NUMBER 976.

## EL RENO IS EASY MARK FOR LOCALS

### Chickasha High School Lads Walk Away with Long End of 44 to 0 Score in Gridiron Battle

## VISITORS OUTCLASSED IS EXPLANATION

### Local Machine Moves Forward with Irresistible Force; Cherish Strong Hopes of Victory in Game with Norman

Moving in a solid phalanx with irresistible force which swept all barriers aside, plunging, trampling, grappling and surging ever onward toward the goal, the Chickasha football team cleaned up on the El Reno team yesterday afternoon by the overwhelming score of 44-0.

The field was heavy, following the recent rains, thereby making line plunges and forward passes the interesting features of the game.

The Rock Island train from the north, on board which the El Reno victims came to meet their Waterloo, was late beyond the faintest dreams of reason, so that it was after 4:30 o'clock when the game was called and the indomitable boys of the Chickasha High drew their trusty scalping knives and went after the El Reno warriors with determination and hollered shoes.

The game was an interesting one to the Chickasha boosters from start to finish. The Chickasha boys had the visitors outclassed from start to finish, and the game was featured from the time it was called until the pizkin dropped for the last time on the muddy field, by the flashes of brilliancy shown by the individual players.

From the opening five minutes of play, in which time Chickasha's speed machine went over for the first time, it was palpably evident that there was nothing but Chickasha in the game.

However, El Reno's team was one of the best-looking organizations which the Chickasha boys had been called upon to face in battle array this year, and this caused a feeling of doubt to penetrate the domes of some of the home lads that should victory be theirs, it would be dearly bought.

But the boys were on their own field, they knew every knob and knoll, every crook and turn, every hiding tuft of grass, every place where advantages might be taken and where strong plays and plunges might be initiated and carried through to successful culminations. And they played up to that knowledge.

Line plunges were worked most successfully by the Chickasha lads, and when the occasion demanded the Chickasha line held as firmly as a sea wall against the futile efforts of the visitors to break. For this reason the game had passed well into the second quarter before El Reno succeeded in making its first down, with one exception, that being a forward pass.

The El Reno coach stated, following the game, that El Reno got just about what she expected; that they did not feel they could win over the aggregation of brawn and skill which carried them to defeat.

The coach further expressed himself as being well satisfied with the fairness of the referee, Pete Heffner, and said they all felt kindly toward him and appreciated his impartiality.

The lineup was as follows:

Chickasha—Erwin Pool, right halfback; P. Joyce and P. Hill, left halfback; C. Goetting, fullback; N. Duncan and L. Luster, quarterback; B. Hill, left end; C. Pison, right end; W. Griffith, left tackle; G. Snook, right tackle; P. Buie and G. Harris, left guard; J. B. Collier and A. Griffin, right guard; B. Riddle, center; substitutes, Raspberry, E. Louie Gardner.

gay and news that came from Norman telling of the defeat of the home team there by Cherokee, the Chickasha boys are feeling very much like they are due to a clean-up on the university town team in the battle which is scheduled to be staged at Norman Friday. Cherokee defeated Norman 24 to 14, and it was the second time that Norman has ever lost on the home field.

## VILLA DEAD REPORTED AND DENIED

By United Press. EL PASO, Texas, Oct. 16.—Reports that Villa is dead were again received here today. Stories telling of revolts in Villa's ranks are also persistently repeated. According to the latest report Villa was killed in a battle between his loyal troops and mutinous forces.

Other reports said Villa was court-martialed and shot by a former adherent.

## MOTOR CAR DISASTER

By United Press. BEATRICE, Neb., Oct. 15.—Several passengers are reported to have been drowned and fifteen injured when a Union Pacific motor car ran into a washout near Randolph, Kan., this morning.

The bodies of two unidentified men have been recovered. The bridge was washed away by heavy rains. A special train carrying doctors and trained nurses was dispatched to the scene of the disaster from Kansas City.

Topeka Report. By United Press. TOPEKA, Oct. 15.—It is reported that fifteen persons were killed and fifty injured when a Union Pacific motor car jumped the track at Blue river, a mile south of Randolph, Kan., this morning. Seven bodies are reported rescued.

Mr. and Mrs. Lane Moore from Cement are in the city today, guests of Mr. Moore's parents, Judge and Mrs. T. P. Moore.

