It's Influence is Ever Present

There is nothing that contributes more to the beauty and cheerfulness of a room than the Wall Paper. It serves as a background for all of the other furnishings, pictures and bric-a-brac. CHICAGO-MIAMI MOTOR ROAD

Details of Work in Various Localities—Progress Made in Construction is Remarkable.

That the Dixie highway is a road that has appealed to the people both North and South of the Mason and Dixon line is evidenced by a report from the offices of the Dixie highway association, located at Chattanooga, to the effect that fifty counties alone have spent more than \$1,765,000 on the Chicago-Miami motor thoroughfare in the last six months and are preparing to spend \$6,931,000 during the coming year, writes J. C. Burton in Chicago Daily News.

As the fifty counties reporting to the association represent less than a third of the total counties that are crossed by the road that links North and South, it would not be unreasonable to estimate that approximately \$5,300,000 has been expended on the Dixie highway to date and that \$20,793,000 will be used to put the thoroughfare in shape in 1916.

When it is considered that the Dixie highway was routed only eight months ago, the progress made in its construction is remarkable. The large mileage of permanent roads built or under contract is an indication of the wonderful advancement made in such a short time. The fifty counties referred to report that nearly one-tenth of the distance either is paved or will be paved before another year rolls around. Using only a multiple of two to represent the other 112 counties, it can be seen that a good part of the road is or will be of a permanent type of construction.

The preparations being made for even greater progress along this line are highly gratifying to the officials of the Dixie highway association. Several divisions of the thoroughfare are planning paved roads for their entire stretch, the most notable of these being the links from Chicago to Danville, Ill., from Toledo to Cincinnati, O., from Jacksonville to Miami, Fla., and from Tallahassee to Bartow, Fla.

The reports by states show that in seven out of the eighteen counties of Kentucky there has been expended \$135,000. In Ohio, eight counties out of twelve and exclusive of Hamilton county, of which Cincinnati is the county seat, have spent \$338,000. Five counties out of twenty-two in Florida spent \$601,000 on the Dixie highway

Typical Concrete Bridge on Dixie Highway in Tennessee.

In the past six months. Four counties out of five in Illinois, not including Cook county, report a total of \$262,000 for road improvement. Ten counties out of twenty-four in Georgia spent \$95,000.

In the fifty counties reporting to the association provisions have been made for spending \$6,931,000 on the Dixie highway in 1916. This amount is divided by states as follows:

Florida	\$2,505,000
Illinois	1,250,000
Ohio	1,204,000
Tennessee	924,000
Kentucky	765,000
Georgia	151,000
Indiana	125,000

CARE FOR SCHOOL CHILDREN

Compelling Helpless Child to Force its Way Along Mud-Fouled Highway is a Crime.

All good roads lead to a schoolhouse. In good roads there is a consideration of the school child. Compel a helpless child to force its way along a mud-fouled thoroughfare and a crime is committed. Its health is endangered and its mind is dwarfed. He who would not strive to overcome a calamity fit not civilized though garbed in the broadcloth of an honored citizen. A community should, above all, consider the school children's welfare. The destiny of a nation rests in this careful study and the thoroughfare along which their little feet must travel cannot be constructed with too much precision to gain the happy result. Texas can never become great until she becomes civilized.—Delta (Tex.) Courier.

Raise More Turkeys.

If turkeys are let roam over the fields they will get three-fourths of their growth on weeds and insects that would otherwise damage the growing crops. They will need very little attention until after cold weather destroys the insects. Then feed some corn to fatten them for market.

Arouses Farmer's Interest.

One result of nearly every farmer owning an automobile is that he pricks up his ears when good roads are mentioned.
