Making a Rug "Antique."
How "genuine antique rugs" are manufactured and prepared for European and American markets is told by a writer who visited Bagdad.
The shopping streets seem like tunnels, he writes. They are arched overhead with brick to keep out the heat; the floor is like a subway, up and down the bazaar quarter. Through these long, stifling, faintly lighted tunnels through the eternal crowd of men, mules and camels. Often you will see a fine rug lying flat in the fifth of a narrow street, ground beneath the tramp of men and beasts, but there is method in this. Foreigners make Oriental rugs, bright and new, in Persia, and sell them through Bagdad. Since an "old rug" is worth more, wily brokers have hit on this shameful way to make a new rug look old.—National Geographic Magazine.

IMPORTANCE OF

Chickasha Readers Should Learn to Keep the Kidneys Well.
The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly so be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever, or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work. Then, the action frequently begins and is often accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 25 years. You will make no mistake in following this Chickasha citizen's advice.
F. H. Huffaker, Twelfth street and Michigan avenue, Chickasha, says: "My kidneys were out of order and I had a weak back. Doan's Kidney Pills relieved me and I have never had need of a kidney medicine since."
Price 50c at all dealers. Don't aim, just ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Huffaker had. Foster-Milburn Co., Props., Buffalo, N. Y. **2d&17th**

REMODELING OF OLD COURT HOUSE NOW BEING DONE

A complete remodeling of the court room at the county court house is in progress in connection with the addition being made on the north end of the old brick building. The same judge's bench has rested in the north end of the room with the same railing around it and the same jury box on the west for twenty years. In fact, the place has never been changed since it was completed in December, 1856.
The judge will sit on the east side of the court room after the present work of remodeling is done. Then the main door is to be moved from center of the south wall to the south-

west corner of the room. The hall at the head of the stairs will be converted into a reception room for the county superintendent's office.

Four Thousand Languages.
Most people are so sparing of the use of languages other than their own that they have little idea that there are more than 4,000 languages in the world. There are six languages common in Austria-Hungary, and Emperor Franz Josef is master of them all. It is said that there are 60 vocabularies in Brazil. In Mexico the Nahuatl is spoken in 700 dialects. There are hundreds in Borneo, while in Australia there is no classifying the complexities. According to the latest statistics, English is at present spoken by 130,000,000, German by 100,000,000, Russian by 70,000,000, French by 40,000,000 and Italian by 30,000,000. Spanish is spoken by 40,000,000, and is constantly on the increase, owing to the increase in commerce in Spain.

Poor Grandpa.
"Pa, did you ever run away when you were a boy?" "No, never." "Did you always go to Sunday school?" "I never missed a Sunday." "Did you ever do what your parents told you not to do?" "I am glad to say that I never did." "Didn't you ever make a fuss when you had to take a bath?" "I should say not. I always took my bath without complaining. I liked it." "Didn't it ever make you mad to be called in to do something for your mother when you would rather stay out and play with the other boys?" "It always gave me the keenest pleasure to do things for my mother, no matter whether I had to stop playing or not." "And did you always speak respectfully of your parents?" "Always. That was one of the first things I ever learned to do." "Get what a fine grandpa is."

Ashamed of Own Toes.
Man is a five-toed animal who seems ashamed of the fact. He covers his sensitive feet with leather, which turns him into an imitation ungulate, or hooved creature, and then wonders why he has corns and bunions. He takes the spring out of the earth with his pavements and the elasticity out of his stride with hard-soled shoes, and marvels why walking has become a pain instead of a pleasure. There may be some climatic excuse for this folly in winter, and as for grown-ups at any season "the world has set its heavy yoke upon the grave and bearded folk." But give the kids, even the poor little rich kids, a chance to get their feet on the good breast of the earth.

Laughter.
Some scientists tell us that the expression of laughter is not always indicative of a physical appreciation of enjoyment, for it is well known that idiots are prone to laughter which is often without any such significance. They often show a laughing countenance, the smile being more or less stamped on their features; or they may grin, giggle or chuckle at the slightest thing. It is probable that in such cases laughter purely expresses physical contentment, rarely associated with higher or more complex ideas.

Making Nails.
At present the most improved machinery turns out nails at the rate of about 100 to 1,000 per minute, varying with their size. Wire or French nails are made from round wire, which is unground, straightened, cut into lengths and headed by a machine either by intermittent blows or by pressure, but the pointing is accomplished by the pressure of dies. Cast nails, which are cast in sand moulds by the ordinary process, are used principally for horticultural purposes, and the bob-nails of shoemakers are also cast.

Leather in Spain.
In the Barcelona district of Spain alone there are from 10,000 to 12,000 tanned and finished sheepskins produced daily, and probably as many goatskins. The sheepskins in particular find their way into the shoe trade as well as the goatskins. Both kinds, converted into morocco leather, the goatskins being the genuine article and the sheepskins the imitation, are used extensively in the bookbinding trade.

What She Was Trained For.
Mr. Sillimur (feeling his way)—"Your charming daughter tells me that she is an excellent cook and housekeeper." Old Lady (calmly)—"Yes, I have had her carefully taught, for I have always held that no lady who does not understand housekeeping can properly direct a retinue of servants."

Logical Deduction.
"I wonder why a man loses his temper when he gets hot?" queried the typewriter boarder. "I suppose it's due to the fact that iron enters largely into the composition of the human system," replied the young medical student.

Shocked Him.
"What did the boss do when you threatened to resign if he didn't raise your pay?" "He surprised me." "How?" "He failed to show the slightest sign of alarm at the prospect of my leaving."

Handicapped.
Editor—"I wonder why Rhymer hasn't sent us any poetry lately?" Assistant—"I understand the gas company removed his meter."