## COMMANDS FOURTH INFANTRY

This is Col. E. E. Hatch, commanding the Fourth Infantry, U. S. A., now at Brownsville, Tex.

## BEST YEAR IN HISTORY OF COLLEGE

### Enrollment Reaches 356 Mark; Students Here From Forty-Seven Okla. Counties and Eleven from Other States

## PLANT TOO SMALL TO MEET DEMAND

### Applications for Places in Dormitory Next Year Come Nearly Every Day; Two More Literary Societies

As well as being one of the most successful years, from an educational standpoint, this year promises to mark the banner year in point of attendance with the Oklahoma College for Women.

Up to the present time the enrollment for the first semester has reached 356 students, representing practically every religious affiliation. Of the 356 enrolled there are, Methodists, 131; Baptists, 76; Christian, 74; Presbyterian, 36; Catholic, 10; Christian Science, 5; Congregational and Episcopal, 3 each; Lutheran, 2; Adventist, 1; no church preference, 15.

From states other than Oklahoma, there are enrolled nine girls from Texas, one from Alabama and one from Arkansas.

The following Oklahoma counties are represented in the student body: Alfalfa, Beckham, Blain, Caddo, Canadian, Carter, Cherokee, Choctaw, Cleveland, Comanche, Cotton, Creek, Custer, Dewey, Ellis, Garfield, Garvin, Grady, Grant, Greer, Harmon, Haskell, Hughes, Jackson, Jefferson, Johnston, Kay, Kingfisher, Kiowa, Logan, Lincoln, Love, McClain, McIntosh, McClain, Major, Murray, Muskogee, Oklahoma, Okmulgee, Payne, Pittsburgh, Pottawatomie, Stephens, Tillman, Wagoner and Washita.

There are 140 girls in the Nellie Sparks hall and the two annex buildings. In addition to this number there are 109 girls boarding in town. These girls are all required to attend Sunday school and church. For their accommodation two special street cars are chartered each Sunday morning. These cars leave the college campus at 9:30 o'clock a. m., and returning from the city arrive at 12:30 o'clock p. m. In addition to carrying the girls from the college, these special cars stop at various crossings for the students who are boarding in town.

In speaking of the exceptionally heavy enrollment, President Austin of the college, said:

"It is very unfortunate that our plant is not large enough to accommodate all the young women who want to come to this institution. Scarcely a day passes that we are not in receipt of communications urging us to accept room deposits for reservations in Nellie Sparks hall for the school year of 1916-17. Were we to open our books now for reservations for next year, there would not be a room left in ten days' time.

President Austin further stated that because of the great increase in the enrollment it became necessary to organize two new literary societies in addition to the two old ones. Nothing but regular college students are permitted in the two new societies. Miss Virginia Allen of Duncan was elected president of one and Miss Helen McRee of Granite, president of the other. Each of these societies have an enrollment of sixty. The other two societies have a membership of one hundred eighteen each.

## NEGRO TOTED A GUN.

Deputy Charley Brock of the sheriff's office, brought about six feet of able-bodied negro to the county jail yesterday. The negro had been arrested charged with carrying concealed weapons. The evidence showed that the negro was loaded down with a piece of artillery of sufficient caliber and length to have made it of use in the European war and the justice before whom he was tried awarded him a neat little package which will give the county roads 34 days of skilled labor.

Taking a lesson from the ruses practiced by the navies of the warring nations of Europe, the naval authorities of America are experimenting with the "cloak of invisibility" idea. The photograph shows the U. S. torpedo boat Tripp painted to resemble the waves.

## INSURANCE REDUCTION IS SOUGHT

### Matter is Discussed at Meeting of Business Men; F. J. Meek Outlines Plans for Going About It

At a meeting of a number of representative business men, held yesterday in the chambers of the Grady County Commercial and Farm bureau, initiatory steps were taken in a movement which, it is thought, will result in a material reduction of the insurance rates in Chickasha.

President William Reinheimer, of the Retailers' association, presided at the meeting, while Arthur Ernsland, secretary of the association, acted as secretary of the meeting.

Following a general discussion as to the insurance rates now being paid by those engaged in different lines of business, F. J. Meek of Oklahoma City, addressed the meeting and made statements showing that the rates could be so adjusted that general satisfaction might be given to all property owners.

