

SUPERIOR PRODUCTS ABUNDANT ENTRIES FEATURES OF SHOW

Second Free County Fair Offers to Public Attractions Seldom Equaled in Grady County

ENTRIES RAPIDLY FILLING TENTS

Some Displays of Especial Interest from Point of Numbers and Excellence; Baby Show Called Off

With a good early attendance and with exhibits of marked merit, the second free Grady County fair was opened this morning under the best auspices.

While all sections of the grounds make creditable showings this year, especial interest is attached to the abundant entries which have been made in the fine stock department.

Every allotment of space in the merchants tent was taken yesterday and provisions made for additional displays elsewhere.

Baby Show Called Off. Everything bids fair to be a success except the better baby show which was eliminated from the attractions this morning when the ladies in charge, Mrs. C. E. Schow and Mrs. Bert Harris, were informed that owing to the disposition of local physicians to take no part in it the infant show was called off.

Merchants' Exhibits. On entering the merchants' tent one is welcomed at the booth designed to advertise New State coffee, and cups of the steaming beverage with pure cream and sugar to match are offered gratis by Mrs. Myra Griffith, in charge.

Literature and souvenirs are dispensed at the booth of the Brotherhood of American Yeomen, in charge of Mrs. Nellie Rowells and Mrs. Mary Nichols.

The Ozark Supply company in charge of W. R. Lee, also dispenses literature on the Dietz auxiliary carburetor.

The Davidson & Case Lumber company, V. N. Adamson manager, furnishes a good supply of coal and paints.

Other booths are being filled this afternoon.

Agricultural Hall. The agricultural hall will be one of the great attractions of the fair, especially to the farmer.

The fire department did good work early this morning when at 2:19 o'clock an alarm was responded to which gave the boys a fifteen block run to Sixteenth and Minnesota avenue.

The fire department did good work early this morning when at 2:19 o'clock an alarm was responded to which gave the boys a fifteen block run to Sixteenth and Minnesota avenue.

The contents were insured. The fire had its origin in a clothes closet, the manner being unknown.

By United Press. St. Paul, Minn., Sept. 14.—Thirty thousand automobiles stolen in the United States during the last year have been unwittingly purchased by representatives of the allies and shipped to the front, according to G. A. Smith, a local detective, here today.

his other numerous duties. Much interest attaches to the honey display of J. D. Lindsay, where a demonstration case, showing the bees at work, is always the center of a curious crowd.

Union township has a creditable showing this year as has Pocasset. The Chickasha Star also maintains a booth in this tent.

Among the private agricultural displays already in is that of J. R. Cast of Acme, near Rush Springs.

Splendid Textile Showing. The textile department, of which Mrs. Ed F. Johns, the superintendent, is already in personal charge, assisted by Mrs. R. A. Lytle, Mrs. J. D. Leonard and Mrs. T. H. Williams, arouses the keen interest of man, woman and child, each of whom may find something in this department on which to ponder.

The display of quilts and handwork is especially fine as is the educational display in charge of Superintendent Shepard. The culinary section, presided over by Mrs. Gilkey, is one of the most attractive in this most interesting aggregation of varied contributions.

Poultry Department. W. W. Rossington is especially proud of the quality of entries to the poultry department over which he presides. Especially fine are the specimens of Plymouth Rocks, Rhode Island Reds and bantams which are already on exhibition.

Automobile Display. An interesting feature of the fair is the automobile exhibit in which were shown four cars by the Overland agency, three Studebakers, a Moti and a Dodge car at noon today with other entries promised for this afternoon.

Live Stock Plentiful. Those who are interested in hog production will find plenty to satisfy them in this department, which is one of the best at the fair.

Horses, mules and jacks of superior grades are entered to an extent not anticipated by fair officials and in number superior to any show ever held in Chickasha.

Then there are the contributions of "hot dog" and many other edibles for the inner man and a goodly number of side shows to interest both children and adults.

The grounds will be lighted all night and a watchman will keep vigil until morning.

TEUTONS FORCED TO DEFENSIVE

Lasting Peace Now Assured by Allied Victory Which Has Turned Tables Says French Statesman

SOLIDARITY OF ALLIED ACTION

Intervention of Roumania and Italy's Declaration Against Germany Factors in New Situation

(By Henry Wood, United Press Staff Correspondent.) Paris, Sept. 14.—Premier Briand told the chamber of deputies in an address today that at last peace, imposed by an allied victory, has been assured because the Teutonic powers are now entirely on the defensive.

