GIVES ALL THE LOCAL NEWS NEWS BY U. P. WIRE DAILY

NOW'S THE TIME FOR BETTER TEAMWORK.

At the present time at least three local movements are under way in which the business men of Chickasha have common interests.

Now it is quite evident that none of these will be more than a flash in the pan unless we have united action upon the part of the community in making them what they should be.

It was discovered a long time ago that a lot of individuals working at cross-purposes, some pulling forward, some backward and some not pulling at all, could never accomplish anything.

Pay-Up Week, which has become national in scope, has been a big success in many cities.

Fashion Week and Dollar Days have been the means of vastly increasing the business of the retail merchants in scores of cities and towns.

Thousands of communities have built better roads by getting up enthusiasm and going to work.

However, we have heard of no place where such movements amounted to

anything, unless the citizens were willing to get together in earnest co-operation, and that is what teamwork implies.

When a call is made for the business men to assemble in a meeting to promote any of these common interests, we should have a prompt and hearty response.

A VISTA OF RURAL CREDITS.

Herbert Myrick, a rural credit expert, estimates that the difference between the cost of a thirty-three year one-thousand-dollar farm loan under the present system and that under the proposed system of rural credits is \$5,100.

really own the farmer's land after the latter had put in a third of a century of hard work on it; under the other the farmer would be and remain a free man.

For the farm debt, both long time and short time, is more than a money burden; it is a means by which the farm products of the country are controlled, not for the benefit of the men who produce them, but for non-producers who happen to be in a strategic position.

AMERICA'S ADVANCE ON THE FIELD OF FINANCE.

Figures contained in an article by a leading French authority, printed

by the Paris Temps, emphasize the amazing advance made by America in the field of finance during the past two years.

"Then the United States was sending to Europe from \$200,000,000 to \$300,000,000 in interest on its borrowings. \$150,000,000 to \$200,000,000 spent by tourists, \$100,000,000 to \$150,000,000 to expatriates and \$70,000,000 to \$100,000,000 in ocean freights.

"Since the war the United States has imported \$720,000,000 in gold and has paid back a considerable amount of its previous borrowings, increased its foreign trade by \$2,250,000,000 yearly and loaned to foreign countries \$1,470,000,000, so that the dollar now has replaced to a considerable extent the old sovereignty of the English pound abroad.

"Whether the United States will retain with her deficient financial organization the position recently won will depend upon American financial and commercial policies. The arrival in France of an American commercial commission is an indication that Americans are realizing they must follow the law in exchanges between countries buying in general as much as they sell."

People everywhere have heartily endorsed this National Pay-Up Week movement. They have pledged themselves to pay up and in order to do so they have depended upon others to help them clear up their own books. It has always been a success.

Now, National Pay-Up Week is coming to our town. It is going to pass prosperity around here. It is going to help clean up our books and start with clean slates for a new business year. Join in and help out by paying the other fellow so this fellow can then pay you.

EXPRESS PACKETTES.

"It" pay you and you'll pay me. Both debts then are paid, you see: Simple system, you'll agree, Pay-Up-Week's a bright idea.

You can do better at the Chickasha stores, milady.

And don't you wish you had the babe you bought two years ago?

Moreover, it is seldom safe to trust a man who doesn't look you squarely in the face.

It's dull doin's in Chickasha when we don't build an Ozark trail or two a day—in our minds.

But it wouldn't be as hard to make ends meet if we didn't have to do and dress like other people.

Charles Deadhead of Louisiana has petitioned the legislature to change his name. Can you blame him?

Si Simp says he notices that his bank account never grows very fast as long as he spends all he makes.

With a view to busting John D.'s gasoline trust, W. W. Horne is thinking very seriously of buying a bicycle.

Another thing we are worrying about is whether the war is going to make the price of persimmons prohibitive.

Having the winners picked to a certainty, the fans are now figuring on how much money it will be right to take from their friends on the world "serious."

Imitating the example of Ed Johns, W. H. Donahue took a swim in the creek at the Country club the other day. He seemed to have the idea that he was at Shanoan Springs.

As far as we know, scientists have never been able to discover whether the one about the mother-in-law or the one about the elderly chicken and the boarding house was the original ancestor of all jokes.

A STOLEN SMILE 'ER TWO.

MARKETS

Table with market prices for Chickasha Cotton, Chickasha Grain, and Chicago Grain.

Chicago, Sept. 20.—Reports that the armies of Roumania were in a perilous position tended today to lift the prices of wheat, but word of a Roumanian victory near the Black sea, served later as an offset.

New York Cotton. New York, Sept. 20.—The cotton market lost a good part of yesterday's advance during today's trading, with December contracts selling off from 16.20c to 15.98c and closing at 15.99c.

Fort Worth Live Stock. Fort Worth, Tex., Sept. 20.—Cattle—Receipts 6000; lower and weak; steers \$6 to \$7.50.

150 STUDEBAKER CARS CLIMB PIKE'S PEAK AT NEW HIGHWAY OPENING

Under perhaps the most dramatic circumstances ever attending the opening of a new highway, 200 automobiles, 150 of which were Studebakers, participated in a parade from Colorado Springs to Pike's Peak, July 16th, and successfully ascended the new Pike's Peak Highway for the first time.

The celebration marked the formal dedication of the new highway, which is the highest and in many respects the most wonderful motor road in the world. The summit of Pike's Peak is 14,150 feet above the level of the sea.

Now that the new highway is completed, the trip to the summit of Pike's Peak is no longer the bugbear to tourists that it once was. The long twisting uphill journey, however, still furnishes a severe trial to the power and hill-climbing ability of any car. Aside from the many sharp grades that are encountered between the base and the peak, there is the consideration of the distance above sea level and the rarified atmosphere at the 14,150-foot altitude which impose tests upon the efficiency of a motor car.

Of the 150 Studebaker cars that made the climb up the Pike's Peak Highway, all made the trip successfully and without trouble, giving them a performance record of 100 per cent perfect, according to a dispatch from Colorado City.