The speaker outlined plans whereby he felt the business men, and other citizens of Chickasha carrying insurance at premium rates which they believed excessive, could properly get the matter before the state insurance board and receive a readjustment of those rates.

The speaker suggested that a committee be appointed to visit all business men and other property owners, and have each of those visited to write the insurance bureau at Oklahoma City, and get a fully itemized statement of the rates they were now paying—statements showing on what items, if any, they were being "penalized." After this, the speaker suggested, all items calling for the increase of certain per cents, on the "penalizing" card should be removed, the insurance company's local representative notified and asked to reduce the rate proportionately with the removing of the objectionable feature.

Following this, Mr. Meek suggested, the insurance department of the state be called upon to act, in event the insurance companies failed to comply with the demands made, and in case the rates demanded were not correct as per the state schedule.

President Reinheimer of the Retailers' association will appoint a committee within the next few days, to call upon all business men of the city, whether or not they be members of the retailers to see how many may become interested in the matter.

Among those who attended the meeting yesterday evening were, William Reinheimer, J. B. Kelsey, Will Owsley, L. Erick, N. C. Roers, S. J. Goldsmith, B. J. Rogstad, Arthur Ernsland, F. J. Meek and a number of others.

## Negro Slayer Pays Penalty for Crime

By United Press. MURPHYSBORO, Ill., Oct. 15.—Joe Deberry, aged 22, the negro slayer of Mrs. James F. Martin, wife of a local attorney, calmly smoked a cigar when he was hanged this morning in a stockade in the public square. The negro was executed in the presence of two thousand spectators.

## PLANNING TO USE PARDON POWER

By United Press. AUSTIN, Texas, Oct. 16.—Governor Ferguson stated today that every man in the state penitentiary would be given an opportunity to tell his story to the state pardon board.

The governor said his idea was to pay particular attention to the friendless men who have no one to plead their cases. It is believed that more than a hundred men will likely be pardoned.

## BOND ISSUE PROPOSED FOR NATION

By United Press. WASHINGTON, Oct. 16.—It is understood that the administration has practically decided on the sale of government bonds to the amount of a quarter of a million dollars for the purpose of providing for more adequate national defenses.

The bonds to be issued, it is said, will be Panama canal bonds which were authorized but unused.

The funds to be derived from the sale of the bonds will be limited in their use to expenditures for national defense, being used as part payment of the four hundred millions planned for army and navy expansion. The president hopes the difference will be secured from other revenues.

The administration program for national defense to be recommended to the forthcoming session of congress, proposing a total expenditure on the army and navy next year of about \$400,000,000, was practically completed Friday night.

Secretary Garrison's plan, approved by the president, calls for an increase of \$75,000,000 in the war department's annual appropriation, to be used for augmenting the regular army to 149,000 men and the creation of a new continental army of 400,000 men, which, together with the militia of 125,000, would give the United States a military force in time of need of 665,000.

Approval also was given Friday to the proposal of Secretary Daniels and the general board of the navy for a five years' naval construction program to cost \$500,000,000, giving the navy ten new dreadnaughts and six battle cruisers, as well as more than seventy submarines, fifty destroyers, ten scout cruisers and a host of auxiliary ships.

Secretary Daniels and members of the general board were in conference until late Friday night discussing the exact number of ships to be recommended for the first year and a scheme of equalizing the expenditures over the five-year period. The following naval construction for the first year was decided upon:

Two dreadnaughts, two battle cruisers, twenty-five coast submarines, five seagoing submarines, twelve destroyers, an increase of 5,000 in personnel and an augmentation by 250 of the Naval academy student body.

## APPROVES REDUCTION OF ROAD'S CAPITAL STOCK.

By United Press. AUSTIN, Texas, Oct. 16.—The secretary of state today approved the application of the Chicago, Rock Island & Gulf Railway company to reduce its capital stock from fifteen millions to one million dollars.

## LECTURE IS DELIVERED BY PHELPS

### University Extension Man Speaks to Fair Sized Crowd at College; Courses of Lecture for Rural Schools Proposed

P. H. Phelps of the extension department of the state university, delivered an illustrated lecture in the auditorium of the Women's College last evening. The attendance was fair and the subject matter interesting.

