"The Little Store With a Big Conscience."

J. S. GARNER, Manager

GOOD WORK
Proper Food Makes Marvelous Changes.

Providence is sometimes credited with directing the footsteps by so simple a way as the reading of a food advertisement.

A lady in Mo. writes, "I was compelled to retire from my school teaching because I was broken down with nervous prostration.

"I suffered agony in my back and was in a dreadfully nervous condition, irritable, with a dull, heavy headache continually, had no appetite and could scarcely digest anything. I was unable to remember what I read and was, of course, unfit for my work.

"One day, as if by providence, I read the testimonial of a lady whose symptoms were much the same as mine, and she told of how Grape-Nuts food had helped her, so I concluded to try it.

"I began with Grape-Nuts, a little fruit, and a cup of Postum. I steadily improved in both body and mind. Grape-Nuts has done more for me than all the medicine I have ever taken. I am now well again and able to do anything necessary in my work.

"My mind is clearer and my body stronger than ever before. 'There's a Reason.' Name given by Postum Co., Battle Creek, Mich.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

ALIENS ARE INSTRUCTED IN SCHOOLS

Total of 650 Cities and Towns Co-operate with Bureau of Naturalization in Training Foreign Born for Citizenship

By United Press.

Washington, D. C., April 24.—In approximately 650 cities and towns located in 45 states of the Union the public school authorities, in co-operation with the Bureau of Naturalization of the U. S. Department of Labor, have established evening schools for the instruction of their foreign-born population. Several municipalities, with a keen realization of the education deficiencies of the aliens, and appreciating the advantages to be derived through their knowledge of English, have extended the period of instruction to the end of the present scholastic year. In other cities the school authorities have signified their intention of maintaining the public schools as long as there is any evidence of need on the part of the adult alien population.

Unfortunately, according to reports received by the Bureau of Naturalization, the public school authorities of a large majority of the cities and towns, which have engaged in this stupendous campaign for citizenship preparedness, have discontinued, or are about to discontinue, their classes for alien instruction. Various causes are assigned, but the main difficulty appears to be a lack of funds for the compensation of teachers. In order to combat this condition, patriotic public school teachers and representatives of the principal organizations in many places have volunteered their services to continue this splendid work until such time as proper appropriations may be made for the purpose.

In all of the cities and towns now co-operating with the Bureau of Naturalization in this great educational movement the intention is to re-open the night schools at the beginning of the fall term. Advice has been received from various other smaller places, where, for one reason or another, they have as yet been unable to join in this undertaking, that the public school authorities have determined to open night schools for alien instruction at the beginning of the next scholastic year. There is also contemplated in various cities a plan whereby the summer classes, which have hitherto run from July 1st to August 31st, may open their doors on May 1st, and extend the period of instruction to September 30th.

Great results have already been accomplished, and greater are expected.

The Bureau of Naturalization since the first of last October has sent the names of more than 165,000 candidates for citizenship and their wives to the public school authorities of the country. It has also sent personal letters to all of these to induce them to enter the public schools. It has prepared an outline course in citizenship, thousands of copies of which have been distributed to the public school teachers. It has also prepared a Syllabus of the Naturalization Law, which it has sent out with copies of preliminary naturalization forms to aid teachers in the instruction of candidates for citizenship.

The co-operation of the public schools with the national government has come to stay, and the Bureau of Naturalization believes that this movement will go far toward solving the problem of the loyalty of every sixth resident of the country, there being nearly 17,000,000 foreign-born residents in the United States, of whom approximately 4,000,000 are citizens.

WHOOPIING COUGH

H. J. Strickfaden, publisher of The World Herald, Fairhaven, Wash., writes, "My little son had an attack of whooping cough and was threatened with pneumonia, and but for Chamberlain's Cough Remedy would no doubt have had a serious time of it. It also saved him from several severe attacks of croup." Obtainable everywhere.—Adv. d&w

PILLS BEST FOR LIVER

Because they contain the best liver medicines, no matter how bitter or nauseating for the sweet sugar coating hides the taste. Dr. King's New Life Pills contain ingredients that put the liver working, move the bowels freely. No gripes, no nausea, aid digestion. Just try a bottle of Dr. King's New Life Pills and notice how much better you feel 25c at druggists.—Adv. d&w

Electric Control Buttons at Your Finger Tips

Naturally, you want a car that can be operated easily—you realize that the extent of pleasure and safety in driving depends upon the ease of control.

In most cars the details of control seem to be planned with an eye for convenience in assembling the various parts.

But the Overland control was arranged just as you would arrange it if you were designing a car for your own convenience.

You control the electric magneto, the electric lights, the electric horn, with your finger tips, without bending forward.

To start the motor you merely touch a foot button in the floor.

A woman or girl can drive the Overland in safety. Its control is easy and instinctive.

Let us tell you about the other Overland advantages.

The Bohn Dry Air Syphon White Porcelain Lined Refrigerator

Is constructed on scientific principles, combined with high grade workmanship and first class material throughout.

We claim superiority and challenge comparison and competition on the following points:

1. Low and uniform temperature.
2. Pure atmosphere.
3. Ease in keeping absolutely sanitary.
4. Perfect circulation and absence of odors.
5. Freedom from moistures.
6. Economy in consumption of ice.
7. Perfect drainage.
8. Porcelain lining of provision chambers.
9. Durability of construction and general appearance.

A visit will be appreciated.
