

CASH PRIZE AND RENOWN

Will Fall to the Man Who Wins in the Chicago to New York Flight, to Be Decided Saturday.

(Herald Special.)

Chicago, Oct. 7.—Not since the days when horse racing was in its glory in Chicago has the old Hawthorne Park grounds been the scene of such lively activity as was to be witnessed there today. Aviators of national and international reputation, assisted by a small army of skilled mechanics, were busily at work tuning up and trying out the various flying machines entered for the great aeroplane flight from Chicago to New York. It was the final day of preparation, for the start of the unparalleled contest will take place tomorrow if the weather permits.

Nearly a dozen competitors are expected to start in the great flight that will bring a large cash prize and everlasting renown to the winner. Included among the entries are such well known airmen as Charles K. Hamilton, Eugene B. Ely, J. A. D. McCurdy, Charles F. Willard, Joe Seymour, Tod Shriver, "Teddy" O'Hagan and P. W. Wilcox.

Should the weather conditions tomorrow prove unfavorable the start of the race will of course be postponed. The conditions governing the contest provide that the race may be postponed from day to day on account of bad weather, but not beyond October 15. The race must be completed within seven days and no limit is placed on the number of stops. In order to qualify for the race each entrant must have a record of one hour's continuous flight, and must finish in the machine in which he starts, but may make any necessary repairs. If the competitors start simultaneously the winner shall be he who, fulfilling the conditions of the race, first lands within the limits of New York City. If the competitors start at intervals, the intervals will be taken into account in determining the winner. About the successful competitors will be divided cash prizes aggregating nearly \$30,000.

Important Topics Discussed.

Lincoln, Neb., Oct. 7.—Dry farming, needed legislation, the education of farmers' boys and girls, and some immigration evils and their remedy were among the important topics of discussion at the sessions of this, the second day of the annual convention of the Farmers' National Congress. J. H. Patten of Boston, Prof. Edwin E. Sparks of the State College of Pennsylvania, Mrs. C. W. Boucher of the Marion Normal College, and Prof. F. B. Linfield of the experimental station at Bozeman, Mont., were the principal speakers.

LENGTH of service is what really determines the value of a suit. It is our contention that garments tailored by the best Craftmen and made from the highest grade of imported fabrics will certainly outwear and ultimately prove more economical than those which cost less at the outset.