Mr. Phelps explained that the object of the lecture was to interest all who may be interested in a better education to take up the matter and see that courses of these lectures be arranged for the rural schools. According to the statements made by the lecturer, twelve schools agree to enter into the matter and take a course of six lectures. The expense incurred will be a total of \$132, to which is to be added the cost of illuminating gas and the shipping expenses upon the paraphernalia from the state university and return. Each school, the gentleman suggested, should come in with six dollars for the privilege of using the lectures, which are to be sent out in printed form, and five dollars to pay for the picture machine, which then becomes the joint property of the schools who enter into the deal.

As an educational factor, Mr. Phelps stated, the illustrated lecture idea was a good one. He suggested that slides showing the state and the county maps, the principal items of interest in the state and in the county, geological formations, agricultural possibilities, etc., be secured, with the accompany printed lecture, the lecture to be read or delivered by either the teachers of the schools or by some person selected by the county superintendent.

Superintendent Shepard stated this morning that it was his intention to take the matter up with Agricultural Agent Cooper at his earliest convenience and canvass it thoroughly and see what might be done in the matter. Mr. Shepard, however, stated that he considered the moonlight school proposition of paramount interest and thought he would have that threshed out and in working order before any other lines might be considered.

## ALLIES NEED MORE COIN

By United Press. NEW YORK, Oct. 16.—The announcement made by Lord Reading that England and France will soon seek another huge credit loan in this country furnished the sole topic of discussion in financial circles here today.

Lord Reading would add nothing to the bare statement that such a loan would be sought other than admitting that the second loan may be asked for within a month or two.

## NO VERDICT YET.

The slander case of Margaret Brown vs. M. E. Harris, on trial in the district court, went to the jury shortly after noon today. At 3 o'clock the jury was still out.

## SAY SERBIA MUST HAVE HELP SOON

### Invaders are Fast Pushing Forward and Likely to Smash Through to Constantinople Unless Allies Send Aid

## BRITISH SUBS ARE ACTIVE IN BALTIC

### And in North Sea; Work from Russian Base and Destroy German Shipping; England Declares War on Bulgaria

By United Press. PARIS, Oct. 16.—That help must reach Serbia speedily to be availing, is conceded in military circles here. Marshall Mackensen, who is in charge of the Austro-German invaders, appears to realize the importance of haste in his present campaign, and dispatches say the enormous weight of numbers with which he is pushing forward is telling on the Serbians.

It is admitted that the invaders will reach Constantinople, which is their objective, unless the Serbians are reinforced.

The conviction is growing that the French and British will call off their Dardanelles campaign, at least temporarily, in order to use the troops now there in defense of Serbia.

Following the British declaration of war against Bulgaria, it is expected that France, Russia and Italy will issue similar proclamations immediately.

## No Survivors Landed.

By United Press. COPENHAGEN, Oct. 16.—No survivors have landed from either of the German destroyers reported sunk by a British submarine near the entrance to the Baltic Wednesday and Thursday. It is considered certain that all on board both boats perished.

## Fleet of Subs Operating.

By United Press. STOCKHOLM, Oct. 16.—British submarines have been entering the Baltic and North seas one or two at a time for the last two or three months, and it is believed that a considerable fleet of them is now operating off Russian coast bases.

The work of these submarines has been so effective that the Baltic is almost cleared of German shipping and the supply of Swedish ores for the German munition factories is threatened.

## Declares War On Bulgaria.

of the United States. WASHINGTON, Oct. 16.—Ambassador Spring-Rice reported to the state department today the British declaration of war against Bulgaria, and asked Secretary Lansing to have the United States take over British interests at the Bulgarian capital. The request will be granted.

## TO ESTABLISH CLASSES IN THRIFT IN SCHOOLS.

State Superintendent Wilson has mailed out letters to all county superintendents in an effort to interest all teachers in the organization in every school in the state of "thrift classes." The pupils in these classes will be, according to Mr. Wilson's letter, be taught the value of a dollar and learn how to spend as well as how to earn the dollar. Superintendent Shepard of Grady county is taking a great interest in these classes and has already entered into correspondence with a number of representative teachers of the county with a view of having this particular line of study added to the regular curriculum.

## WEATHER FORECAST.

For Oklahoma. Tonight partly cloudy, showers in east portion. Sunday generally fair.

## Local Temperature.