"The intervention of Roumania and Italy's declaration of war against Germany completed the solidarity of action of the allies," the premier declared.

Rush Forces to Verdun. Paris, Sept. 14.—The Germans have shifted more troops from Verdun to the Somme front in an effort to check the forces of Gen. Foch that are closing in on Peronne, according to reports from the front today.

Allies Are Halted. Berlin, Sept. 14.—Reports from Sofia say the new allied offensive in Macedonia has been halted.

Operations in southeastern Roumania under the direction of Marshal Mackensen are reported to be progressing satisfactorily to the Central Powers.

Balkan Offensive Planned. Rome, Sept. 14.—A great offensive in the Balkans by the Teutonic powers is being planned at the conference that is under way at the Kaiser's headquarters, advisers received here say.

According to the tentative plans, it is reported that Germany will send 200,000 men and Austria 100,000 into that part of the war zone.

Intense enthusiasm has already been engendered in local football circles by the prospects of a crack team for the high school.

Eleven candidates for the 1916 football team of the Chickasha school reported for pre-season practice yesterday evening under the direction of Coach A. C. Reed. Most of these were on last season's squad, several being first team players.

Among the latter are Captain Walter Griffith, Tom Gardner and Carlos Wilson. Others are answering the coach's summons to town and will report as soon as possible.

The new suits were tested out yesterday and were adjudged by the boys to be very classy. They are the best that were on the market and are well padded on shoulders, elbows, hips, thighs and other parts liable to receive injury.

Practice will be indulged in every evening this week. The first game of the season is with Oklahoma City and is scheduled for September 25. That school has had a squad out for several days. This makes it necessary for the Chickasha lads to get busy at once, hence the early practice. More players are expected out every evening and no doubt two full teams will be in action before the opening of the school next Monday.

By United Press. Washington, Sept. 14.—According to the government report issued today, the cotton consumed during the month of August, exclusive of linters, totaled 558,717 bales against 464,392 bales during the same month last year.

Of the total amount consumed this year 319,826 bales were used in the cotton growing states against 248,287 last year. Linters consumed totaled 67,862 against 61,561. Imports amounted to 7,832 bales against 18,999.

Exports of the staple during the month of August, including linters, reached a total of 419,178 bales against 382,659 last year.

Spindles active August 31 were 22,299,486 against 31,951,119 last year.

GOOD LOCAL CORN CROP THIS YEAR

Better Than Average Crop Begins to Be Unloaded in Chickasha a Month Earlier than Last Year

That the size of the corn crop was a welcomed surprise to farmers in Washita valley was the assertion this morning of J. M. Peters, corn buyer, who has already received many wagon loads which are being stored until dry enough for shipment.

"Where farmers figured on between eighteen and twenty bushels to the acre they are getting thirty and forty of better looking corn than they expected was possible thirty days ago," he said. "While not equal to last year's crop the yield this year will far exceed the average as the dry weather did not have as damaging effect as was feared a month ago. The corn is coming in much earlier than last year."

By United Press. New London, Conn., Sept. 14.—Steps to relieve any unfair burdens in the Mexican taxation of foreign owned property appeared likely to result from today's session of the joint conference.

The Mexican commissioners said their country had no intention to place a tax on enterprise.

Gen. Bliss today gave counsel to the American commissioners regarding the withdrawal of the troops from Mexico.

Tenn. Troops to Go. By United Press. Washington, Sept. 14.—The Tennessee militia was ordered to the border today by the war department.

Horses and Mules Missing. By United Press. Washington, Sept. 14.—The regimental supply officers of the First and Second Illinois regiments, which left Fort Sam Houston for their mobilization camps several days ago, were ordered by Gen. Funston to return there pending an investigation of a shortage of 21 horses and mules.

WILL MAKE THE ROUND OF SITES

Navy Board Will Inspect Many of 129 Points Offered to Government for Million Dollar Armor Plant

By United Press. Washington, Sept. 14.—With the conclusion of the arguments by representatives of 125 cities, candidates for the government armor plant, expected tonight or tomorrow, the general navy board has decided to visit the majority of the sites proposed.

The propositions offered by some of the cities will be abandoned at the start because they do not come within the section of the law which provides for the location of the plant with special reference to "safety first" in time of war.

In making the selection of the city, the United Press learns that the following factors will be considered: Cost and stability of raw material, condition of labor market and transportation facilities.
