## A FINAL APPEAL.

This will be the last opportunity the Herald will have to plead with the property tax-payers of the city to vote for the park bond issue next Tuesday, and the appeal is made in earnestness. The time is now. Ouida Bane purchased the park. E. J. Galt adjusted so as to add nothing to our present tax rate, and property suitable for parks is available, and there is no reason why the matter should be deferred longer. Some people base their opposition to the bond issue because they say they are opposed to the present administration. This is not a reasonable proposition, for the reason that the parks are not being voted to the administration, but to the city for all time. The present administration may pass out but the parks will remain a permanent investment and permanent institution to the town. Every man entitled to a vote should be serious in this matter. It is simply a question of parks or no parks. All progressive towns have parks, and it is only a question of time when Palestine must have them, if it expects to keep to the front, but there may not come another time when we can get as desirable locations on such favorable terms. Vote for the bonds, and if there are other questions to be settled let's settle them in their own good time.

will be astonished. The Palestine Daily Herald prints the following:

"Careful estimates make the number of new people locating in Texas during the last year or two average 200,000 annually. It is a notable fact that they are as a whole well-to-do, a very large number of them traveling in Pullman cars, and having ample ready money when reaching Texas to purchase land for cultivation.—Dallas Times Herald. The facts as here recited should afford inspiration for the people of East Texas and make them determine to get busy and get a share of this immigration. No section of Texas can offer better inducements to the man who wants to make a living from the soil. The trouble with East Texas is that it has not gone strong enough on advertising. We here at home know we have a great country, but we have not been active in letting other people know about it. For the next year every effort should be made to send the fame of East Texas to people who are hunting new homes."

The Herald is right. It is up to the people of East Texas. They have a favored section, they have cheap lands, they have a magnificent climate, they should organize and advertise and get their share of the immigration headed for Texas. As has been pointed out by President E. J. Kiest of the State Fair of Texas, East Texas should produce hogs in sufficient numbers to supply the packers of Texas and to supply the bacon for the south and the southwest.—Dallas Times Herald.

## Vote for the bonds.

Labor Day comes Monday, and a great crowd will be in Palestine. Every citizen should do his utmost to make the occasion one of pleasure to the guests.

A great crowd should attend the rally on Oak street Monday night, and hear the park question discussed. It is a settled thing, of course, that the proposition will carry, but it should be made practically unanimous.

At the meeting of the Board of Trade last night the newly elected president, Mr. Tucker Royall, tendered his resignation on account of pressing private business, and the executive committee elected by a unanimous vote Col. George A. Wright. Mr. Wright is well known to the people of the city and county and is a live wire, and if given the proper backing will make a good record in the office. Mr. C. A. Sterne was re-elected secretary of the Board, and will continue his good work. He is one of the chief things he will undertake will be the organization for the coming year of a boys' corn club with four hundred members. Let the people stand by the officers of the Board and great work will be accomplished.

## SCRIPTURE.

## Proverbs 3.

Happy is the man that findeth wisdom and the man that getteth understanding.

For the merchandise of it is better than the merchandise of silver and gold.

She is more precious than rubies, and all the things thou canst desire are not to be compared unto her.

Length of days is in her right hand; and in her left hand riches and honor.

Her ways are ways of pleasantness and all her paths are peace.

She is a tree of life to them that lay hold upon her; and happy is every one that retaineth her.

The Lord by wisdom has founded the earth; by understanding hath he established the heavens.

By his knowledge the depths are broken up and the clouds drop down the dew.

My son, let them not depart from thine eyes. Keep sound wisdom and discretion.

So shall they be life to thy soul, and grace for thy neck.

For the Lord shall be thy confidence and shall keep thy foot from being taken.

## PENITENTIARY BILL PASSED

By the Senate, and the Measure is Now Up to the House.

Austin, Texas, Sept. 2.—The senate finally passed the prison reform bill today and the house made considerable progress by disposing of a number of amendments. However, the house authorized the use of strap following a half-day debate, by a vote of 49 to 47. The house amendments similar to the amendment voted down in the senate and was offered by Mr. Stamps, a member of the penitentiary investigating committee. It restricts the use of the "bat" to prisoners of the third class and limits the number of blows to twenty. There were many amendments offered during the day and some of these adopted amplify and broaden the reform bill.

The senate, by a vote of 22 to 7, this afternoon finally passed the penitentiary reform bill carrying the emergency clause. As passed by the senate the bill will go into immediate effect and allow Governor Campbell the appointment of the first three commissioners, whose terms shall expire coincidentally with his administration. The political issue involved, while at times dominant, was finally settled satisfactorily through concessions made on both sides. The senate has done its part now and the question of penitentiary reform is up to the house for final settlement.

On motion his resignation was reluctantly

accepted, with the understanding that he would serve at some future time. On motion then Mr. George A. Wright was nominated for the presidency and his election followed by acclamation. ## Prince Jaime of Spain Is Youngest Soldier In the World

Prince Jaime, the second son of King Alfonso, is the youngest soldier in the world. He has been enrolled as a private in the Fourth regiment of field artillery and wears a miniature but correct copy of the prescribed uniform. The little prince's enlistment took place on his second birthday, when Colonel La Sota, commanding the regiment, was received by the king and presented the tiny uniform for the youngest recruit.
