

## IMPERED WITH NOZZLES

Fire Department Makes Report to City Commissioners That Fire Nozzles Had Been Choked.

The local fire department reports to the city commissioners that two of the fire nozzles used on hose at the fire Wednesday morning had been choked by some one bent on mischief. One of the nozzles had to be uncoupled, out of which a stick was taken that was large enough to keep the stream from flowing through. This necessitated the cutting off of the water, and much delay was occasioned. The second nozzle giving trouble threw the water in a spray instead of in a solid stream, but under the circumstances the spray was doing very effective work. Examination after the fire revealed the presence of a bone domino, and one different from any around the fire station. These were undoubtedly placed there by some one bent on mischief, and the matter is being investigated.

The two lines of hose used on the fire came from the host cart, where they had been placed by the firemen after the last fire at which they were used, and when placed there they say they were in good condition; that these obstructions were afterwards placed in the nozzles, and that to do so the nozzles had to be detached from the hose after it was placed on the cart, ready for service.

## We Protect the Family....

To Whom It May Concern:

This is to certify that my brother, John J. Martin, deceased, who was for years in the employ of the Southern Pacific Railway Company in the shops located in the Fifth Ward of this city, purchased from the Magnolia Park Land Company of 916 Texas Avenue, Houston, Texas, three lots in Magnolia Park on June 14, 1909, paying \$15.00 in cash for same and further agreeing to pay \$15.00 per month until the purchase price, \$495.00 was paid in full.

In pursuance of this contract my brother had kept up his payments regularly until the date of his death, March 17, 1910, and up to that time had paid to the Magnolia Park Land Company the sum of \$150.00.

I further certify that upon the death of my brother, the said John J. Martin, the Magnolia Park Land Company of Houston, Texas, did execute a warranty deed to my brother's widow, Mrs. Georgiana V. Martin, for the three lots purchased by my brother, and delivered same to her without charge of any kind whatever.

As the present value of the lots deeded to my brother's widow is \$645.00, they having advanced in price \$150.00 while my brother was paying \$150.00, the lots actually cost nothing to the estate, the increase in price during the time my brother was paying on the lots exactly equaling the amount of the payments made by him.

(Signed) W. H. MARTIN, M. D.

## THE GIRL SPY.

High-Class Motion Pictures at Lyric Theatre Tonight.

The management says: The Lyric Theatre was well filled again last night at both performances. The music on the inside by the Trice Orchestra was exceptionally good and the management is receiving many flattering compliments from Lyric patrons for the excellence of the music furnished by this orchestra.

The Woodmen Band gave a free concert in front of the theatre for more than an hour that was much enjoyed by the large crowd that gathered there. This little band is showing wonderful improvement and is now looking forward to securing uniforms for use during the summer months.

Tonight the Lyric will open with the vaudeville team of Verne and Reno, in a refined singing, dancing, talking and musical act, and the feature film in motion pictures will be Essanay's great dramatic picture "The Girl Spy."

## Two Boys Arrested.

Two young boys have been arrested by the city police for promiscuous mischief, and were lodged in the city jail. They are reported as old offenders, and boys who have given the police much trouble, and have done much mischief. Chief of Police Perry says he has been given promise to have all such cases prosecuted now, and says he is going to break up the mischief that is being done by boys. As a sample of the mischief they do he recites the fact that a new house, under construction, was badly damaged by boys taking nails and defacing the newly placed paper in the rooms. In addition to tearing the paper off he said they dashed water on it and ruined it, so the work had to be done over. Another instance was a crowd of boys waylaying automobiles and chucking them with rocks. He said several reported the same thing, until finally a policeman was made one of the automobile party, and reaching the place where the boys were making the attacks, the same thing was repeated,

## Three-Legged Horse.

This morning a three-legged colt, one and one-half years old, being shipped in an express car, from San Antonio to Little Rock, attracted a great deal of attention. The animal was born with only three legs, the right fore leg being gone, and no indication of right shoulder formation. Otherwise the animal was without blemish. The owner was along, and stated he bought the animal from a Mexican down below San Antonio, in Texas, and he was taking him back for exhibition purposes. He said the animal could run like a deer, and could kick with both hind feet with the same facility of a normal horse.
