Are You Insured?

That is a question that every owner of property should be able to answer in the affirmative. Nothing is more welcome, or brings greater comfort than an insurance policy in a reliable company in case of a disaster by fire. You do not know when a fire may wipe out everything you have. You may be ever so careful, and yet be a sufferer. Take the great Fort Worth fire, for instance, when dozens of blocks of homes burned. High wind, fire from under control, a hopeless case. The same thing can happen right here in Palestine. INSURE TODAY.
