 1898—Dominion House of Commons passed the Yukon railway bill, for the construction of a railway to the Klondike.
 1909—General strike of telegraph, telephone and postal employees in Paris.

NO LIMIT TO POSSIBILITIES.
 There seems to be no limit to the possibilities of this section. Almost every day is announced some new achievement or some new success along new lines, some new experiment that has made good.
 Here is one of the latest: A man named Twohig, living at Bullard, a little town on the Cotton Belt, in Smith county, about forty miles north of Palestine, surrounded by a red chocolate soil, with stretches of sandy soil between and around (very similar to the Anderson county soils), is making a young fortune on asparagus. Doubtless some Anderson county people do not know what asparagus is. They perhaps have never seen it growing, except perhaps as a pot plant, and for ornamental purposes—for it is an ornamental plant when permitted to grow. Well, asparagus is a very succulent, toothsome vegetable, highly prized by many people. In the cities there is a great demand for it. It is reckoned as one of the healthiest of vegetables. Large canneries can it extensively, just as they can corn and tomatoes. The Bullard

Herald, speaking of the crop as grown there, says:
 Palmer Fruit company shipped two crates of asparagus last Monday, March 7th, which were the first to leave Bullard this season. They have been making regular shipments ever since. Mr. Twohig informed the Herald man that he was receiving about \$6.00 a crate for it. That is the best crop that we can raise in this county. It never fails to make. This company has a field of over one hundred acres of this valuable plant and within a few years Bullard will be known far and wide for her asparagus fields. Many of our farmers have put out patches of it and many more will follow their example when they become thoroughly convinced that it will pay them.
 When a man can bring a little buggy load of vegetables to market and take out a check for \$20 or \$30, it looks like a good crop to us. We have seen Mr. Twohig do this caper several times. He has been telling our farmers what the crop is several years, but until last fall none of them would put out the grass. Mr. Twohig takes a pleasure in giving them all the advice necessary in growing it.

BOY TELLS HOW HE WON PRIZE RAISING CORN.

Following is an article which appeared in a recent issue of the Farm and Ranch, and is written by Elmer Halter, aged 16 years, who was one of the prize winners in the Boys' Corn Club of Arkansas. We print it in order that members of the Anderson County Boys' Corn Club may see how an Arkansas boy won one of the prizes. The article reads:
 "I send you herewith a brief account of how I grew my prize corn. About the first of March, 1909, I applied for membership in the Boys' Corn Club of Arkansas, through my teacher, and was accepted. I prepared my land, one-quarter of an acre, which is a dark, sandy loam, rather heavy, at once. This land was planted in oats and potatoes last year and had a light dressing of manure before the oats were sown.
 "I broke the land eight inches deep with a two-horse plow on April 8 and 9; harrowed it on the 16th and planted on the 19th; layed off rows three and one-half feet apart and with six-inch shovel plow distributed in the furrow 200 pounds of fertilizer, composed of two parts cotton seed meal and one part acid phosphate and one part muriate of potash, also two barrels of hen manure. I mixed the above with the soil thoroughly. Planted two grains in hills thirty inches apart. May 3rd harrowed and replanted missing hills. May 10 harrowed, hoed and replanted. Worms on roots destroyed much of the plant and some of the first planting. May 13 I plowed out the middles with 14-inch sweep and thinned to one plant in hill. Harrowed again May 31, and again June 10. The wind broke a number of my best plants June 17. Harrowed the land again June 26, July 2, July 12. July 6, 8, 10 and 12 I cut the tops off of all plants that did not show good ears.
 "I cultivated under the direction of J. E. Rodgers, to whom I give credit for my success in the face of such adverse conditions.
 "It took me 11 hours to prepare my land and plant the corn; cultivating and hoeing, 15 hours; gathering, 6 hours. The yield was 21 1/2 bushels, worth at 75 cents a bushel, \$16. The cost was, work at 15 cents per hour, \$4.80; rent of land, \$1; fertilizer, \$3; total cost, \$8.80. The net profit was \$7.20.
 "I received prizes as follows: At Faulkner County Fair I was awarded first prize for best ten ears, \$1; first prize for best six stalks, suit of clothes and Winchester rifle; at State Fair at Hot Springs, won first prize for best ten ears, \$25; fourth prize for largest yield, \$5; sweepstakes, which gave me free trip to Washington. In Farm and Ranch's \$1,000 Corn Contest I won in Class B, and received \$25. I assure you I appreciate the generosity of Farm and Ranch."

