 26.-In the Hudson county court this week Theodore Whitmore will be tried for the second time on a charge of having murdered his wife in the Lamp Black Swamp, Harrison, N. J., which was a mystery for more than a week during December of last year. The first trial resulted in a disagreement, but it is believed that the recent arrest of Lottle Carroll, an important witness, will lessen his chances of a successful defense this time.

Mrs. Carroll, who is 19 years old, lived in the house in Brooklyn with the Whitmores when Mrs. Whitmore disappeared. After Mrs. Whitmore's husband had been arrested, the police sought Mrs. Carroll for a week to have her tell what she knew about the movements of Whitmore on Christmas Eve when the murder is supposed to have been committed. The Carroll woman was finally located through the efforts of an amateur woman detective and is now being held to testify at the trial of Whitmore.

Princeton-West Point football game Board of Food and Drug Inspection In the Department of Agriculture Will Hold Hearing.

Pennsylvania - Swarthmore football Special to the Herald.

Washington, D. C., Oct. 26.-Flour millers throughout the country are much interested in the hearing soon to be held before the board of food and drug inspection in the department of agriculture on the question of the propriety of bleaching flour. In North Dakota, Kansas and other states the pure food commissions are already wrestling with the subject.

The millers are vigorously protesting against the statements of some of the pure food commissioners to the effect that the so-called bleaching process renders the flour injurious. The process was invented about four years ago and is said to be nothing more than a rapid process of aging the flour. The method was first used in the South. Now it is being used to a considerable extent in the West a Northwest. The process has been perfected that it is difficult to dete the bleached from the unbleached flour. The millers declare that the process is not in any way injurious and that the only effect is to give the flour a uniform color when it leaves the mills. Without "bleaching" the color of the flour is apt to vary with the character of the soil in which the wheat is raised
