FOR YOUR HEALTH'S SAKE

NIGHT AIR.

A great many people are afraid of the night air. "Do not go out in the night air," warns mother, and the whole family have it drilled into them that night air is dangerous. But it isn't. Physicians will tell you that the air of night is likely to contain fewer impurities and therefore is no more harmful than daylight air. Of course, you may need an additional wrap or coat when out at night, but don't be afraid to breathe. God didn't make the air good in the day time and bad at night.

WEATHER FORECAST.

For Palestine and vicinity:
Tonight unsettled weather, with probably a shower. Cooler tonight, with a minimum temperature of about 54 degrees. Wednesday unsettled weather. Stationary temperature.

THE NEW COMMISSIONERS.

The new city commissioners took hold of the government last night under auspices altogether flattering, and the promise is they will make good. And if they come up to the full measure of expectation they must have the support and co-operation of the citizens of Palestine. A city of best is a thankless job. There are many problems to contend with, many conditions to be met, many things to be done that require patience, perseverance and tact. It is not to be supposed that for one minute everyone can be suited or pleased. No mortal could please the whims of everyone.

As to the personnel they are gentlemen fully identified with the best interests of the city, being men of affairs and business ability.

city for a continuous period of eight years, and during that time he did much good work for the city. He is president of the Palestine National Bank, one of the city's strong financial institutions, and is a large property owner.

Mr. G. H. Turner was formerly general freight agent of the I. & G. N. and a popular man, as is shown by the magnificent vote he got. He is a man of affairs, and a splendid man in a hundred ways.

Dr. J. H. Grant is a dentist, property owner, and man of affairs. He has served long as an alderman, and is familiar with governmental affairs, and knows the needs of the city. As commissioner of police the affairs of the department are in competent hands.

Mr. Jno. F. Watts has lived in Palestine for years. For years he has been in public life. Under the Hearne administration he was an alderman, and was chairman of the street committee. His work as such speaks for itself. He made good. Now, under the new charter, he is given greater power, and his task is a great one. But no one knowing Judge Watts will entertain a doubt that he will prove equal to the duties entrusted to him. So, with such men at the head of the commission form of government, the Herald is predicting it will prove successful and popular.

And in the meantime let every loyal citizen help to make it so.

That man who shows no little traits is great indeed.

And in the meantime the crops are growing beautifully.

"Something doing" all the time is a pretty good motto for a town all the time.

The legislature decided that Palestine was a mighty good old town for the state railroad to lay its head in and rest. You bet you, this town is all right, and the state railroad will be a good thing for us.

A little spectacular business had to be pulled off in connection with the payment of the Waters Pierce big fine at Austin. Of course it was not necessary, but it advertised and that helped some, you know.

What earthly excuse can an Anderson county farmer give for buying feed stuff for the few head of horses and cattle he might possess? If the money sent away for feed stuff could be kept at home how wealthy this section would grow.

Some people may have shouted louder at the result of the city election, but we challenge anyone to strive harder to help push the city forward and help more to uphold the new officers in getting results beneficial to the town than the Herald. We never sulk.

William Randolph Hearst, the millionaire New York newspaper man, and sometimes heard of in the political pasture, has bought one thousand miles of timber land in Nova Scotia and will put in a ten million dollar paper-making plant, just as a means of fighting the paper trust. Hearst is no business man, but he gets along.

We are through with city politics for a time, and the Herald hopes for good, and we can turn our whole attention to town and county building for a time. One of the first things we should nail down is a resolution to make a fine exhibit at the Dallas Fair this fall. This is a most important matter, and we should get busy with it.

And now it is up to the commissioners to make good, and may the recall never be attempted on them, and may they never invite it by any act displeasing to the people, but on the contrary the Herald hopes their administration may prove as serene as a calm June day, and as fruitful of good works as the proverbial fig tree. Here is hats off to you, gentlemen.

BIG FIGHT OVER MONEY.

Legislature Inaugurates a Jawfest Over Appropriations.

Austin, Texas, April 26.—That the fight over the general appropriation bill will be warm was indicated this morning when, at the outset, members were indulging much oratory, criticism and queries. During the debates Robertson of Bell asked Crockett, chairman of the appropriation committee, if the amount sought will tax the treasury. Crockett replied that it will drain the treasury.

Kennedy wanted to know whether appropriations so large would prove detrimental to the state in its efforts to maintain its institutions, also if the Texas tax rate is the lowest in the union. Crockett agreed to all this.

Crockett was further asked if half a million was absolutely necessary for the institutions and if he believed Texas wanted the San Jacinto battlefield taken care of.

That appropriations must not exceed the amount in the treasury. Robertson of Travis arose and in a ringing speech declared that if the people wanted the battlefield improved it should be done, even if it takes a million, for that battlefield is Texas' most sacred possession.

OFFICER SHOT DURING A RAID.

Deputy Sheriff Huffman Is Killed By Negro Crap Shooter.

Marshall, Texas, April 26.—Deputy Sheriff Max Huffman was instantly killed and Constable Alex Cargill was wounded early this morning when they raided a negro grading camp near here where a crap game was in progress. The officers descended upon the blacks at 1 o'clock this morning. Hardly had their arrival become known when the negroes put all the lights out and commenced firing upon the officers. Huffman was shot several times and his death was instantaneous. Cargill, who is a brother of Sheriff Cargill, received a bullet in the left arm. The negroes scattered in the pitch darkness and the identity of those firing has not yet been learned. The authorities and a posse made up of citizens are scouring the country for the negroes and if arrested they may be dealt with summarily.