THANKS, HALTOM. COMING.
 The Palestine Herald is not only one of the newsiest papers in this section, but one of the most outward spoken in Texas. And while we may disagree with Bre'r Hamilton politically sometimes—yet pass him the good word and extend him the right

L. O. MURRAY.
 He Has Suggested Radical Changes In Bank Examinations.

hand of fellowship for his expressions. No matter what subject arises, he has the independence to choose a side and fight for all he's worth. It's the proper way, too, and Hamilton is nearly always right. The dates—April 15 and 16.—Nacogdoches Sentinel
 A few blocks of residence street paved through co-operation of the city and residents, would mean other blocks paved. The best educator is precept and example.
 Fort Worth is pulling off a big show this week in its stock show. The exhibits are up to the minute, the crowds are immense and the politicians are as busy as people can be and last at it.

A Griffin, Ala., family is now convinced that a black cat brings good luck. The house caught fire and the cat jumped on the bed, scratching and waking the sleepers, who would likely have burned to death had it not been for the rude behavior of the cat.

During the prohibition campaign in Grayson county the "Split Log Drag" articles of the Denison Herald have been shoved over to the fourth column of the editorial page. The Herald is strong anti, and is making a mighty fight to put the dregs out of business in Grayson.

Bullard, in Smith county, will ship asparagus by the car load this season. This is a comparatively new crop in East Texas, but experts have pronounced it one of the best yet produced. The product is high priced and in big demand, and it grows abundantly in this soil and climate. There seems to be no limit to the possibilities of this country.

When Judge William Poindexter told these democrats who could not vote for him to do the next best thing, in his judgment, and vote for Cone Johnson, the judge was no doubt sincere in his advice, but the slam was so sudden and hard on the Bailey friends of Poindexter that the wool has not stopped flying yet. The judge later retracted his good advice, but the mischief had been done, and many of his Bailey friends are looking to other candidates for a safe and sane deliverance. It was, in truth, a bad break for Colonel William.

The Knox family have slammed the parental door in the face of young Knox and his working girl bride. Too bad that young Knox did such a thing, to marry a girl that worked for a living. But how about the girl; if young Knox is like quite a good many in his class the girl will need to know how to work. If the girl is the right kind old Papa Knox and Mamma Knox should be proud of their son for not being an idiotic snob.—Palestine Herald.

It looks like Papa and Mamma Knox may be "idiotic snobs" themselves, and young Knox may be an improvement on the parental stock. He has at least shown good sense by marrying the girl he loved, and that is good evidence that he intends to be a man and take care of her.—Fort Worth Star-Telegram.

THE SHOW IS COMING.

Just the Thing For Anderson County. Poultry Fanciers to Organize.
 Every poultry and pet stock fancier in the city and county is cordially solicited to be present at the city court room March 21st; at 8 p. m., when we will go into permanent organization.

Next Door to Gas Office.

ONE MILLION DOLLARS FOR A GOOD STOMACH.

This Offer Should Be a Warning to Every Man and Woman.

The newspapers and medical journals have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.
 This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable. His misfortune should serve as a warning to others. Every one who suffers with dyspepsia for a few years will give everything he owns for a new stomach.
 Dyspepsia is caused by an abnormal state of the gastric juices. There is one element missing—Pepsin. The absence of this destroys the function of the gastric fluids. They lose their power to digest food.
 We are now able to supply the pepsin in a form almost identical to that naturally created by the system when in normal health, so that it restores to the gastric juices their digestive power, and thus makes the stomach strong and well.
 We want every one troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets. They contain Bismuth-Subnitrate and Pepsin prepared by a process which develops their greatest power to overcome digestive disturbance.
 Rexall Dyspepsia Tablets are very pleasant to take. They soothe the irritable, weak stomach, strengthen and invigorate the digestive organs, relieve nausea and indigestion, promote nutrition and bring about a feeling of comfort.
 If you give Rexall Dyspepsia Tablets a reasonable trial we will return your money if you are not satisfied with the results. Three sizes, 25 cents, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in Palestine only at our store—The Rexall Store, Bratton Drug Co., either store, Oak or Spring street.

A SWOLLEN JAW

is not pretty nor pleasant. Whether it's caused by neuralgia, toothache or accident, Ballard's Snow Liniment will reduce the swelling and relieve the pain. The great and sure cure for rheumatism, cuts, burns, bruises, scalds—any and all aches and pains. Sold by J. D. Smullen & Co.
Notice to the Public.
 I have severed my connection with the Anderson County Abstract company and will henceforth conduct an abstract business on my own account. I have had about fifteen years' experience as an abstractor and I promise the public accurate, reliable and satisfactory work at reasonable prices. I am prepared to furnish abstracts of title to any tract of land or town lot in Anderson county and will appreciate the continuation of the pa-

E. E. CABELL.
 Internal Revenue Collector to Levy Corporation Tax.

tronage of my old friends and new ones, promising the same courtesies that have heretofore been extended by me.
 The new business will be known and operated under the firm name of "L. W. Meredith Abstract Company," and will be found in the County Treasurer's and District Clerk's offices at the Court House.
 Orders for abstract work left with any one in these offices or with Cone & Barrett in New Town will receive prompt attention.
 Very respectfully,
 L. W. Meredith.
