FIGHT FOR 2 FORMER GOVERNORS

Friends of Harmon and Cox May Clash in Ohio, Democratic Convention Today, Secretary Baker Slated for Chairman

By United Press.
Columbus, O., June 1.—Ohio Democrats in convention here today were to choose district presidential electors.

Interest centered in the row which threatened between adherents of former Gov. James M. Cox and those of former Gov. Judson Harmon—both gubernatorial possibilities.

Cox has announced himself as a "receptive candidate" for the Democratic nomination for governor, Harmon until now has remained silent, leaving to his friends all efforts in his behalf.

Indications this morning were the convention, if it endorses either, might lean toward Cox.

This belief was based upon the slating of War Secretary Newton D. Baker for temporary chairman and U. S. Senator Atlee Pomerene for permanent chairman. Both Pomerene and Baker are close to President Wilson and administration Democrats.

It was W. L. Finley, Democratic state chairman and sponsor for Cox, who, after a hot fight in the state central committee, succeeded in swinging the temporary chairmanship for Baker—and thus assuring a "keynote speech favorable to Cox."

Owing to the fact that the Democratic national convention is yet to come, little platform drafting was expected here today. Uncertainty of national issues has forced Ohio Democrats to use extreme caution in suggesting any state issues.

Finley and his henchmen were hopeful that today no action will be taken that might embarrass Democrats later on in the campaign.

HUMAN OSTRICH OF HOLLAND IS DEAD

By United Press.
London, June 2.—Holland's human ostrich is dead.

The "Lancet," leading British journal of medicine, in an exhaustive technical treatise on "pica," or human craving for unnatural articles of diet, announced today that a Dutch wharf laborer recovered after attempting to digest three pounds and eleven ounces of hardware.

Discharged from the hospital, the patient left behind a 5-inch coal chisel weighing eleven ounces and a large assortment of coins, bolts, nuts, rivets, wire nails, tin tacks, screws and hooks and a number of small flints he had swallowed.

Six months later he returned, suffering weakness and loss of appetite, symptoms which he evidenced on the first visit.

This time a piece of tin plate and a portion of slate pencil were removed from the patient and he immediately succeeded in evading the hospital attendants to swallow a piece of soap and two ounces of camphorated spirits.

Again he recovered and was removed to an insane asylum where he succumbed to fever and inflammation of the right lung.

"WANTS DAT NIGGAH BOUND OVAH," SHE SAYS.

Just as Under Sheriff Rucker was dropping into gentle doze, after having perused his paper and smoked his after-breakfast pipe, this morning, he was brought to the wide awake and attention by the jangling of the telephone bell in the sheriff's office. Pulling his number twelve from their resting place on the top of the desk, Rucker gathered up the instrument and shouted, "Hello!"

"Hello," came the response in a feminine voice. "Am dis de sheriff's office? It am? Well, I wants to know if I can have a trifflin' no 'count, lazy niggah man, 'rested and put under bonds to de law to keep de peace and let me strickly alone. I tell you, Mistah Sherruff, I is abshuley skored of my life from dat niggah. He is done threatenin' and threatenin' me all the time. Just dis mornin' he done told me he'd cut off my blame hair. What's dat? What's my name? Nevah you mine what my name is. I cooks out head and I wants to know if you'll arrest dat trifflin' niggah and put de law to him?"

BOWEL COMPLAINTS IN INDIA.
In a lecture at one of the Des Moines, Iowa, churches a missionary from India told of going into the interior of India, where he was taken sick, that he had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him and believed that it saved his life. This remedy is used successfully in India both as a preventative and cure for cholera. You may know from this that it can be depended upon for the milder forms of bowel complaint that occur in this country. Obtainable everywhere.—Adv. 4-6w
